House Cleans Up Work and Waits for Senate.

FISH CULTURE ON SOUND

Agricultural Land in National Forests to Be Open-Foreign Vessels Allowed to Bring Passen-

gers From Hawail.

WASHINGTON. May 28.—While the Senate was wrestling with the currency question, the business of the House to-

question, the business of the House today went merrily on. The following
measures were passed:
To establish two or more fish cultural
stations on Puget Sound. Wash.;
amending the laws of transportation
between Hawaii and the United States
by removing the penalty for carrying
passengers from Hawaii to this country; providing for the entry of agricultural land in forest reserves; establishing an assay office at Sait Lake, Utah;
incorporating the Brotherhood of St.
Andrew and incorporating the Congressional Club, which is composed of
wives and daughters of Senators and
Representatives.

The work of the House being practically completed, and the heat being unusually oppressive, recease at 4:40 P.
M. was taken until 11:15 tomorrow moraing.

HOUSE REMOVES A BARRIER

#### Allows Foreign Vessels to Bring Passengers From Hawaii.

WASHINGTON, May 28.—A bill amending the laws relating to transportation between Hawaii and the United States was passed by the House today. It provides that for a period of six years passengers may be transported between Hawaii and the United States. States in foreign vessels without pen-aity unless in the meantime a new line of at least three steamenips of the Uni-ted States shall have been established

ted States shall have been established on that route.

The hill was supported by Littlefield, Malne: Humphrey, Washington, and Kalanianaole, Hawail, and opposed by Kahn, Hayes and Needham, of California. The principal arguments of the opposition were based on the statement that such a law would result in a loss of business to American ships and a corresponding increase of business to vessels of the Japanese lines.

NEW POLICY AS TO COAL LAND

#### Roosevelt Signs Bill Putting It in Force in Alaska.

WASHINGTON. May 28.—President Roosevelt today signed a bill which in the opinion of many persons is the most radical measure of legislation enacted during his administration. Its title is, "to encourage the development of coal deposits in the territory of Alaska," and its principal provision includes an attempt to prevent monopoly by restricting holdings to 2560 scres of coal lands and providing a penalty of forfeiture of all holdings by persons, individually or in combination, who get possession of more than this number of acres. It also gives the Government the first slaim on coal that may be mined, thus puranteeing fuel supply for the Navy.

ROPAGATE SALMON ON SOUND

#### - House Passes Bill, Though Southerners Cry Favoritism.

WASHINGTON, May 28.—A bill was passed by the House today providing for the establishment of two or three more tish cultural stations on Puget Sound, Washington, for the propagation of salmon and other food flah. The bill gave rise to a good deal of criticism of the Speaker, by saveral Demogration as the several Democrats, as they charged that he showed favoritism in allowing that particular measure to be con-sidered while others of a similar charac-ter must remain in committee. Humphrey of Washington urged the passage of the bill, pleading that the

hatcheries were necessary in order to pre-vent the salmon from becoming extinct. The bill was opposed by Williams, Spight and Canier of Mississippi. It was supported by Payne of New York, who said that it was a case of legislating for the

#### SUNDAY CLOSING UPHELD

Washington Supreme Court Declares New Law Is Valid.

OLYMPIA, Wash., May 28 - (Special.) -The State Supreme Court today again affirmed the constitutionality of the state Sunday closing law. Following its decision of some months ago, a test case was brought in Seattle in the form of habeas corpus proceedings on behalf of Frank H. Donnellan, a theatrical man-ager, for keeping his showhouse open on Sunday. The artempt was made to on Sunday. The attempt was made to upset the law because the original bill passed by the territorial Legislature excopied, which copy omitted this excep-tion, is a new law, supersedes the old, and holds that the act is valid and denies the application for habeas corpus.

There was a long debate amendment regarding the executive committee, Dr. S. J. Niccolls of St. Louis protesting against the action, "which would cast a shadow on 200 of the best men in the church." After the assembly had adopted the amendment, Dr. Rice Vernon Hunter of Buffalo introduced resolution, to be referred to the mittee on policy, providing that a committee be appointed to report at the next general assembly in an effort to secure action which would make possible the holding of the general assembly less frequently, as it was too much of a burden on the churches.

#### Progress of Prohibition.

"Eight million six hundred thousand people abolished the saloon last year including four states. The seven proincluding four states. The seven pro-hibition states have a population of over 10,000,000, while 27,000,000 more live in other Prohibition territory, making about 45 per cent of the total population of the United States free from the blighting influence of the sa-loon. Of the 24 Legislatures in ses-sion last year, 20 passed laws unfavor-able to the liquor traffic, while not a Legislature has been in session the present year that has not had one or present year that has not had one or more temperance bills before it. In recent years no legislation favorable to the liquor traffic has been enacted." Such was the language in which the passage of the temperance movement in the United States was reported to the general assembly of the Presby-terian Church in the United States of

America today.

In addition to the report of the committee, these figures are increased by the fact that in 78 out of the 98 counties in the state of North Carollina last Tuesday the Prohibition ticket carried by overvhelming majorities.

Big Cities Go Dry.

It was shown that the victories of the opponents of the liquor traffic were not confined to rural districts, but included such cities as Kansas City, Kan.; Atlanta. Ga.; Birmingham, Ala., and Worcester, Mass., each with a population of over 100,000. Ten other cities of over 50,000; 22 of over 20,000 and 76 having between 5000 and 20,000 have banished the salcon. TUCSON, Ariz. May 28.—The Arizona Democratic convention met in Tucson today and elected delegates instructed to vote solidly for the nomination of William J. Bryan. The mention of the name of Bryan occasioned prolonged cheering. The greatest ovation of the day was tendered Delegate Mark A. Smith, who has represented Arizona in Congress for 20 years. He was heartily commended and indorsed. When his name was brought before the convention the delegates cheered for fully 10 minutes. The demonstration and the resolutions indicate beyond question that Smith will again receive the Democratic nomination for delegate in the Fall. An acre of this ground will make you a seller instead of a buyer of fruits and vegetables, not to speak of what you can do with chickens and other fowl, while you continue work in the city at the same time. One of these

Madison Villa

will make you independent. Tou'll always have a place to turn a leisure day or hour into a productive one; you'll have a home-place that's beautiful and that will bring you a big advance on the cost in a short space of time if you wish to sell. 15 minutes on the Oregon Electric takes you to Madison Villa Acres, closer to town and cheaper than lots in any other direction and surrounded by residence tracts.
