

TODAY'S SEALS  
CANDIDATES' FATE

Polling Places Will Open at 8 A. M. and Close at 7 P. M.

LIST OF VOTING BOOTHS

Ballot Boxes for the Most Part Will Be Located at Same Places as for the Primary Election in April.

The voters of Multnomah County and of Oregon will today determine at the polls their choice for the various executive offices of their respective counties and of the state. The polls will open at 8 A. M. and will remain open until 7 P. M. If the judges of election choose to do so, the law provides that they may adjourn for one hour, between 1 and 2 P. M.

The voting places for the most part remain the same as at the primary election in April. The few changes that have been made are for the purpose of convenience or from necessity. The 48 portable houses have been erected upon high ground wherever possible, in preparation for possible rain. In several of the larger precincts the number of voting booths has been increased, as it was found at the primary election that there were not enough. The law relating to the details of the balloting follows:

Section 2700—All general and Presidential elections held in this state shall be conducted under the provisions of this act and the polls shall be opened at the hour of 8 o'clock in the forenoon and continue open until 7 o'clock in the afternoon.

BIG FIGHT ON ANNEXATION  
LARGE DISTRICT MAY COME INTO CITY.

Ten Thousand People Will Be Added to Population if Measure Is Passed Today.

In the Mount Scott district, where the people of four sections will vote on the question of annexation, this question has overshadowed all others involved in the election today. Yesterday both sides were busy presenting their final arguments. The advocates of annexation are much better organized than their opposers. They formed the Mount Scott Annexation Club, with O. N. Ford as president, several months ago, and have conducted a systematic campaign through public meetings and other means and have been successful in setting forth the benefits that are expected from a union with the city.

FACTS ABOUT CONFERENCE

D. A. Watters Tells of the Men and Ways of This Body.

PORTLAND, May 30.—(To the Editor.)—I have read with great pleasure and delight your very able and fair editorial on the General Conference and Methodistism which has appeared in The Oregonian of recent issues. They come from the pen of a ready writer and one who is evidently acquainted with Methodist history and usage. There are, however, exaggerated events reported by the public press which, to the uninitiated in the history, ideals and work of the General Conference, when taken alone, give an erroneous and consequently detrimental impression.

WOMEN OF WASHINGTON INTERESTED IN MEASURE.

Mrs. May Hutton Declares Success in This State Would Strengthen Cause Across Line.

That the outcome of the woman's suffrage amendment which will be decided today is being awaited with intense interest by the women of Washington was the opinion expressed yesterday by Mrs. May Hutton, of Spokane, who has arrived in Portland to participate in the automobile parade on Wednesday.

Boys to Make Tests With Wireless

Members of Progressive Club Will Endeavor to Send Messages From Council Crest to Mount Taber.

THE Progressive Club, a boys' organization for the study of wireless telegraphy, is preparing to give an exhibition of experiments in Portland, including rather remarkable undertakings for boys of 18. It is their hope successfully to send messages from the observatory on Council Crest to Mount Taber—a distance of six miles—and in order to do this, they have been to Boston to obtain some of the latest instruments. The club was organized only six months ago, and 19 of the 30 members have constructed their own wireless sets. The club is devoted almost wholly to the study of wireless telegraphy. It has already given a number of public exhibitions, and the boys who were in charge of them, Charles Austin, Charles Fine, Stanley Savage and Leland James, have been complimented on splendid results obtained. Among the Portlanders interested in the welfare of the club is Dr. Ralph Walker. He has given material aid to the club by the many instructive lectures delivered on wireless telegraphy. He is well acquainted with the subject, and has enlightened the members on many questions. The operator in charge of the wireless apparatus on the steamer Rose City has allowed the boys the privilege of examining it evenings, when most of the sending and receiving of messages is done. At the regular meetings the Progressive Club members discuss the results of their experiments. In this way they help one another to overcome the almost endless trouble encountered in constructing their "sets."

A. N. HAMILTON

Watters' life 12 years. The years of Watters and Finn more than cover all of American Methodism. The church has not reached her present high eminence on flowery beds of ease. She has been antagonized from the beginning. The denominations opposed our rise and progress on doctrinal differences and because of our peculiar usages. They all respect us now and we love them, and yet we have not changed a single doctrine, all remaining as delivered to us by John Wesley. Our usages have changed somewhat, proving our adaptability to new conditions and the progress of mankind. The pastoral address of the Bishops delivered to the General Conference in proof positive of the comprehensive view taken of the universal interests of the human race.

MR. HAMILTON'S NAME HAS NEVER BEEN TARNISHED THROUGH CONNECTION WITH ANY CROOKED SCHEMES OF HIGH FINANCE

We will resume the only private wire service from Portland to Eastern Exchanges on June 1, and will have unexcelled facilities for the Purchase or Sale of Stocks, Bonds, Cotton, Grain, Etc.

United States, and so continued to the end. But a multitude of others of equal heart and mind have come up through our Sunday schools and church to the high places of the country, even to the Presidency and Vice-Presidency of the United States. The eight men just named to the episcopacy are true and tried men from the pastorate, editors and educators, but all were first pastors. The General Conference is not to be seen alone in the men composing it, but in the things eternal for which it stands.

Put This Stove in Your Kitchen

It is wonderfully convenient to do kitchen work on a stove that's ready at the instant wanted, and out of the way the moment you're done. Such a stove is the New Perfection Wick Blue Flame Oil Cook-Stove. By using it you avoid the continuous overpowering heat of a coal fire and cook with comfort, even in dog-days. The

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is so constructed that it cannot add perceptibly to the heat of a room; the flame being directed up a retaining chimney to the stove top where it is needed for cooking. You can see that a stove sending out heat in but one direction would be preferable on a hot day to a stove radiating heat in all directions. The "New Perfection" keeps a kitchen uniformly comfortable. Three sizes, fully warranted. If not with your dealer, write our nearest agency.

The Rayo Lamp is the ideal lamp for family use—safe, convenient, economical and a great light giver. If not with your dealer, write our nearest agency.
