**Gossard "Lace Front" Corsets**

Said Mrs. Redding, the expert corsetier who is with us this week representing the manufacturers, "they would have no more need of a corset than would a West Point cadet, but a woman won't, and when a woman won't, well—it's L'irresistible or a Gossard corset for her." They are the only corsets in the world which compel the correct standing position. When a woman stands correctly, every part of her anatomy takes its rightful place. The flesh relieved of duress is naturally distributed in graceful proportion. No matter what the figure, it assumes its excellence of symmetry. Nature, not the corset, does this when given a chance.

afford nature this chance. Positively they are the only corsets in the world successfully designed and manufactured to achieve this great accomplishment.

**ARRANGES FOR AMBULANCE**

**HEALTH BOARD CONTRACTS WITH RED CROSS COMPANY.**

Day and Night Service Is Obtained With Ambulance at All Large Fires—Relief to Police.

After a lengthy discussion and much urging the Health Board at its meeting yesterday morning decided to award the city ambulance contract to the Red Cross Ambulance Company. There were three bidders for the contract, but the bid of one was not accompanied by check as required, while

the other company took exception to handling calls of a contagious nature. It was suggested during the discussion which followed the receipt of the bids that the city operate its own ambulance service, but careful figuring showed that this arrangement would cost considerable more than letting out the contract to an individual company. The Board failed to see how the city could operate the service under \$100 a month, to say nothing of the cost of an ambulance and the securing of horses. It would be necessary, so it was said, to have two drivers and two span of horses in order to maintain a night and day shift. The Red Cross Ambulance Company is not particular what kind of calls it handles and, according to its bid, will do the work for \$174 a month. It was estimated that altogether the city has an average of 80 calls to look after a month. Sixty of these calls, according to Chief of Police Gritzmacher, come through the police station. Heretofore it has been necessary for the patrol wagon to be utilized in answering

these calls. This necessity has always been considered objectionable by the police.

Under the specifications it will be necessary for the Red Cross Ambulance service to have one of its ambulances at all large or serious fires, as well as to answer all calls that come in, whether at night or during the day. The city will by this arrangement be afforded a day and night service at what is considered an exceptionally reasonable expense.
