### MURDERED IN PHILIPPINES

Natives in Isle of Negros Slay Two Americans.

MANILA, June 25.—A telegram received here today from the island of Negros tells of the murder of H. D. Everett, a Government forester, T. R. Wakely, a school teacher, and four Filipinos by hill tribesmen. The party had started across the island of Negros, which is one of the least civilized of the extreme southern group of islands, and had been missing for six weeks. No details of the murders have been received here.

WASHINGTON, June 24.—H. D. Everett, a native of New York whose murder in the island of Negros by hill tribesmen is reported from Manila, was transferred to the Philippine Forestry Service from the Forestry Bureau here in August, 1896. T. R. Wakely, a graduate of the University of Chicago, also killed, was 27

### years old and went from Chicago to teach school in the Philippines a year ago. The Negro had given the authorities the least trouble of any people in the archipelago.

Mining Broker in Toils.

SAN FRANCISCO, June 24.—J. H. Simpson, manager for H. H. Norwood, a stockbroker of 306 Bush street, swore out a warrant yesterday for the arrest of M. R. Leavins. Leavins is under arrest in Tonopah, Nev., and the warrant was necessary to secure extradition papers. The charge against Leavins is that he gave to Simpson a certificate for 3000 shares of stock of the Sandstone Mining Company of Goldfield, at \$1 a share. In the name of J. C. Culver, to negotiate. After the sale Leavins was paid the money. Later, it is alleged, not only was the stock found to have been valueless, but the discovery was also made that Culver's signature was a forgery.

Bar American Railroaders.

CITY OF MEXICO, June 24.—The Mex-

### ican Herald publishes a story this morning to the effect that railroad employes throughout the Republic of Mexico are planning the organization of a union which will have for its sole aim the exclusion of Americans from connection in any capacity with the various roads.

According to the Herald, 90 per cent of the railroad men of the republic are Mexicans, the other 10 per cent of positions being held principally by Americans, the latter filling the positions of greatest responsibility.

Three Rivers Loss \$2,000,000.

THREE RIVERS, Quebec, June 24.—Insurance adjusters spent yesterday figuring up the loss on Monday's fire. It was announced that the total liabilities of the insurance companies amount to \$1,965,750. It is estimated that the actual loss will figure up to over \$2,000,000.

Olympic Malt Extract, good for grand-ma or baby. Only 15-100 of 1 per cent alcohol. Phone: Main 674 A 267.

### RING BRINGS IN COOLIES

Syndicate Smuggles Chinese Across Mexican Border.

SAN FRANCISCO, June 24.—In Los Angeles, according to information gathered by the Immigration authorities, there is a ring of active men, employed in smuggling coolies over the Mexican borders into the United States. The gang in Southern California is believed to have agents throughout the country and the inability of the regular officials to cope with the situation, has caused the Department of Commerce and Labor to send a special agent to make an independent investigation. The department officials apparently take an alarming view of the situation. From an examination of Chinese recently caught sneaking into the United States it developed that the smuggling of coolies into this country is a matter of considerable expense and that

### the traffic is financed and managed by a well-organized ring.

Commissioner North expects when the inquiry from Washington gains headway that new light may be thrown on the smuggling ring, but at the same time he is positive that whatever smuggling may be taking place is confined within a limited area and involves only a few Chinese at most.

Will Study Indians in Peru.

BERKELEY, Cal., June 24.—Dr. Samuel A. Barrett, of the University of California, who has been connected with the department of anthropology for two years and has conducted a series of investigations of the languages and habits of the Indians of this state, has left for the interior of Ecuador and Peru, where he will take part in archaeological searches in that country. He will be one of the members of the George E. Heye expedition, which was fitted out three years ago by a New York millionaire. The explorations of the party will cover Northern Ecuador and Peru.

### TRAMP COUPLE DIVORCED

Hungarian Adventurers Took Wedding Trip in Boxcars.

CHICAGO, June 24.—A dispatch to the Tribune from Los Angeles, Cal., says: Yesterday of the end of a romance of less than a year, including a honeymoon spent on brake beams and in boxcars from New York to the Western coast. The characters in the drama were William Koprivich, member of a wealthy Hungarian family, who fed his native land to escape army service, and his wife, Albin, sister of Count Kaban, of Austria-Hungary. They were married in New York City, where she was visiting. He told her of a fine job he had in the West, and to save expenses she donned man's clothing and they beat their way to Los Angeles. The trip was made in snow and

### cold weather, and the woman suffered much.

The husband deserted her here, and she was forced to ask the aid of the police. Koprivich was ordered to pay her \$9 and \$4 a week until the divorce action she started is tried in August. A baby was born less than a month ago while the young woman was in privation, and lived only a few days.

Rejuvin aids digestion. At all saloons.
