Early California Fruit Shipment in Full Swing.

APRICOTS THE FEATURE

Plums Widely Distributed in the Different Auction Markets. Strawberries the Feature of the Local Fruit Trade.

Local arrivals of California truits are in-creasing steadily and a better assortment is now available. The heavy shipping season in California has practically commenced. Of the movement of early fruits out of the state in the past week the California Fruit

state in the past week the California Pruit Distributors write;
Cherries, Bl care—Weather has remained clear but cool; satisfactory weather for picking and packing. There should be a slight increase in cherry shipments for the next seven days.
Apricots, 10 care—On account of the general good crop of apricots in the different districts, the volume of shipments has forceased faster than usual and in a few days we will be right into apricot shipping and by the latter part of the week shipments will attain the volume of 15 and 20 care a day; Apricots are not large, but they are clean and nice.

day, Apricots are not large, out tory acclean and nice.

Plums and Frunes, 10 cars—The plums
shipped consisted mostly of Clymans and
have gone forward in different cars and
have been widely distributed to the different
auction markets. Other varieties of plums
and prunes are growing sleely in all respects.

spects.

Peaches, I car—These consisted prin-cipally of Alexanders and small shipments in different cars. There will be an increase in peach shipments for the next seven days, but on account of the reduced acreage of the earlier varieties, shipments will not be large. he large.

Pears—Still doing nicely; crop prospects good. Stock will be very clean.

STRAWBERRIES BECOMING CHEAPER Improved Demand for Cherries and Apricots

at Declining Prices.

Strawberry prices are gradually getting down to a reasonable basis. Local berries began to come in yesterday, and though not equal to the Hood Rivers or Southern. Oregons, they met with favor, selling at \$3.25 per crate. Hood Rivers and Gold Dollars were quoted at \$4 and other Valley berries at \$3.75 per crate. California cher-ries were in liberal supply and a few boxes of Oregons were received. Apricots are also moving better and are lower at \$1.35 \$1.50

Among the carlot receipts yesterday were a car each of oranges and lemons.

Poor Outlook for California Prunes.

A California prune packer, who has been investigating prune-crop prospects in that state, thus summarizes the situation: state, thus summarizes the situation:

The total amount of prunes for the entire state out of the 1808 crop we cannot figure at a maximum to exceed 20,000 to 25,000 tons. Considering this small prespective crop and the further fact that the holding of 1807 crop in California, forming (not exceeding 550 carlonds), are extremely small in comparison with the carryover of previous years, the question as to values which will rule for the carry-over of the 1907 crop and the new 1908 crop, speaks for itself, and it would not surprise us in the least to see prices railing much higher than the highest of last years quentions. Do not forget that the average export shipments for the last five years have been approximately 20,000 tons per amount. Last year rully 17,000 tons were shipped for export in the face of the 1907 high prices."

English Hop Trade.

inglish trade circulars, dated May 18 to report market conditions as follows: Viid. Neame & Co., Lohdon-Since our last cort a full quantity, of hose has passed into sumers' hands, which, while not offseting appreciable alteration in values, has in-sed a rather better feeding on our mar-

Manger & Henlay, London—A steady in-quiry continues for bright color samples and good copper hope, but the amount of busi-ness carried through is within narrow limits. Prices remain unchanged.

W. H. & H. Le May, London—There in these better inquiry on this market for all rather a better inquiry on this market for all qualities. Prices are certainly tempting to any one wishing to stock up.

Cattley, Gridley & Co., London—There is somewhat firmer feeling upon the market as stocks become more limited, and choice hops are extremely scarce. The change to fine weather has given the young plant a good start. start.

H. Meredith & Co. Worcester—There has been a little more inquiry on the market and 66 pookets of growers' hope passed the public makes last week, values remaining without quotable alteration. Plentation growth is still backward, but the young shoots have made rapid progress during the last few days and the tyers are now busy.

Country Produce Trade Slow. The country produce markets were dull yesterday. Poultry was in fair supply, but difficult to move, though quotations were

not lowered. Eggs were also sluggish so far as the local demand was concerned, and outside buyers could only be interested at shaded prices. the market is quoted firm.

Bank Clearings. Clearings of the Northwestern cities yes-terday were as follows:

BOARD OF TRADE QUOTATIONS. Grain, Flour and Feed.

Shrinkage in Volume of Trading in Stocks.

DAY'S SALES VERY SMALL

Changes in Final Quotations Are Trivial-Principal Dealings Are in Union Pacific and Reading-Bonds Are Steady.

NEW YORK, June 5.-There was but ket today. The total of the day's dealings discloses a violent shrinkage in the volume total than for several months, and during the latter part of the day there was almost enlatter part of the day there was almost entire stagnation. There was some reduction from the usual dealings on account of the duliness of the London stock market, where there will be a holiday temorrow and Monday. Aside from this there was no apparent explanation of the sudden lapse of interest in the dealings.

The demand for stocks was exceedingly measure, but the cessation of the selling, which hooded the market yesterday, was even more remarkable. It was this feature which opened the day to the slow movement of prices.

prices.

Union Pacific continued to hold its domimant place in the dealings, and except for
some supplementary interest in Rending, there
was really nothing else calling for notice in
the day's proceedings. The postponement
of the public offerings of the Union Pacific
bond issue, subscribed for by bankers, was of the public offerings of the Union Pacific bond issue, subscribed for by bankers, was given some influence as a deterrent from active operations. The conclusion of that financial transaction, however, is ascribed as the principal reason for the sudden consulting of the aggressive operations to hold an advance in prices of stocks. A rise in the price of lead here and of copper in London was of some influence on the industrial stocks in those trades. The day's results at the stock exchange as a whole were trivial.

Announcement of the omission of the emilannial dividend of the Missouri Pacific Railroad Company was made after the close of

annual dividend of the Missouri Facine Rain-road Company was made after the close of the market. Stock of that company was weak in the late dealings.

Bonda were steady. Total sales, par value, \$2,188,000. United States bonds were un-changed on call.

Receipts of the Manhattan postoffice are now amounting to \$54,370 each day that it Time loans, easy; 60 days, 2024, per cent; is open.

PAYROLLS LARGER

Retail Trade Responds to Improvement in the East.

IDLE MACHINERY LESS

Wholesale Business Is Also Gradually Expanding-Better Orders Being Received for Fall Goods. Less Money to Cities.

NEW YORK, June 3 .- Dun's Weekly Review tomorrow will say: Improvement continues in commercial hannels, increased manufacturing activity and seasonable weather being the dominant influences of the past week. In all leading industrials there is less life machinery, and staple lines of merchandise at retail quickly respond to the larger payrolls. Mercantile collections are also prompt and confidence grows stronger as the crops advance toward maturity with no more serious handleap than excessive moisture in some sections. While the first week in June compares fa-

vorably with any previous week this year, there still appears a large decrease in com-parison with the volume of business in the same week of 1907. WHOLESALE TRADE IS IMPROVING. Better Orders Being Received for Full Goods. NEW YORK, June 5.—Bradstreet's tomor-

row will may: row will say:
Irregular weather conditions, with heavy
rainfalls in the Northwest Southwest and
South have given an uneven appearance to
retail trade reports. Reports from wholesale trade lines and from leading industries
are, however, more cheerful. House trade
in Fall goods is reported light, but traveling
men are, sending in better orders. House con-

in Fall goods is reported light, but traveling men areasending in better orders, though conservation rules in the buying.

Beports as to industrial resumptions at full time are more numerous in cotton goods and allied textile lines, more their offsetting reports of shut-downs, and there are more from turnaces and coke ovens reported going to work as a result of the late pig from buying movement. Collections still reflect quiet trade in backward payments. Money is easy, but the inflow from the country to the large centers is slacking perceptibly.

Business failures for the week ended June

Business failures for the week ended June 4 number 225 in the United Stares, the smallest total reported for any week since October last, and compared with 263 last week; 155 in the like week of 1967; 102 in 1968; 104 in 1965 and 171 in 1964. In Canada, 32 against 34 has week and 38 this week last year.

Wheat, including flour, exports from the United States and Canada for the week ended June 4 aggregate 2,366,264 bushels, against 5,263,138 this week last year. For the 49 weeks of the flocal year, the exports are 192,-250,571 bushels, against 160,045,032 in 1906-07.

Bank Clearings.

NEW YORK, June 5.—Bradetreet's bank clearings report for the week ending June 4 shows an aggregate of \$2,420,001,000, as against \$2,40,310,000 last week and \$3,042,872,000 in the corresponding week last year. The fallowing is a list of the cities:
