

TWO GOOD SALES

Auctions This Week at Shaniko and Vale.

YAKIMA CLIP IS LARGE

Growers in That Section Expect to Sell Their Wool at About 10 Cents - Montana Shipments Will Be Heavy.

Two wool sales are scheduled at Eastern Oregon points this week, at Shaniko today and at Vale on Friday.

Oregon wool sold last week at Pendleton, Pilot Rock and Heppner will doubtless go a long way toward establishing values in all parts of the Pacific Northwest this season.

Yakima sheepsman are accordingly figuring on securing about 10 cents for their clips, as Yakima wool generally sells about 2 cents a pound below the price of the Yamhill product.

The output of the Yakima and Kittitas valleys this year is estimated at about 1,500,000 pounds. There are no sealed bids in that section and the wool is sold direct to buyers. It is thought by buyers now there that a large quantity of the wool will be stored by sheepsman in the hope of getting a better market.

In Utah and Wyoming the movement so far has been very slow, most of it being on consignment at advances of 4 to 8 cents. New Arizona wools are an Eastern market and changing hands freely at from 15c to 17c cents, the second basis being placed at 45 to 48 cents.

Advices are arriving from Montana reciting the severity and long endurance of the late storm which was the worst experienced in that section and the oldest section. Miles City, the center of the wool-growing industry, reports that in some sections over four feet of snow fell. As a result of this unexpected outbreak thousands of newly born lambs have perished, and in consequence, the sheepsman have suffered very severe losses. This, however, will not interfere with the coming wool shipments. It is conservatively estimated that there will exceed all previous records by many million pounds. This is owing to the fact that the flocks are in splendid condition and are shearing nine and ten pounds to the animal.

FRESH PRODUCE SUPPLY IS SHORT

Car of Tomatoes Due From Mississippi This Morning.

Trade was exceedingly active in the fresh produce lines yesterday and the supply of most kinds of fresh vegetables proved insufficient. Berries of all kinds were short.

About 400 crates arrived from California and were firm at \$1.75 per box. Rio Grande were in light supply and sold readily at \$1 per crate and ordinary Oregon berries at 15 cents per pound. Cherries moved well at \$1.35 per box and apricots were lower at \$1.50 per box. No cantaloupes came in, but some were carried over from Saturday.

They are too high yet to meet with much favor. Oranges are scarce on the street, particularly small to medium sizes. A car of Mississippi tomatoes is due this morning. They will offer at \$2.25 per four-basket crate. A car each of mixed vegetables, onions and cabbage arrived yesterday.

PATTERSON OF OLEQA, SELLS HOPS

Last Crop That Will Be Raised on Well-Known Washington Orchard.

M. E. Patterson, of Oleqa, Wash., one of the best-known hop-growers in that state, has raised and sold the last crop of hops from his yard. Yesterday he disposed of 100 bushels of hops at 12 cents per bushel, at 6 cents a pound. Mr. Patterson has plowed up his yard and will hereafter devote his farm to other kinds of agriculture.

The only yard in ordinary Oregon berries Oleqa district is that of George Bertrand, of 20 acres. The local market was quiet yesterday. Several dealers from extensive trips through the Valley and all reported the yards looking poorly.

Weekly Grain Statistics.

Table showing weekly grain statistics with columns for Bushels, Decrease, and American visible supply.

Grain Markets Are Quiet.

Some shipments of grain are being made to the East, but in general the market is quiet and steady with very little offering.

Eggs and Poultry Should Sell Better.

There were no features in the country produce market yesterday. Eggs were quoted weak in some quarters and firm in others and poultry was dull.

Bank Clearings.

Clearings of the Northwestern cities yesterday were as follows:

Table showing bank clearings for various cities including Portland, Seattle, Tacoma, and Spokane.

Board of Trade Quotations.

Table of board of trade quotations for various commodities like wheat, flour, and oil.

STOCKS AGAIN RISE

Upward Course of Prices Unexpectedly Resumed.

MOVEMENT A STEADY ONE

Large Operations in the Harriman and Hill Issues—Effect of the Passage of the Currency Bill.

NEW YORK, June 1.—The strength of the stock market today, both in its extent and its character, proved a surprise to the most hopeful observers.

Prices showed a momentum and absence of hesitation that were of convincing effect on those that had been doubtful of the range of prices prevailing. The most conspicuous buying was by brokerage houses, who were the heaviest sellers in the break of last week and who are commonly supposed to represent the financial forces which were credited with the previous operations for the rise.

Operations continued to an overwhelming extent in the Harriman and Hill stocks, St. Paul and Reading and switched to a slight extent during the day into United States Steel and Amalgamated Copper.

As far as any actual new developments were concerned, the enactment of the emergency currency measure and the adjournment were the only news of the day.

The response to the passage of the emergency bill indicated that the financial community had laid more stress on that measure than was usually supposed. There was some reaction of opinion evident as to the scope of the effect of the Wabash-Pittsburgh receivership, especially among the other Gould properties.

The stock market showed a steady resiliency in the last, coming up persistently from successive set-backs caused by earlier sales to take profits and closing buoyant and furiously active.

WHEAT LAST

Strong Demand for Wheat and Light Offerings.

PRICES ARE FIRM ALL DAY

Wet Weather in Kansas Is the Principal Cause of Buying at Chicago. Reports of Crop Damage in Europe.

CHICAGO, June 1.—The wheat market was strong all day. The wet weather in Kansas furnished an incentive to buyers at the opening, and as offerings were light, prices were easily advanced.

As trading progressed the market was further strengthened by reports repeating former claims of damage by dry weather in Southeastern Europe. A bulge in corn also caused bullish sentiment in wheat. There was some reaction late in the day on the profit-taking, but the market closed firm. July opened 1/2 to 3/4 higher at 80c to 80 1/2c, and advanced to 81c and then advanced to 81 1/2c and closed up 1/4 to 3/8 at 81 1/2c to 81 3/4c.

Further delay by rains to seeding operations caused strength in wheat. The market closed strong 3/4 higher. July opened a shade to 1/2 higher at 67 1/2 to 67 3/4, and advanced to 68 1/2c. The close was at 68 1/2c and 68 3/4c.

Oats were in sympathy with wheat and corn. July opened 1/4 lower to 1/2 higher at 47c to 47 1/2c, and closed at 47 1/2c.

Trading in provisions was active and the market was firm. At the close July pork was up 1/2c at \$13.75. Lard was 2 1/2c higher at \$8.50. Ribs were 1/2c higher at \$7.42.

Leading futures ranged as follows:
