Y. W. C. A. AT THE ROSE SHOW

Serves Lunches and Dispenses Ice Cream, Candy and Souvenirs.

Visitors to the Rose Show Tuesday and yesterday found an additional attraction in the Coos County building, where members of the Young Women's Christian Association served delicious lunches and dispensed home-made candy, ice cream and souvenirs, many of the latter being hand-made and of the "unobtainable-elsewhere" variety. The veranda of the Oregon building was effectively decorated with Scotch broom and fir, which formed an excellent background for the soda fountain and candy booths with their charming attendants. The money raised in this way by the association is to be devoted to the furnishing of the new cottage

BABIES TO SELL.

Not Quite New, Just a Little Used, Enough to Show Character and Develop Sweet Voices.

A new baby naturally creates excitement and interest but it's the baby that has developed somewhat that holds attention—five or six months—a year, then they are at their best. Few people, if any, have too many babies—we are the one exception—have more than we have room for—all fine babies too—best in the world. Chickering babies, the small grands, this one in particular cost \$600 but financial stringency last winter caused a sacrifice by the owner and now it must be sold at much less than actual worth—present price quoted on application at our store. The Beck, Richard Wagner's and Liszt's favorite instrument, is here in a small or baby grand, that sells in New York and elsewhere at \$950, this one has had but very little use, it's like new, if taken at once \$325 will send it home. In addition to above we have several "baby" and small grands, used but not abused, big values at little prices, to make room for "in coming" shipments. Savings on these beautiful instruments are not less than a third, enough to interest anyone needing a grand. A call at the store will convince the most skeptical buyer that we are selling "babies" at almost half value. Eilers Piano House, 323 Washington street, corner Park.

No Persons Allowed to Go on Board After 3 P. M.—Charleston Beautifully Illuminated at Night.

Officers of the cruiser Charleston and the gunboat Yorktown were forced to close the gangways of the vessels at 3 o'clock yesterday afternoon and refuse to admit any more visitors to the ships. Crowds and crowds of sightseers, conveyed in every available craft, went to the warships yesterday and by early afternoon the capacity of every vessel in the harbor was taxed to the limit. At the foot of Stark street, where launches and the jam was so great that it required the combined efforts of Captain Spier, the harbor master, and three assistants to keep order and prevent accidents.
