

THE REPUBLICAN, FULTON'S OPINION

Declares Federal Constitution Governs Election of Senators.

IGNORE STATEMENT NO. 1

Believes Intent of Primary Law Is Republicans Shall Elect Choice of Party—Bourne Takes Opposite View.

WASHINGTON, June 3.—(Special.)—Senator Fulton believes the Republican Legislature should elect a Republican Senator. Asked for his views on the subject, Mr. Fulton today made the following statement: "The constitution of the United States imposes on the Legislature the duty of choosing a United States Senator. Each individual member of the Legislature, of course, has imposed upon him a portion of that responsibility. The Federal Constitution itself provides that each member of the Legislature shall take the oath of office to support it. Now to support the constitution means to carry out its intent and purpose and conform to its requirements and mandates. When, therefore, a member of the Legislature swears to support the constitution honestly and faithfully, he swears that he will honestly and faithfully choose a Senator."

Must Follow Own Judgment. "Can any one reasonably contend that a Republican, believing in the policies of the Republican party, would be exercising his legislative duty by not honestly choosing pursuant to his judgment should he support a Democrat for the United States Senate? It must be remembered that a United States Senator is a National official rather than a state official, in that he legislates for the entire country. Hence the people of every state are interested in the selection by a state of its Senators, and they have a right to have the supreme law of the land observed in such selections. "All this means, so far as the state is concerned, that the Republican Legislature of Oregon ought not to elect Mr. Chamberlain, for he is, as everybody knows, a Democrat, and he would support the Democratic policies."

Elect Republican Senator. "Shortly after the present primary law was adopted, in a published article I stated that in my judgment it was never contemplated by the people when they adopted that law that it would require a Legislature composed largely of members of one party to select for United States Senator a member of another party. And such is my conviction. Even if members have subscribed to Statement No. 1, when they realize that the state has elected a Republican Legislature and hence favors Republican National policies, each taking into consideration his oath of office and what he is required thereunder to do, namely: himself to choose, before he casts his ballot for Senator must not make the state law and vote for a man of the dominant party."

Bourne Stands by Statement. "When asked for his views, Senator Bourne said: "I assumed that my position with reference to the Oregon primary law, including Statement No. 1 was sufficiently well known, and I have been furnished information on that subject. I have been and am an ardent believer in the law including Statement No. 1, and advocate its rigid enforcement. If the people have selected Governor Chamberlain as their choice for United States Senator, I have not the slightest doubt but what the Legislature will elect him and ratify the wish of the people. "I am one who believes that the people are sovereign and their command should be readily obeyed. A principle is greater than an individual or a party and, as I view it, the principle is now at stake. It is not so much as to who shall be Senator, but whether the will of the people shall be obeyed and that individual members of the Legislature who have subscribed to a solemn pledge agreeing to do certain things will live up to their pledge."

Should Elect Chamberlain. "There can be no question as to the result. A majority of the Legislature being Statement No. 1 subscribers, will unquestionably elect Governor Chamberlain if he received the popular vote in last Monday's election. In the primaries I never wrote nor asked a single individual to support any candidate, nor was I instrumental, directly or indirectly, in the candidacy or withdrawal of any candidate. In the general election I did all in my power to assist Hon. H. M. Cake as the Republican choice for United States Senator, and urged my friends to give him loyal support, which, as far as I am advised, they did. Any influence that I may have will be aggressive, used with the Legislature to get it to ratify the action of the people and elect to the United States Senate the individual the people have selected as their choice for that office."

MOORS HAVE BLOODY FIGHT. Game of Extermination Continues. Bagdani's Army Demoralized. MOGADOR, Morocco, Friday, May 29.—The Chaulfoua tribesmen, supported by the Cherifian troops, recently engaged the Moussoula tribe near here, and defeated them after a bloody battle. The losses on both sides were heavy.

RABAT, Morocco, Saturday, May 30.—General Bagdani, chief of the army of Abd-el-Aziz, has arrived here with his command completely disorganized. All the tribesmen were immediately disbanded. The city is being garrisoned by regulars.

THE DAY'S DEATH RECORD. Gillespie Reid, Engineer. MONTREAL, June 3.—Sir Gillespie Reid, railroad builder and capitalist, died here today. He was a native of Scotland and went in 1865 to Australia, where he engaged in mining and public works. Six years later he came to America, taking

up active work as a railway and bridge builder. One of his first undertakings was the construction of the International bridge across the Niagara River near Buffalo. In 1880, Mr. Reid began the building for the New Foundland Government of Hall's Bay Railroad and completed it in 1885, when he took up the building of the Western Railway from Hall's Bay to Port Aubeisque, assuming its operation when the work was completed. Sir Robert was also largely interested in New Foundland coal land developments. He has been called the "greatest benefactor of New Foundland."

Captain A. J. Standing, Educator. CARLISLE, Pa., June 3.—Captain A. J. Standing, widely known as an Indian educator and one of the founders of the Carlisle Indian School, died at his home at Dickinson College today. He was 69 years old. He was a native of England.

Nathan Stein, Clothier. ROCHESTER, N. Y., June 3.—Nathan Stein, well known as a wholesale clothier, died at his home early today, aged 89 years.

PENNY POSTAGE AGREED ON

TWO CENTS AN OUNCE TO GREAT BRITAIN THE RATE.

Special Treaty Takes Effect in October—Increased Commercial Intercourse to Ensure.

WASHINGTON, June 3.—Postmaster-General Meyer announced today that an agreement had been reached with the British Government providing for letter postage of 2 cents an ounce between the United States and Great Britain and Ireland, to become operative October 1, 1908. The matter of "penny postage," as it is called in England, has been under consideration for some time, and as far back as last July President Roosevelt approved Mr. Meyer's course in urging a "restricted union with England." On October 1, 1907, the Universal Postal Union, which governs the international postage transactions of the various civilized countries, reduced the rate of letter postage from 6 cents a half-ounce flat to 5 cents per ounce and 3 cents for each additional ounce, which is the present rate between the United States and countries with which we do not have direct steamship communication, but on mail on which we have to pay an additional charge to countries through which it passes in transit. Under the articles of the Universal Union, however, any two states can form a restricted union. Examples of restricted unions are those now existing which permit a 2-cent an ounce letter rate between the United States and Canada.

Postmaster-General Meyer believes this reduction in the rate to the United Kingdom ultimately will result in an increase in receipts, because it has been found that a reduction in the letter rate resulted finally in increased revenue. He is also of the opinion that a lower postage will lead to a freer commercial intercourse. Manufacturers, he says, are increasing their sales in England and must rely to a great extent upon mails for orders and increase of trade. "Further," he stated, "this will be a great boon to our adopted English-speaking citizens and their connection here, as it will enable them to keep up correspondence with their relations and friends in the old country at domestic rates."

Change Announced in Parliament. LONDON, June 3.—Penny postage between America and Great Britain will become effective on October of this year. The rate will be the same as between Great Britain and her colonies, one penny (two cents) per ounce. Postmaster-General Buxton, in announcing this in the House of Commons today, expressed his confidence that the reduction would greatly increase the commercial intercourse and mutual feeling now existing between the two countries.

The announcement was greeted with hearty cheers.

HEARST'S GAIN NOW 123. Recounting of 77 Ballot Boxes Completed in New York.

NEW YORK, June 3.—The recount of the ballots in the disputed May 20 election of 1905 proceeded with expedition today before Justice Lambert, in the Supreme Court, and 29 ballot-boxes were opened, which show a gain of 15 votes for William Randolph Hearst. Seventy-seven boxes have been counted since the recount was begun, and the total gain for Hearst is 123. Early today Hearst made large gains, which were materially reduced by the recount late in the day.

Supreme Court Justice Lambert, who is trying the case, has requested Governor Hughes to recommend to the Legislature that a special appropriation be made under which the jurors who are hearing the evidence may be allowed extra compensation for their duties. It has been learned that one of the jurors has lost his employment since the opening of the trial nine weeks ago, and that another's business has seriously suffered from neglect for so long a period. It is said that from \$5 to \$10 a day for each juror was the compensation suggested to the Governor.

BUY \$40,000,000 OF BONDS. American and European Bankers Take Union Pacific Issue.

NEW YORK, June 3.—An announcement that the Union Pacific has sold to a syndicate of American and European bankers \$40,000,000 of the \$100,000,000 of first mortgage bonds authorized last month is expected to be made at a meeting of the directors of the company tomorrow.

It is understood that the new financing has been completed and awaits only the approval of the full board. The price at which the bonds were taken by the banking syndicate is variously estimated at from 93 to 94.

HELEN DE YOUNG TO MARRY. Daughter of Chronicle Proprietor Is Engaged to George Cameron.

SAN FRANCISCO, June 3.—The engagement is announced today of Miss Helen de Young, eldest daughter of M. H. de Young, proprietor of the San Francisco Chronicle, to George Cameron. The groom is son of Dr. Cameron, who came to this state from South Carolina several years ago and is prominent in club and social circles. He has a country home at San Mateo.

ASSAULT ON NIXON. Douma Says His Torpedo Boats Can't Fight. CENSURE MARINE MINISTER. Gasoline Vessels Main Object of Attack to Be Made Today—Cruiser Rurik Inferior—Nixon Tells Motive of Enemies.

ST. PETERSBURG, June 3.—A series of interpellations with regard to the disorganization and alleged negligence and incapacity of the Ministry of Marine, has been approved by the committee of National defense and is to be discussed in the Douma tomorrow. All parties are in favor of resolutions severely censuring the Ministry and demanding immediate reform. One of the main points of the indictment in this charge is that it concluded its purchase from Mr. Nixon in order to prevent the Japanese from securing the boats in question. Other attacks are based on the construction of the new cruiser Rurik, whose speed is inferior to that of vessels of the same time constructed abroad, and alleged deviations from the specifications by the English builders in the construction of three new warships of the Bayan type, although this type was proved during the Russo-Japanese war to have been of little value.

WORDS BY THE MILLION. Great Task for Judges in Suit Against Standard Oil.

NEW YORK, June 3.—More than 2,000,000 words of testimony have been taken already in the Government's suit to dissolve the Standard Oil Company, now on trial before Special Examiner Franklin Ferris. Before the hearing closes another million words doubtless will be added. This is said to be the largest mass of testimony ever gathered in a single case for the perusal of a court. The number of words included in the exhibits will add still another million words to the record in the case. It is said to be the largest contract of the kind that a triumvirate of judges has ever been called upon to wade through. The three Federal judges who will have to read the evidence are Adams, Sanborn and Hook.

CORWIN FIRST AT NOME. Seattle Steamer Wins the Honor Ninth Consecutive Time.

SEATTLE, June 3.—A special to the Post-Intelligencer from Nome, says that the steamer Corwin, for the ninth consecutive year, is the first vessel to reach Nome. The Corwin arrived at the mining city today at 2:50 o'clock, making the trip from Seattle in 23 days, 18 hours. For the last week the Corwin was working through the ice and Captain E. L. West, of the Corwin, stated in Nome that the ice was the worst encountered in years, and that he did not expect big steamships would be able to reach Nome until July.

Import More Sugar, Less Diamonds. NEW YORK, June 3.—Largely increased imports of sugar and a continued falling off in the value of diamonds brought into

the United States are the features of the May report of Appraiser Wanamaker of the port of New York. Precious stones and pearls to the value of \$563,455 were imported during May, against \$2,931,456 in the same month last year. Sugar imports for May were \$3,700,000, or \$2,200,000 more than for the same month last year.

—one way out of it. As long as you live you will have to wear clothes. The style the other fellow sets will govern the style that you wear. Inasmuch as you have to wear clothes and wish to keep within hailing distance of the proper style, isn't it the best plan to have a tailor make your clothes whose ideas are up to date and whose stock is a year ahead of the other tailors? The only solution of the problem is to go to the shop where the goods are new, the styles proper, the workmen skilled, the price satisfactory and the suit above reproach. One-third of Portland believes that we make the best clothes. That third is right.
