

AUTO DRIVER IS SERIOUSLY HURT

W. Folberth, Trying Course of Road Races, Meets With Fearful Accident.

COMPANION ALSO INJURED

George McCartney Suffers Severe Bruises—Car Strikes Piece of New Road and Turns Over, Pinning Folberth Beneath.

William Folberth, a professional automobile driver and road racer of considerable note, was probably fatally injured, and George McCartney, another driver, was severely hurt by the overturning of their Oldsmobile racing-car at the intersection of the Section Line and Gresham roads about 6:10 o'clock last night.

Machine Turns Over Three Times.

Folberth was evidently unaware of the fact that the new piece of roadway was not yet finished, for as soon as his machine struck the soft earthen road, it careened heavily, and the driver attempted to steer out again it turned completely over three times, and each time the unfortunate driver was beneath the car, pinned in his seat by the downward wheel. McCartney was beneath the car only on its first revolution, for he was not held in the seat, and was left in the clear as the car turned the second time.

Taken to Twelve-Mile House.

At the Twelve-Mile House a superficial examination of Folberth's injuries was made by Dr. McKay, who found the man to be too badly injured to be removed from the scene. With the feeble assistance of McCartney, who was painfully hurt, the physician succeeded in extricating the badly injured driver from beneath the overturned machine, and removed him immediately to the Twelve-Mile House, about one and one-half miles distant from the scene of the accident.

New Road Not Finished.

The scene of the accident is practically within the confines of the village of Gresham. The turn from the Section Line road into what is generally called the Gresham road is a sharp one, and the Portland Automobile Club secured the consent of the owner of the property at the northwest corner, to build a road over his land in order to lessen the danger at that point. This new piece of road had not been completed when Folberth attempted to negotiate the turn. The result of his speeding vehicle hitting the soft earth with the wheels of one side while those of the other remained on firm ground, caused the machine to capsize and its momentum was such as to cause it to turn over three times. That the two men were not killed instantly is said to have been miraculous. Several prominent auto drivers who were well acquainted with Folberth returned from the Twelve-Mile House late last night, and stated that there was a possible chance for his recovery.

SEND CLEVELANDS CAKE

Friends Remember Their Twenty-second Wedding Anniversary.

PRINCETON, N. J., June 2.—The 22d wedding anniversary of ex-President and Mrs. Cleveland was quietly celebrated at their home here today. A wedding cake was presented to the Clevelands by Princeton friends. Mr. Cleveland is reported to be doing very well, though he has not yet taken his accustomed afternoon drive about Princeton.

OREGON MAN IS ELECTED

Dr. C. A. Dunway New President of Montana University.

HELENA, Mont., June 2.—The State Board of Education today elected Dr.

C. A. Dunway, of the chair of political science and history at the Leland Stanford University, California, as the successor of O. J. Gaik, who recently tendered his resignation as president of the State University of Montana. Dunway will assume his new duties September 1.

Dr. C. A. Dunway, who has just been elected president of the State University of Montana, is well known in Portland, where his mother, Mrs. Abigail Scott Dunway, and numerous relatives reside. He was born in Albany 42 years ago and received his early education in the public schools and High School of Portland. He attended the University of Oregon two years and upon graduation went to Cornell University, where he graduated after a four-year course. He then took a two-year post graduate course at Harvard and taught English and American history there for one year in the absence of another professor. He was then called to Stanford University, where he has since held the chair of political science and history. Dr. Dunway is the brother of Willie C. Ralph B. H. R. and W. F. Fland, all of whom are well known here.

ANY ONE IN TEN MAY WIN

TODAY'S DERBY DECLARED MOST OPEN IN YEARS.

King Edward Has Entry—Also Belmont and Vanderbilt—Being Heavy on English Horse.

LONDON, June 2.—7:50 P. M.—The most open Derby in 90 years; there are at least ten horses with equal chances of winning; not less than a dozen probable starters have coteries of supporters. With the continuation of the present fine weather a record attendance at Epsom is looked for, and a conservative estimate is that close to half a million people will be on the famous downs. In the crowd will be thousands of Americans.

Two Americans Strongly Backed.

Two American horses will take prominent parts in the race, so that the United States will be represented on the track as well as on the stand. Norman III, owned by August Belmont, has many supporters, so many, indeed, that since he won the Guineas he has figured almost continuously at the head of the betting lists. He was only supplanted for a few days by Perrier and for this change of money that section of the public which allows the best to win, so that the betting is held responsible. The other American horse, Sea Sick II, owned by W. K. Vanderbilt, which ran a dead heat for the Derby recently, also will carry a lot of American and French money. A large number of Americans favor Sea Sick II over Norman III, as it is believed that the latter will be the winner. There is another American-owned horse in the race, the property of James R. Hatmaker, an American resident of Paris. Azote is attracting attention chiefly by reason of his owners' attempt to prove that a salt fed on dried milk has an advantage over the ordinary ordinary manner. Azote has never tasted either oats or corn, but has been raised on a diet of dried milk with small quantities of hay.

Two American Jockeys.

In addition to these three American horses, two American jockeys, Maher and Lyne, will have mounts in the race. Maher, who is the property of James R. Hatmaker, is confident of victory. Lyne is the property of the Duke of Devonshire. The best of the race is expected to be won by Sea Sick II, but Mr. Vanderbilt has come over from France for the race and they were joined here today by Mr. and Mrs. August Belmont, who arrived on the Lusitania. Richard Croker also will be at Epsom and he doubts not that he will be the most conspicuous figure at the Derby. He is considered the best rider of the year and is a great favorite for the Oaks on June 5. King Edward and other members of the royal family will be present.

The latest betting, the odds being quoted in the following: Norman III, 95 to 20; Mountain Apple, 100 to 11; Sir Archibald, 55 to 10; Sea Sick II, 100 to 10; Perrier and Lusitania, 100 to 7; White Eagle, 100 to 7; Vamose, 100 to 6; Orphan, Primer and Mercutio, 100 to 4; Azote, 200 to 1.

Amusements

What the Press Agency Says.

"The Halfbreed" at the Baker. One of the most beautiful scenic plays ever presented on the Baker stage is "The Halfbreed," which the Stock Company is offering this week. It is bright and breezy, a typical Western play, and is filled with strong scenes and characters, and ran for seven weeks at the Burbank Theater at Los Angeles, to packed houses.

Musical Comedy at the Star. The only musical comedy in Portland is "A Tale of Two Cities" at the Star Theater. A special added attraction is the Battle of the Flowers, which is given Monday evening at each performance. Those seeking a cheerful entertainment, with many comedies, pretty chorus girls, plenty of songs and dances should attend tonight's performance of "A Tale of Two Cities." There is a daily matinee and two performances each evening.

Knights of Columbus Show. The cast of the comedy drama, "Days of Polly," are hard at work in preparation for the production at the Healy Monday evening, June 8. Though little has been said about the "Days" Knights have been rehearsing the "Days" for over six weeks. Seats are now on sale.

COMING ATTRACTIONS. Dockstader's Minstrels. The attraction at the Healy Theater, Fourteenth and Washington streets, next Saturday and Sunday nights, June 6-7, will be the famous American minstrel, Law Dockstader and his big company. The engagement will open with the special matinee Saturday afternoon at 2:15.

"Lovers Lane" Next Week. Clyde Fitch is the author of "Lovers Lane," which the Baker Stock Company is presenting in rehearsal here. It will open Sunday matinee and will be a delight to everyone fortunate enough to see it. Fitch has written many different kinds of plays with marvelous success.

AT THE VAUDEVILLE THEATERS.

Unexcelled Vaudeville. You have never seen better vaudeville than is being presented by Pantages at the Marquam Theater this week. The Gotham comedy duo, the three speedy "Vamans" in a superb rapid-fire juggling act; Del-a-Phone, the marvelous imitator, and all the rest represent the best in vaudeville.

Rose Festival Vaudeville. Sullivan & Comidine have sent a great vaudeville show to the Grand in honor of the Rose Festival, and this week there is being given at the Grand one of the greatest vaudeville acts in the city. The act is brought to Portland. The 12 Pekin Zouaves are the headliners. Another big act is George Wilson, the old-time minstrel. His monologue is a sure cure for the blues.

Musical Comedy at the Oaks. Manager Freeman certainly hit upon the right idea when he secured the Allen Curtis Comedy at the Oaks. This brilliant comedy at the Oaks. This brilliant comedy at the Oaks. This brilliant comedy at the Oaks. It's a scream.

ANNEX IMPORTANT SECTION ESTIMATE OF 10,000 ADDITIONAL POPULATION Southeast Residents of Suburbs Make Water Supply An Issue in the Annexation Election The territory in the southeast affected by the annexation vote comprises four full sections and portions of sections 7, 8, 17 and 18, and adds four square miles of territory to the City of Portland. The population in this territory is estimated at 10,000, and it is growing rapidly. The four sections include Woodstock, Ivanhoe, Tremont, Tremont Place, Woodmere, and Woodmere. Besides this general water company, there are several private water plants that supply neighborhoods, but the general desire has been for Bull Run water. In the Summer, when the weather is hot, there is a heavy drain on the water supply, and at night there have been times when water has been rationed. The Woodmere company has done all it could to furnish water. The campaign for annexation was fought mainly on the water supply question. The people want Bull Run water, and they hope to see a reservoir built on the top of Mount Scott for the second Bull Run pipe line. It is a well-built suburb. The houses are attractive and some are pretentious. There are a number of business houses, attractive church buildings and an 8-room schoolhouse. Many Petty Thefts Occur. Although special precautions were supposed to have been taken by the detective staff of the Police Department to prevent the operation of pickpockets during this week of festivities, many were at work last night among the crowds which thronged Washington, Morrison, Sixth, Third and Alder streets. The police were deluged with reports of petty thefts, principal in importance among which were the cases of C. F. Cox and William Buchanan. These two are from Moro, Sherman County, Or. Together they started out sightseeing last night. Mr. Cox had \$25 in his pocketbook, tucked away in his inside pocket. Mr. Buchanan had \$5. He disguised it by wrapping a pocket handkerchief around it, after which he thrust it in his hip pocket. Olympia Malt Extract, good for grand-ma or baby. Only 15-100 of 1 per cent alcohol. A SIMPLE HOME EXPERIMENT Please note the next time you brew some coffee, if you use any of the ordinary brands, the muddy, yellow scum and sediment that rises to the top. Skim this off, let it stand, taste it. You won't enjoy this part of the beverage. Drink enough of it and you will become deathly sick. The part of the coffee berry from which is generated this obnoxious element is a useless and harmful herbal substance.

PURITANATED BRAND COFFEE is the best coffee procurable. From it has been extracted every bit of the cellulose tissue which is bitter, disagreeable and contains about 10% of a form of tannic acid. Because this has been taken out of "Puritanated" Brand Coffee before it reaches you, the result is a pure, delicious, healthfully stimulating beverage that is richer in the desirable coffee elements than any coffee you have ever used. This is why a pound of "Puritanated" will go one-fifth further than other kinds. Just think of this yourself. Reason it out and then if you are interested, in order to find out something more in regard to this subject
