PACKERS ASK MORE

Higher Prices Quoted on Future Oregon Prunes.

TRADING IS

California Market Almost Nominal. Firm Buying of Valley Wool. Better Movement in Local Fruit.

Opening prices on 1908 Oregon Italian prunes have not yet been generally made, but the few packers who are in the fleid are not underrating the value of their goods, and touch and in view of the prospective short out-put are not disposed to book contracts ex-cept at an advance over the tentative prices put out about three weeks ago by one interest and at which it was reported a number of cars were sold to Middle West

Estimates of the total output in Oregon and Washington vary, but the general view of packers seems to be that the crop will mder 75 per cent of last year's, and may fall far short of this Consequently the packers who are now ready to book orders for late September or October shipment are asking 34 cents f. o. b. for 40s and 35 cents for 30s. Some business in 40s, offered at 35 cents f. o. b. basis is said to have turned down.

Of the condition of the market for 1907 prunes in the East, the latest issue of the New York Journal of Commerce said: Spot Oregon prunes have said a little better to the East Side trade of late, but the buying has been against actual wants, and no important transactions have come to the surface. The market is still unsettled, though the best stock is held firmly up to the quentions."

According to the California Fruit Grower, ittle or no business is passing in California runes and quotations are almost nominal.

That paper says:

Some old prunes are being picked up at times by packers, and it is understood that times by packers, and it is understood that some future Santa Claras have been bought at lower prices than the general run of growers are expenting. The prune situation of inself is very strong. This truit, however, shares in the general duliness of the market and will be to a considerable extent affected by cheap peaches and cheap apples, the latter being in large prospective supply throughout the country. Spot prunes amply throughout the country. sapples, the later being in large prospective samply throughout the country. Spot prunes are unchanged in price and futures quotable from \$1 \text{if 4c}\$, with no business passing. Large prunes are being well held owing to the scarcity of large sizes in the growing crop, and 14c premium is asked on future 30s by nearly all packers, and many asking \$10 on 40s.

SALE OF LARGE POOL VALLEY WOOL High Price Paid at the Sale at Caldwell, Idaho.

A pool of Willamette Valley wool aggregating nearly 30,000 pounds was sold at Corvaills at a price reported to he 14 cents per pound. The market is fairly firm for the hest grades of Valley wool, but full prices are only being paid for the choicest

At the scheduled wool sale at Caldwell, Idaho, the growers were well satisfied with the prices paid. Thirteen buyers were in attendance and the highest bid was 16% cents. The demand was especially strong for cantaloupes and good progress was made in cleaning up the accumulated supplies. General quotations were \$1.25@1.75 per craits. Peaches and apricots were wanted and both were scarce. A car of mixed California fruits, mostly peaches, is due this morning. The lemon market was very active and firm and oranges also moved well. Logan-berries, raspberries and blackberries are becoming more plentiful. There is but little call now for strawberries.

Three cars of bananas were unloaded in satisfactory condition. The prospect is for only a limited supply of bananas for the trade of the Fourth, as the jobbers, in view of the interrupted train service, the roult of the frequent wushouts, have or

LAST OF THE KREBS HOPS SOLD. Cents.

Krebs Bros. yesterday sold two carloads of their Brooks hops to Henry L. Bents at 54 cents. This cleans out all of the Krobs lings of 1907 hops.

Word comes from New York of the sale at auction there by Paul R. G. Herst of 800 bales of 1906 Oregons at 2 cents. Most of Horse's hig block of hops is at London and it was their removal to that market that led to the English outery against the 'dumping' of American hops.

Eight Billion Dollar Crop. The crops of 1908 will be worth \$5,000,-000,000, according to figures prepared by the officials of the United States Department of Agriculture. Chief Statistician Clark is quoted as saying: "Indications are for great crops. For eight years the American farmer has enjoyed unprecedented prosperity, and now the ninth promising harvest is practically assured. Never have there been nine such years, years of big yields and high prices."

Improvement Lies Ahead.

BUT THERE IS NO DEMAND

Market Is Without Life and Prices Drift Sluggishly-Small Engagement of Gold for Export to Germany.

NEW YORK, June 29.—The stock market was apathetic today and the sluggish drift of prices represented nothing more substantial that the testing operations of professionals. There was little to indicate any notable change in fundamental conditions.

The present firm undertone of the market evidently is based on the conviction that improvement lies abead and the poor showing of present conditions seems not to have much effect in shaking this opinion. While securities are withheld from the market in this opinion, it does not stimulate any demand for new holdings, even with the near appreach on the semi-annual disbursements of probably \$200,000,000. With an unyleiding surplus of banking reserves in the New York banks which keeps interest rates at level far below the rate of return on well-secured share and bond issues, there is no symptom of a seasonable reinvestment demand in the New York market.

There was another small engagement of gold for shipment to Germany today, and Paris took practically all of the available supply of gold from the London market. These two sources of continued pressure for gold represent the only adoubtful factors in the undeviating prospect of redundancy in the world's money markets. London book for a 2 per cent Bank of England rate during the month of July, and there is no apparent interruption of the inflow of currency from the country's active circulation into New York banks of reserve.

Raliroad earnings reports show no signs of the promised improvement in business, net earnings for May being poorer than those for April, as April was poorer than those for April, as April was poorer than those for April, as April was poorer than those for April, as April of the inflow of currency from the country's active circulation into New York banks of reserve.

Raliroad earnings reports show no signs of the promised improves the May acreage flus far shown, the gross decrease of \$1.790,500 seeing cut down in the net return to \$5020.137 inose by the curtainment of operating costs. This demonstration

margin of unemployed talls.

The crop news today was plentiful, but was so balanced in its promise from different localities as to neutralize it as a stock market factor.

CASH WHEAT ALSO FIRM

Heavy Buying of September Because of Reports of Additional Rains in Kansas and Bullish Nature of Weekly Statistics.

CHICAGO. June 28.—The wheat market was irregular during the first half of the dury, the July delivery being rather weak and the deferred futures rather firm. Several leaders of the local bulls were free buyers of the future deliveries early in the session, while the longs sold July. The demand for the September option at the start was due to additional rains in Kansas and to the builtsh nature of the weekly statistics. The amount of breadstuff on passage decreased 2.232.000 bushels, the visible supply decreased 1.516,000 bushels and the world's shipments for the week were about 3.600.000 bushels leas than for the corresponding week a year ago. Demand became more general late in the session, which caused a much stronger feeling in all deliveries. Active demand for cash wheat throughout the country by millers and small primary receipts inspired demand during the final hour. The market closed firm. September opened is to is 6 to a fight of the series at 85% 686, sold at 85%c and then advanced to 86%c. The close was at 86% 6 86%c. July sold between 85 and 85%c and closed at 85%c. The corn market was inclined to be week early in the day because of seiling

56%c. July sold between \$5 and \$5%c and closed at \$5%c.

The corn market was inclined to be weak early in the day because of seiling based on rains in various sections of the corn helt, particularly in Illinois. The market closed atrong with prices at almost the top notch. The September option opened icolower at 65%c, sold at 48%c and then advanced to 60% \$600%c. The close was at 69% \$60%c. July sold between 67%c and 60c and closed at 69c.

Oats were easy at the start owing to more favarable weather conditions, but during the latter part of the day the market became sympathetic with wheat September opened %c to %c lower at 35% \$63%c, sold up to 38% \$200c and closed at 38%c. July ranged between 44%c and 45%c, and closed at 48c. vacant tots, the streets and plante parks and grounds are the places designated for the noisemakers to hold sway. Bonfires are absolutely prohibited. The discharge of fireworks or explosives is forbidden within two blocks of a hospital. ing of two policemen and a lieutenant-general in full regalia. and Breaking Front Teeth. DEMANDS SANE FOURTH

While waiting for a car at Tenth and Washington etrects yesterday afternoon Mrs. H. A. Hoofer, Twenty-third and Marshall streets, was struck by a motorcycle, suffering severe injuries and the loss of her front teeth as a result of the collision.

CHICAGO. June 29. — "The sanest Fourth in the history of Chicago will be the characterization earned for itself by the coming holiday. The police and the fire departments are to join hands in a Carl Anderson, evidently a new op-erator of a motorcycle, was going rapidly down Washington street, and in order to avoid collision with a car-turned the machine toward the side-walk. He lost control of the cycle, and it bumped violently into the curb, hurling the driver from his scat, and striking Mrs. Hoofer. fire departments are to join hands in a determined effort to reduce accidents, noise and fires to the lowest possible level Strict enforcement of the city ordi-nance governing the sale of fireworks and explosives is to be made this year more than ever before. The firing of cannons, guns or pistols is prohibited, as the discharge of toy pistols and common firecrackers. Railways and backyards must not be used for the celebration, as the discharge of any kind of fireworks.

The woman was thrown to the sidewalk by the force of the collision. Her front teeth were knocked out and she suffered severe injuries to her arm and hip. Bleeding profusely, she was placed in a carriage by Policeman Roberts and removed to her home. Anderson escaped injury, but was arrested by Officer Roberts for failure to have his muchine numbered.
