### BY WILL G. MACRAE.

It isn't often that we offer thanks to the rain man, but there's just a little coming to him for opening up the flood gates yesterday afternoon, just as the namelesa ones from Oakland were beginning to take kindly to Chief Pinnance's curves. Jupiter Pluvius opened the taps in earnest in the sixth inning, stopping the game in a 3-to-3 tangle.

The matinee had moved along until the lifth chapter before anything startling happened. Mr. Wright kept our home-talent going on and coming off the field without being scratched for more than two binglets. It was more like a funeral than a bail game and the only thing that livened the proceedings was the presence of a few talky bugs rooting for Oakland. In the fifth, with Bassey in the brine, Johnson got credit for a biff because Hailey tried his hand at mud skidding. Ote very promptly purloined second and Cooney's attempted sacrifice messed the stately Mr. Wright considerable, for he dropped Hogan's throw. The ball dropping act disturbed Mr. Wright's sangfroid right smart and while he was wondering The matinee had moved along until the ting act disturbed Mr. Wright's sangfroid right smart and while he was wondering what his paymaster would say when he came in from the outfield, he issued passes to Madden and Pinnace. When Pinnance rambled, Johnson came home. Casey hit a long fly to center and Cooney scored. Ryan hit to Halley and, not being a mud lark, Mr. Halley caressed the soil ground first given Para Mr.

the soil around first, giving Ryan a life and scoring Madden by a bum toss to Lewis. This was all for us.

Not to be undone in the matter of courtly courtesy, Chief Pinnance, Just to show Mr. Wright that he didn't have a corner on the wobble market, walked Smith in the sixth. Then Van Haltren, Heltmuller and Engan bombarded Pin-mance for singles and the Oaklanders began pouring over Maddenville Just like real rain. Hogan's drive to Johnson that seal rain. Hogan's drive to Johnson that allphed into the outfield brought in the tying run. In this inning, Pinnance had a chance to save his own game, but his wits were wool gathering. Casey made a clever stop of Eagan's bifflet, fell in the act of doing so and injured his sore ankie. At that had Pinnance covered first, Eagan would have been out. The score:

## Runs 100 Yards in 9 2-5 Seconds.

NEW YORK, May 21.—The University of Virginia claims to have a new sprinting champion in James A. Rector. The young runner is credited with running 100 yards in \$2.5 recently, and is being hailed as the greatest runner that ever lived. In addition to clipping one-fifth of a second off Dan Kelly's record, he defeated Smith—

SEATTLE, Wash., May 21 .- (Spe--The visitors made the Seattle ciai.)—The visitors made the Seattle team look like a huge joke today. They hit Paddy Welch hard, ran bases as they pleased and scored so regularly that the fans began to go home. Mean-while Seattle couldn't hit Califf at all, failed to steal a single base and played such speckled ball in the field that it got to be funny. meet at Columbia, and, as in the football contest of last Fall, the Farmers may spring a surprise and secure a majority of the 122 points which the events total. Record-smashing time in the sprints and hurdles is not expected, for the con-tinued rains have not left the track in first-class condition. A large crowd of college students and townspeople is ex-pected from Corvallis, and as Eugene merchants have agreed to close the stores during the meet, the attendance should be several thousand.

## Corvallis May Spring Surprise.

Reports have come to the Oregon camp to the effect that Trainer Heater has a number of clever surprises which he will take pleasure in springing on Oregon. A recent report from Corvaills was to the effect that Schroder was doing 9 4-5 seconds in the 100-yard dash and that the Aggies counted on him as a sure first Aggies counted on him as a sure first in that event. But from the Oregon end things look different and some of the very enthusiastic track followers of the University make the assertion that the Corvallis runner will have to far exceed his past performances to get even a place in the hundred.

## Moores Out of Sprints.

With Moores out of the 220, Corvallis stands a good show to gather some points stands a good show to gather some points in this event, though local enthusiasts refuse to concede Schroder first place, relying on Reid, Moon and Roberts. In the distances, Corvallis will, perhaps, show her greatest strength, but Davalt will have a close run when he hooks up with Downs, Sievers, Dodson, and May, and Organ students are locking to see with Downs, Sievers, Dodson and May, and Oregon students are looking for some surprising developments in these races. The weights look to be about even, though little is known of O. A. C.'s strength in the discus. Zacharias, of Oregon, should win the hammer, and Wolf, of O. A. C., the shot, while if McIntyre, of the varsity, gets his best heave on the discus, that event will likely fall his way. His record is 115 feet Sia inches, made at Pullman.

Break Even on Jumps.

The jumps will probably break even. Kuykendall and Huston are perhaps good for the first two places in the broad, while Moulien will give Chapman and Lounsbury a good rub for honers in the high. Oregon had no trouble at all last year in the hurdles, and likewise in the Columbia meet this year, so these events will undoubtedly fail to Kuykendall, Houston and Roberts, of the "U." Hayward counts on Moulien taking the pole vault for Oregon and will have two other good men entered in Robinson and Williams. for the first two places in the broad, while

Jefferson Demont Thompson, chairman of the Vanderbilt Cup Commission, in a letter to Robert Lee Morreil, chairman of the contest committee of the Automobile Club of America, acknowledged the receipt of the latter's letter inclosing the protest of the Automobile Club of France, reciting the fact that the subject of rules had been carefully discussed two months ago, declared that there is no possibility of any change being made in the Vanderbilt conditions.

"Rube" Armstrong, a prominent timberman of Eugene, has made what is considered the biggest catch of the trout fishing season, and seven of the speckled beauties were displayed in the window of a Portland sporting goods store yesterday. The prize of the catch is a splendid specimen of the Dolly Varden variety, which measures 28 inches, weighing eight and one-half pounds. The other six were redsides, ranging from 15 to 19 inches. The big fellow was snared by a spoon while the others were caught with a fly. The trout were sent to his friends, Thaddeus Luckey and Hubert H. Anderson, of this city. of this city

CLUB FINANCES TOO LOW

Board of Directors Has Declared Against Participation in Games. No Football Team for This Fah.

SPOKANE, Wash.. May 21.—(Special.)—For the first time in four years the Spokane Amateur Athletic Club will not be represented at the annual P. N. A. track meet, to be held this year at Portland during the Rose Festival, June 6. Financial stringency is the excuse given out by the board of directors. The board insists that the club must lift its floating indebtedness before it supports any more athletic teams.

It will be remembered that the S. A. A. C. has year after year consented to let a track team represent it in the P. N. A. meet only after a long squabble over finances: that trustees openly announced that last Fall's football team would be the last to be supported by the club financially, and that a year ago last Spring support was absolutely refused a baseball team, so that this year the members made no effort to organize one. With the passing of the track team, it is apparent that the S. A. A. C. will never again be represented in the field by an athletic team of any sort if the policy of the present board is carried into effect.

## A GENUINE MESSAGE OF HOPE

The Greatest Medical Triumph of the Century

## IMPONDERO-THERAPY

The one indispensable foundation for the satisfactions of life is HEALTH! Health is necessary to success. No man can give the strength of his mind and body to the strenuous work of building a future for himself unless he has good health. Health means STRENGTH, VITALITY, GOOD DIGES-TION, RICH RED BLOOD and STEADY NERVES! Look into the faces of those you meet on the street and you will readily distinguish the weak from the strong. Seventy per cent of those you meet-men and women-are but mere shadows of what they should be! What will it profit a man to possess a brain bright and capable enough to mold the greatest plans and ambitions, if he also possesses a body weak enough to prevent their accomplishment! You can't build SUCCESS without expending a great deal of NERVOUS ENERGY—and you can't spend nervous energy unless you have it. Weakness is usually the result of some severe drain upon the system, or overwork of both brain and body. If your blood was all right, YOU would be all right. IMPONDERO-THERAPY is the medium through which you may acquire that ALL-MIGHTY ALL-RIGHTNESS; and we want every man, woman and child in Portland who is sick to COME TO US AND GET WELL. Get out of the rut of ill-health and despondency! No pains or aches can exist in a body that is charged with good blood. Under our treatment every vestige of your troubles will quickly disappear, the sunshine of vigorous life and hope will re-enter your soul, and life will entrance you with its possibilities for YOU! No matter what your ailment may be, COME TO US AND WE SHALL CURE YOU!
