NO GROUNDS FOR RAISE Insurance Men Declare Advance on Portland Risks Unreasonable.

Local insurance men declare that the only reason for the sudden rise of 25 cents on all Portland risks within the conflagration district is the fact that the insurance trust in San Francisco needs the money. The possibility of such an increase is offered by the laws of Oregon, they say, and since the Southern companies saw an opportunity, the raise was made. Insurance agents insist that their names be withheld in discussing the sudden raise, but they are practically unanimous in denouncing the action of the companies. "There are at present only 57 fire insurance companies represented in this state," said an agent, "and there ought to be at least 157. The companies declare that there is an extra hazard, but as a matter of fact it is no greater than a general conflagration hazard. The big insurance companies control

the situation and whenever they need money they simply make a victim of Portland and raise the rates. They do so simply because they can, for the laws of Oregon are such as to offer every inducement for the kind of thing. "And our laws are such as to make it practically impossible for a local company to organize and do a general fire insurance business. However, I heard a great deal of talk on the streets today about organizing a local company. "Every well-informed insurance man in Portland knows that the increase is absolutely unjustifiable and he knows that the companies did it simply because they need the money." Prisoners Break Rock at Profit. CHEHALIS, Wash., June 25.—(Special)—County Commissioner C. D. Young has made an interesting statement as to the cost of operating the big Lewis County rock quarry at Meskill. The expense for six months' time was \$10,000, and the total received from the sale of rock for that period was approximately \$10,800, leaving a balance on the right side of the

ledger. Besides this rock, no account is taken of the rock used by Lewis County on its roads. A total of 497 cars of rock was crushed between September 1, 1907, and June 1, 1908. In Jamaica tuberculous disease is extremely uncommon among the whites. When it occurs in negroes, they quickly succumb to it. THE SITUATION. Meat Riots in almost every city in the East and Middle West, because of the advance in the price of meats. The people stoning the shops and boycotting the butchers. The butchers crying, "We are as helpless as you are, the big packers, the Beef Trust, are raising the price of meat on us." In Portland, the price of meat is the lowest in the United States. The people rallying around Smith, the man who is fighting the same old Beef Trust, the same Big Six, who are putting meat at starvation prices elsewhere and who could do it and would do it in Portland if it could capture
