SPEAKS FOR JAPAN

Baron Takahira Says Occidental Critics Are Hasty.

WAR RUMORS UNFOUNDED

Ambassador Explains Attitude of His Country Toward its Neighbors in Speech at the Lake Mohonk Peace Conference.

LAKE MOHONK, N. Y., May 22.--Gratefully recognizing the development of the forces which make for international peace, the Lake Mohonk Conference on International Arbitration today adopted a platform setting forth its views on the peace movement. The platform commends the work of the Hague Peace Conference, notes the existence of 50 or more international arbitration treaties concluded within the last five years, commends the activity of educational institutions and business, professional and labor organizations toward the prevention of war and rejoices in the final act of the Hague Conference for a future meeting. The principal address of the early session was delivered by Baron Takahira, Japanese Ambassador to the United States. Others who spoke were

Dr. Henry C. White, of the University of Georgia; President Joseph Swain, of Swarthmore College, and William P. Rogers, dean of the Law School of the University of Cincinnati. Baron Takahira, in his address, said: Japanese Diplomat's Speech. As regards Japan, young as she is, as a modern nation, I may say without fear of being misunderstood that she is holding her own despite the vicissitudes of life through which she has been passing during the last half century. The incessant criticisms and complaints that have been brought against her regarding her attitude and policies in the Far East appear to be, in my opinion, due to the rather hasty conclusions of traveling observers. Some are advanced against our nation in our new field of industrial activity in Manchuria; others against the attitude we have adopted in the less organized kingdom under our protection. These are the countries from which Japan acquired in former times her system of government, education and even religion, by means of which we regulated our political and social life. Forced Japan to Act. If these countries could live up to their ideas of government and society, however obsolete as they may be, it is certain they could maintain their positions securely. But falling in line they have allowed themselves to fall into an unhappy condition--disorganized, misgoverned, impoverished, and thus have permitted themselves to become the prey of sinister design and selfish purposes. With such countries as neighbors Japan could not feel secure, but found her own position threatened and she was finally obliged to take necessary measures for her self preservation and to assume responsibilities for their peace and happiness. Japan Asks Patience. Disorder, retrogression and misgovernment which called for such a struggle, cannot be removed in one day and in removing them some struggles must necessarily ensue. Today we are at the stage of such a struggle. We have a saying: "Look at your work when done." I have to use this expression in answering the criticisms of travelers, but I do not mean to tell them to stop their criticisms, for we are not afraid of the truth. If there is any truth in these criticisms it will be a good lesson and we must be glad to welcome them however continually and systematically they may be sent from the Far East against Japan, so

long as they are not the result of unfriendly design intended to mistreat the friendly public of this great peace-loving country. No Danger to Peace. It is, however, a most encouraging sign of our work that even in its "half-done" stage there is no danger of disturbing international peace in that part of the world in so far as our influence extends. If every country deals with the matters between nations and also its own internal affairs in a right spirit, I am sure that even arbitration will no longer be found necessary and you will be able to enjoy a tranquility as genuine as the Spring days at this beautiful spot on Lake Mohonk. JAPAN NOW QUITE MOLLIFIED Exposition Appropriation and Trade-mark Treaty Prove Amity. TOKYO, May 22.--The appropriation made by the American Congress to provide for the representation of the United States at the Tokyo International Exposition and the signing of the trademark convention between the two countries have created a favorable impression in Japan. The newspapers editorially say that the straightforward, friendly course of American diplomacy has succeeded in dispelling any feeling of distrust that may have been entertained by Japan. These evidences of mutual consideration are taken here to contradict all irresponsible expressions of unfriendliness between the two countries, which it is believed here have emanated from persons interested in maintaining strained relations. Reyes Resumes Presidency. BOGOTA, Colombia, May 22.--General Rafael Reyes, the president of Colombia, who returned here yesterday from a trip to the Atlantic Coast provinces, today resumed the duties of Chief Executive. The match monopoly produced a net revenue of \$5,475,000 to France last year, the tobacco monopoly \$7,250,000.

CAGED BUT NOT COWED MAE WOOD WILL FIGHT AS LONG AS A PLATT LIVES. Feared Dismissal of Divorce Suit, but Not Prison--Will Not Before Pleading Guilty. NEW YORK, May 22.--Mae C. Wood, the Omaha woman who yesterday was sent to prison in default of \$500 on charge of perjury after her complaint against United States Senator Platt, whom she had sued for divorce, had been dismissed, was still in a cell today. Apparently no effort had been made to procure bail, although Miss Wood had said yesterday that she was sure influential friends in Washington would come to her assistance. "This is only one of a very vicious kind not uncommon in this city," said District Attorney Jerome today. "It will be presented to the grand jury as early as possible and if the woman is indicted, she will be placed on trial in the hope that her conviction will furnish a salutary lesson that such offenses cannot go unwhipped of justice." Miss Wood seemed not at all perturbed. "I suppose I shall have to swallow any medicine they prescribe for me for the present," she said. "But you may say this for me: As long as I live and there is a Platt alive I shall fight and fight hard for my rights." "Do you still claim you are Senator Platt's wife?" "I certainly do," she replied, "and I would have proved it if they had not robbed me of all my papers. I did not expect to win. I feared that the suit would be dismissed and I had counted on

being permitted to go on my own way--I would not have bothered old Platt after that. I did not expect this," she added as she glanced around the narrow cell. "Do you intend to plead guilty in the event of any indictment being found against you?" she was asked. "I'll not first," she shouted, the smile disappearing and her lips coming together in a straight, tight line. Assistant District Attorney Garvan said this afternoon that Miss Wood's case would be presented to the grand jury on Monday. He also said that Mr. Platt would not be called upon to appear before the grand jury as a witness, but that the record of the court in the divorce case probably would be presented. SUES TO RECOVER GRAFT United Railways Stockholder Wants Money Paid Ruef. SAN FRANCISCO, May 22.--Joseph A. Sullivan, a retired capitalist, who owns a block of stock in the United Railways Investment Company, today began a suit in equity in the Superior Court to recover the \$300,000 Patrick Calhoun, president of the United Railroads, is alleged to have paid, through T. L. Ford, general counsel for that corporation, to Abe Ruef for the purpose of influencing the supervisors to grant the company a trolley franchise. Interest on the above-named amount and costs are also demanded by the plaintiff. The complaint alleges that the suit is brought in the interest of all the stockholders of the corporation. Organize for Good Roads. NORTH YAKIMA, Wash., May 22.--(Special.)--The Good Roads Association of Yakima County has been organized, with W. L. Steinweg, president; A. H. Henry, vice-president, and H. P. James, secretary. Tans! Tans! at Rosenbath's.

MAY FORCE RECOGNITION MULAI HAFID PUTS FRANCE IN DISAGREEABLE BOX. Prospect of Entrance of Usurping Sultan Into Fez Complicates Situation in Morocco. PARIS, May 22.--The prospect of the early entrance into Fez of Mulai-Hafid, the usurping Sultan of Morocco, a circumstance that would give him possession of the three capitals of Morocco--Morocco City, Fez and Mequinez--compels France reluctantly to face the possibility of having to recognize him as the legitimate Sultan of the Empire. No move to this end yet has been made, but it is realized today in official circles that the position of Sultan Abd-el-Aziz is becoming increasingly critical and desperate. Although Abd-el-Aziz has retaken Safi and presumably has an army marching to retake Morocco City, the army sent toward Fez under General Bagdadi has been blocked by the Beni Nassen tribesmen. USURPER ENTERS MEQUINEZ Advent Is Attended With Much Pomp and Cheering. FEZ, Morocco, May 17.--Mulai Hafid, the usurping Sultan, made his entry into Mequinez yesterday. His arrival was attended with much pomp, and amid the cheers of the populace. The road from here to Rabat is still dan-

gerous; only a German courier has been allowed to pass. Miners Ratify Agreement. KANSAS CITY, Mo., May 22.--Thirty-five thousand coal miners of Missouri, Kansas, Oklahoma and Arkansas, members of the United Mineworkers of America, who have been on strike since March 1 last, will return to work early next week. The convention of miners of these states here today ratified and signed the agreement reached by the joint subcommittee of miners and operators late last night. Prices and conditions are to remain the same as they were last year. Influenza, like cholera, always travels from east to west. Hagan shows fit the test. Rosenbath's. Hood's Sarsaparilla "Is Foremost" "AS A SPRING MEDICINE." "To create an appetite and regulate the whole system, with us, as ours is a New England farmer's home, 20 miles from a large town. We keep it on hand and cannot express the value it has been to us. After suffering for years from dyspepsia four bottles of this medicine gave me better health than for many years." Mrs. E. L. Berry, West Troy, Mo. "In the spring I have that tired feeling and can not eat, but after taking two or three bottles of Hood's Sarsaparilla I always feel like a different person and I advise every one needing a tonic to give this medicine a fair trial." James Hey, 3070 Amber St., Philadelphia, Pa. In usual liquid form or in chocolate-coated tablets called Sarsatabs. 100 Doses One Dollar.
