treat from the Roosevelt policies, stands squarely by the progressive principles of the party and was adopted because it had the emphatic approval of the party's candidate.

FIGHT IS OVER PLATFORM

Iowa Republicans Will Hold State Convention Today.

WATERLOO, Ia., June 23.—Chief interest in the Republican State Convention here tomorrow does not lie in the nomination of a state ticket but in the adoption of a state platform. The nominations were all determined by the primaries, and for these nominations there is no contest. The fight is between the progressives and the "stand-patters" upon the issue of the endorsement of the administration of Governor Cummins and the anti-pass, direct primaries and other laws adopted by the last Legislature, also the incorporation of the radical planks that were not included in the National platform.

The "stand-patters" seem willing to permit a very mild endorsement of the Cummins administration, but say they will fight anything that reads as if it were enthusiastic. Many of them also oppose specific approval of progressive legislation.

ATLANTA, Ga., June 23.—At a meeting of the Georgia delegates to the Democratic National Convention at Denver, it was decided to apply the unit rule to the delegation. It became apparent at the meeting that practically the entire delegation was opposed to the candidacy of William J. Bryan and that Georgia's vote would be cast for some other candidate.

BOSTON, June 23.—Welcomed by the executive heads of the state, the city and the State Federation of Women's Clubs, the three thousand or more delegates who have gathered in Boston from all over the country to attend the ninth biennial convention of women's clubs filled Symphony Hall to overflowing tonight and formally opened the convention, which is to be in session until July 1.

The San Francisco delegation has begun a canvass for the selection of San Francisco as the meeting place in 1909.

Dr. W. A. Egbert, who three months ago became an object of interest to the medical profession because he slept 13 days without waking a moment, died today. He was aged 65. He came to Spokane from Seattle about a year ago. At one

SEND JAPANESE EASTWARD

GOVERNMENT HOPES TO MAKE HYDE-BENSON TRIAL PAY.

WASHINGTON, June 23.—In a statement issued today in regard to the indictment and trial of the trial itself

has cost the Government a great deal of money, the benefit resulting to the land department in the future administration of public land laws are beyond calculation. The net result, he says, will be the restoration to the Government of more than 100,000 acres of public lands, valued at \$1,000,000.

Mr. Pugh says: "The case is not at all strange, under all the circumstances, to one who fully understands the situation, and so far as practical results to the Land Department are concerned, all has been accomplished that would have been accomplished by a verdict against all four defendants."

While the investigation leading up to the indictment and trial and the trial itself have cost the Government a great deal of money, the benefit resulting to the land department in the future administration of public land laws are beyond calculation. The net result, he says, will be the restoration to the Government of more than 100,000 acres of public lands, valued at \$1,000,000.

As a net result there will be restored to the Government something over 100,000 acres of public land which were selected under fraudulent practices charged in the indictment in this case. The selections have been under suspension since November, 1902, awaiting the trial of the case. The selections will now be taken up and adjudicated by the Land Department.

The value of the land has very greatly increased since its selection eight, nine and ten years ago, so that the 100,000 acres or more immediately involved in the trial are probably now worth from \$8 to \$10 an acre. Patients were secured for something like 40,000 acres of public land before the fraud was discovered, which was in November,

EXPLOIT FARMING LANDS

REALTY BOARD CONSIDERS FORMING STOCK COMPANY.

Plan Outlined by Whitney L. Boise and Meets With General Approval of Members.

What the meeting of the Realty Board last night lacked in point of attendance was made up in interest, for several important subjects were presented at the session. Whitney L. Boise told the board what he had evolved in the way of a scheme to have the members of the organization form a company with the object in view of placing tracts of land on the market. He advised the formation of a stock company which would assume ownership in tracts of land in Oregon suitable for all sorts of market-gardening, fruit-raising, small farming, dairying and various other uses to which fertile lands may be put, and that efforts be made in conjunction with promotion organizations to induce immigration and settlement of these lands.

In the plan outlined he suggested that the company have an agent whose duties should embrace showing intending buyers over the lands controlled by the company, and that every inducement in reason be offered the newcomer to locate. The tracts selected would be cut up into lots of five, ten and twenty acres and terms of payment made as reasonable as good business judgment could dictate, and as members of the Realty Board would be the stockholders in the enterprise, all the leading realty men of the city would be interested in disposing of the lots.

The board was so well pleased with the scheme outlined that it appointed a committee of five to confer with Mr. Boise and formulate a plan of organization.

E. L. Thompson reported from the civic improvement committee that several conferences had been held with the Mayor and members of the Council regarding the employment of R. H. Thomson, of Seattle, and also on the construction of Vista avenue, on Portland Heights. Several obstacles had been encountered, but the com-

mission was hopeful of accomplishing the work which they had set out to do. The board voted to take up again the holding of excursions to near-by places, the next one to be selected during the week, members to be notified in due season.

Progress was reported by the committee on the proposed realty exchange, and W. A. Spanton was appointed on the committee to fill a vacancy. Ralph Ackley was elected a member of the board.

State Weak in Murder Case.

COQUILLE, Or., June 23.—(Special.)—In the trial of Holms Anderson, for the killing of Mrs. Ella Gordon, the selection of the jury was completed today. The state has practically completed introduction of testimony. The defendant's plea is self defense. The general impression is that the state is not making out a strong case.

The Star Brewery's famous Hop Gold beer is unequaled in all respects and is highly recommended for its strength and health-giving qualities.

Orders for bottled beer receive prompt attention. Phone 12545. Home phone 8118.
