### CHIEF HAS NO REMORSE

MAKES GOOD AUCTIONEER OF ACCUMULATED ARTICLES.

Police Department Cleans Up Several Hundred Dollars on Sale of Confiscated Goods.

Headed by Chief Gritzmacher, the police held their annual auction yesterday afternoon to dispose of the odds and ends that accumulated unclaimed at the station during the past 12 months. More than 100 revolvers, 50 suit-cases, 20 bundles of miscellaneous luggage, a dozen or more telescopes, all manner of satchels, several trunks and 30 bicycles, were auctioned off in front of the station. The buying lasted practically all of the afternoon, and everything salable was gotten rid of. Good firearms, secured from different prisoners during the year, went at ridiculously low figures.

No matter what the purchase, everybody in the crowd of buyers tried to appear satisfied—and most of them were. It was the contents of the trunks, satchels and telescopes that the buyers were taking chances on, but their frequent misfortune in failing to land a "fat prize" never seemed to make them backward about coming in "strong" on something else. The Chief proved a remarkably clever auctioneer and had no remorse at all when he sold some unlucky farm-hand from Oregon City an old broken trunk packed with old love-letters and feminine finery. One man was lucky enough to secure a box of hat pins in a satchel that he had bid \$1.50 for. The same person came back again and bid on a telescope which, when opened, was found to contain a dozen empty whisky flasks and five or six empty beer bottles. He bid as high as a dollar on this telescope, but a man standing next to him, who hailed from Astoria, went 25 cents higher and got the prize. Blankets and quilts went at from 10 cents to \$1 a bundle. Bicycles sold every-

### where from \$2 to \$5, and the revolvers, which were of every make and size, brought 75 cents to a dollar each. They were sold three at a time, the first set going at \$5. Some sets went as low as \$2. In all, the department is believed to have cleared up several hundred dollars.

### PRACTICES WITHOUT TITLE

James Austin Larson Says He Is Immune From Prosecution.

James Austin Larson, who arrived here several days ago from Tacoma and registered at the Hotel Oregon, was yesterday afternoon arrested by Patrolman Harms for practicing medicine without a license. Larson says he is able to cure diseases without medicine. He has operated in several cities throughout the Northwest and it is said claims that he is immune from the charge placed against him inasmuch as he bears no title. He was arrested on a warrant sworn out by Dr. Allen W. Smith.

### POPULAR MUSIC AT HALF

While we are getting our new store in shape for the grand opening, which will be announced in a few days, we will continue during the week to sell all the latest popular hits at 14 cents a copy, or two for 25 cents, and here you have all the music you get what you want and ask for.  
 To close out about 2000 copies of music from old stock we make the price 1 cent. Just think of it! For \$1 you can get 100 copies, and some of it sells today in many stores at 5 cents. Graves Music Company, moved to 111 Fourth street, just north of Washington.

### Steamer Breakwater to Drydock.

The steamer Breakwater has been ordered into drydock immediately for extensive repairs, and will probably be out of commission for a month or more. On account of there being no available steamer to replace the Breakwater, the Coos Bay service will be discontinued for the present.

### ABERDEEN SEES RAILROAD

BELIEVES MILWAUKEE HEADED FOR GRAYS HARBOR.

Right of Way Suits Filed and Surveyors in Field Near Montesano.

ABERDEEN, Wash., June 23.—(Special.)—Speculative rumors relative to the building of a railroad to Grays Harbor are again in circulation and are eagerly grasped at in the hope that some of them may be true. Following up the action taken last year to condemn land for right of way by the Grays Harbor & Puget Sound Railroad Company, this corporation, or rather its successors, the Union Pacific and St. Paul Company, are continuing the action necessary to fully control the right of way, which was laid out last year.

J. B. Bridges, who did the work for the Grays Harbor & Puget Sound Company last year, has taken action in nine additional suits, and notice of such action was filed in Montesano yesterday afternoon. Mr. Bridges is acting as an attorney for the company that is ostensibly the Grays Harbor & Puget Sound Railroad, by which this branch of the road will be known, whether built by the Union Pacific or the St. Paul corporation.  
 The residents of the little village of Melbourne, up the Chehalis River, are all excited at there would be a railroad of the road through that place. For several days two surveyors and others have been in Melbourne getting options on lands supposed to be for the right of way, and all their movements point in that direction. It is reported that some of the men surveying and also the engineers admitted that there would be a railroad through that section by 1909 at the latest, and that the work would be started, if not this Fall, early in 1909.  
 The right of way has been purchased through the old Beaver place, near

### Fraser Slough, between Melbourne and Cosmopolis.

### NATURAL GAS AT ASTORIA

While Drilling for Oil, Good Flow Is Encountered.

For the past year a company has been at work on a prospect well on the Nelson place, on Grays Bay, opposite Astoria. There were surface indications of oil in that vicinity and now it is reported that at a depth of 300 feet a good flow of natural gas has been encountered. Experienced drillers are at work on the hole, starting with 1 1/4-inch casing, which is to be reduced as the work progresses. The drill has struck a shale stratum which is said to contain first-class oil indications, and the management of the company express confidence that petroleum in paying quantities will be found before the hole goes much deeper. If the gas flow continues to the extent now promised, it will be utilized to run the engine. The company has secured a lease on 10,000 acres of land, which is to be tested by sinking wells in different localities.

### Academy Adds Music Course.

PENDELTON, Or., June 23.—(Special.)—A new course, that of vocal music, has been added to the music department of the Pendleton Academy. Mrs. Anna Selkirk Norton, prominent in Northwest music circles, has accepted the position as teacher in this department, and will divide her time between the local institution and the Fischer School of Music of Walla Walla. A new instructor will also be added to the instrumental course, she being Miss Harriet Young, of La Grande, a graduate of the Whitman College Conservatory of Music. The academy has just closed a very successful year's work. President W. H. Bleakney and the other members of the faculty were all re-elected for the ensuing year.  
 Rejuven aids digestion. At all saloons.

### LAY TEMPORARY TRACKS

Dumpcars, Used in East Side Fills, Have Their Own Way.

Temporary tracks are being laid in several portions of Central East Portland to be used by the gravel trains of the Pacific Bridge Company in its contracts to fill streets and the low lands in the warehouse district between Union avenue and East Water street. An extensive trestle is being built on East Taylor street between East Water street and Union avenue for the main line to carry the gravel trains direct from the gravel docks at the foot of East Taylor street. Eventually a track will be extended eastward from Union avenue on East Taylor in order to reach the several streets which are to be filled this year. Another trestle is now being built on East Third street between East Taylor and East Alder streets to carry the gravel cars which will fill up East Third street solidly to grade. These trestles will carry the dump-cars and will not interfere with the operation of streetcars.

The main filling contract is between Union avenue and East Water street, Belmont and Hawthorne avenues, and will take two years to complete. This work will require more than 1,500,000 cubic yards of material, all of which will be scooped from the bottom of the Willamette River, between the Morrison and Madison bridges. The company has completed its dock at the foot of East Taylor street, and equipped it with power hoists to transfer the gravel from river barges to the gravel cars. It is not probable that filling operations on the East Side will stop now until every street and every block in the warehouse district has been filled. In addition to the temporary tracks west of Union avenue, a track has been laid on East Seventh street from East Morrison to Belmont, on Belmont to East Tenth, and back to East Morrison street, to carry the Sunnyside and Mount Tabor cars while

### fills are being made in East Morrison street east of Seventh.

### Threatens to Kill Landlord.

ALBANY, Or., June 23.—(Special.)—"I'll blow his head off with a shotgun the first time I see him." C. C. Miles is alleged to have used this language referring to W. S. Paul, a well-known man residing nine miles northeast of Albany. A warrant for his arrest on a charge of threatening to kill was issued from Justice Porter's court here this afternoon. Miles lives on Paul's farm and the trouble grew out of this tenancy.

### California Men Buy Sawmill.

MARSHFIELD, Or., June 23.—(Special.)—It is given out today that a deal

### has been practically closed whereby the Hoyt-Swayne Company, shipowners and lumbermen of San Francisco, will purchase the Courtney mill on Isthmus Inlet near Marshfield. The mill was built about a year ago and is well equipped, but it was never started, owing to financial troubles. To satisfy a mortgage, the property has been sold by Sheriff Gage to Wallace Stetson, and from him will be purchased by the San Francisco men, who expect to operate it to full capacity.

### Only Nine Negroes Killed.

HOUSTON, Texas, June 23.—Reports today from Sabine County show only nine negroes were killed in last night's race riots. No further details are available. The San Antonio Rifles and State Rangers acted as guards.
