Opening Price Named on Oregon Italians.

ADVANCE OVER LAST YEAR

Small Shipment Offered on Three-Cent-Bag Basis, Coast-Active Trading in the Local Fresh Fruit Market.

The shortness of the Italian prune crop of Oregon and Washington and the partial failure of the California crop indicate good prices for the product of the Pacific Coast states. The trade has been prepared for opening prices considerably higher than these of last year, but if the first definite offering out of the 1908 crop at a firm price is to be accepted as a criterion the advance over last season's opening signres will much exceed general expectations. This first definite offering, however, is insignificant and can hardly be taken as representative of the views of the Northwestto hold back quotations until they know with greater certainty what they have to expect in the way of a crop. The effering above referred to was based

on two carloads only, equal quantities Di 40s and 40-50s for October-November ship-ment, the basis price being 3 cents f. o. h, coast in bags, which is % of a cent higher than the opening figures on the

Of the market for old prunes, the New York Journal of Commerce says: "Spot Oregon Italian prunes are dull and unsettled except on the best stocks, which is generally held on a Sc f. o. b. coast bag basis. The interior and soft goods, which make up a large part of the present spot holdings, are offered at the best prices they will bring."

STRAWBERRIES TAKE ANOTHER DROP. Lemon Market Is Booming-Car of New

Pointness Today.

The two warm days put the strawberry market down to a proper level yesterday. Receipts were large and the demand good, but a seasonable decline was inevitable. The bulk of the arrivals sold at \$292.75 per crate. Mt. Tabor's sold in the morning at 10 cents a pound. Lower prices are expected today. If the weather conflines warm, this may be the last week of the

warm, this may be the last week of the strawberry season.

The lemon market is booming, with prices very firm, choice being held at \$4, and fancy at \$4.50 per box. Cantalogues were in fair supply yesterday, pony crates selling at \$3.50 and atandards at \$4. Apricots and cherries were in good demand. The first car of apricots is due early next

will arrive this morning and they will be offered at 25 cents per pound. Old potatoes are very firm at \$1@1.10. Two cars of mixed vegetables arrived and cleaned

LOCAL GRAIN MARKETS HOLD OWN. Mayor Taylor, of St. John, Wash., Says Pa-

layer Taylor, of St. John, Wash., Says Pulouse Prospects are Excellent.

The grain markets were oniet and unchanged yesterday. There was a fair demand from California for wheat and also inquiry from Nevada and Etah. The East is still asking for oats, and in the past week about 500 tens have been shipped to Texas and Colorado points. There is a steady local feed demand for barley.

B. J. Taylor, Mayor and Grain Merchant.

B. J. Taylor, Mayor and Grain Merchant of St. John. Wash., who was a visitor at the Board of Trade resterday, says all the crops are looking exceedingly well in Whitman county. Fall wheat is in better shape than it has been for years at this period, and the Spring crop is also in good condition. The grain is tender you, but

prices are the equivalent here of 615 cents for 1907 bark and 7-is cents for older bark. This removes some of the discouragement to gatherers, as it indicates an improvement in the foreign demand. It is reported there are also Eastern buyers in the market. The latest issue of the New York Journal of Commerce, however, re-ports that market slow and nominal at

A revival of the export demand for hops the Oregon market was reported yesterday and some business was put through, but the particulars were not obtainable. Advices from New York noted the saie of a lot of Oregons on that market at 8 cents for export, also transactions aggregating 200 bales of States for the London market.

Buying Hops for Export.

Eggs Slow and Weak.

The egg market was slow yesterday and was further weakened by large arrivals in the afternoon. One dealer offered freely at 18 cents, while others were still hold-Pouliry receipts were light and the de-There was no change in the butter market

Meeting of Grain Trade.

A meeting of the grain trade members of the Board of Trade will be held at the Board rooms tomorrow night, Among other matters that will be considered will be the report of the Lombard committee on the question of trading in futures.

Bank Clearings.

Hops, Wool, Hides, Etc.

HOPE—1007, prime and choice, 500c per pound; olds, 2021/2 per pound.

WOOL—Eastern Oregon, average best, 11 Ulse per pound, according to shrinkage; Vailey, 10012/2 c.

MOHAIR—Choice, 18018/2 per pound. CASCARA BARK—3/2 0 1/2 per pound. HIDES—Dry, 120/12/2 c. ary calf. No. 1, under 5 lbs., 140/16; cuils, 2c per lb, less; attend batter for matter of the control of t

condition. The grain is tender yot, but if the hot weather holds off a little longer until it is hardened, the crop will be absolutely safe. Mr. Taylor declares the fruit prespects in the Palouse are excellent, and apples and other varieties will give bumper yields.

CALIFORNIA FRUIT WILL BE CHEAP.

Crop Big and Growers All Anxious to Consign.

T. Pearson returned vesterday from a quick trip to the green fruit districts of California and reported big crops of everything.

"California is like Oregon." said Mr. Pearson. "everything is green and growing shipments of apricots are well under way and a few Alexander peaches are going out. Shipping of tragedy plums will begin next week. The grape crop will be late and in some sections has been hurt by frest.

"California fruit will be cheap this year. There will not be much f. e. b. business and the growers are all anxious to consign."

Foreign Cascara Bark Quotations.

Advices received from London report sales of cascara bark at 359 46s, which prices are the equivalent here of 6½ cents for 1997 bark and 7½ cents for older bark. READJUSTMENT OF WAGES

Latter Factor, in Wall Street's Oninion. Offsets Benefits to Be Derived From Price Reduction. Railway Traffic Increasing.

NEW YORK, June 8.—The long-persisting umors of a general cut in the price of steel reducts gained more authoritative form today and it came to be generally believed during the day's session of the stock exchange that substantial reductions would be an-nounced immediately for all lines except steel rails. The policy of the steel trade in holding prices at present has been the subject of varying criticism ever since it was formulated and the conviction in general that the marking down of prices will be the most effective manner of reviving activity in the trade. The fear that the wage readfustment which must follow the price revision may lead to controversy in the midst of the National political campaign is an additional factor militating against the favorable effect the market had had in

Attention was attracted to the subject of new capital issues by the figures of the heavy flotation for May and the additional issues in early contemplation. The May total of \$166,975,000 new stock and bonds. while comewhat lower than April, is far in excess of the issues for May of last year. The total of \$722.652.134, to which the new issues since the first of the year have risen, represent an unprecedented figure for that period. The proportion of this new financing which is devoted to refunding cannot be ascertained, but the rapid rate of expansion of capital liabilities at a period of business contraction which maturally limits the rate of capital replenishment, commands the rate of capital replenishment, commands the attention of bankers and investors. The additional security proposed for the Union Pacific bond issue was regarded as significant of the taste of investors at this time in that direction as much as for the rate of return offered. The understanding that the Union Pacific bonds would not be offered for public subscription until the middle of the week kept open the question of what would be the treatment of the market by the forces which have sought to pave the way for this flotation when it is fairly out of the way.

An excelent effect was produced by the report of further decrease in the number of idle freight cars in the two weeks sending May 27. The early strength in stocks was connected with this report. The later recovery was due to the Government crop report and its effect on the wheat market.

Bonde were steady. Total sales, par value, \$2,025,000. United States 2s and 3s registered advanced by per cent of call.

Most of the men engaged in the sheep in-dustry depend upon the sale of the wood city to tide them over until the mutton can be sold, and if the market should remain slow the effect will be serious with many. The range throughout the county is in good condition and sheep are doing well. Some compidint is heard that the range is crowded, but there are not as many sheep in county this year as there were last year.

Dried Fruit at New York,

NEW YORK, June 8 -The market for evaporated applea is quiet, with fancy quoted at 869e; prime, 6% 67%c; 10@10%c: common to fair, 51/49/01/20.

A little more business was reported in spot prunes. Prices ranged from 31/20 to 130 for California and from 51/20 to 100 for Oregon

fruit.

Wheat Slumps on Publication of Crop Report.

EXPECTED TO BE BEARISH

Government Bulletin Shows Crops of Winter and Spring Grain to Be, in Excellent Condition. Corn and Oats Weak.

CHICAGO, June S.—The government crop report was made public fifteen minutes prior to the close of the session. It placed the condition of Winter wheat on June 1 at 56 per cent of a normal crop, which is a loss of three points since May 1. Spring wheat was estimated at 25, or a gain of 6.3 during the month of May. The total area sown to Spring wheat was shown to be 3.7 more than was sown last year and the total or Winter and Spring wheat was estimated at hearly 100,000,000 bushels in excess of the total crop harvested first year. The general selling which followed the publication of the figures caused a decline of nearly one cent in the final moments of trading, but the market had previously become quite weak because of a general expectation that the report would increase the estimate for the crop. There was general recovery on all deliveries, but the market weakened toward the end of the final hour. The close was near the lowest point. July opened 1, 15 kg kg higher at 57 kg kg, advanced to \$7 kg kg and then declined to \$6 kg. The close was at \$5 kg kg.

The corn market was firm early in
