CASE MAY COST HIS TRIP

MANNING DENIED POSTPONEMENT—MAY STAY AT HOME.
Attempted Conspiracy Involving Private Detective Will Be Brought Out In Case for Possession of Child.
Because a woman can't get along without her baby girl, District Attorney Manning may have to forego a trip to the Democratic convention at Denver. He appeared for Guy E. Reynolds before Judge Gantenbein in the Circuit Court yesterday and asked for a postponement of the suit brought by Anna J. Reynolds to recover the possession of her child, which she says is being unlawfully kept from her by the father. Mr. Manning said that while it is true that the father now has the child, in violation of the order issued by the late Judge Frazer, he would put up a sufficient bond that no harm should come to the child or the mother as a result, if the court would order a continuance of the case. This Judge Gantenbein refused to do unless the child should be returned to the mother. "Well, I'll forego my trip to Denver, then," replied Mr. Manning in a pique. Judge Gantenbein set the case for trial Thursday morning at 10 o'clock, and Mr. Manning thought he might finish in time for his trip, after all.
Anna J. Reynolds obtained a divorce in February, 1906, from Byron E. Reynolds, after he had brought the suit. She was awarded the custody of the girl, which is now 3 years old, with the provision that the father might have it the first week in each month. Things went along very well until 18 days ago, when the father took the child and has since refused to return it, on the ground that the mother

TWO STRONG MEN TO MEET

DR. ROLLER WILL WRESTLE FRANK GOTCH TONIGHT.
Match Is for Heavyweight Championship of World and Will Be Hard and Close.
When Dr. B. F. Roller, of Seattle, and Frank Gotch, of Iowa, meet on the mat at Seattle tonight, the two very best heavy-weight wrestlers of the world will be pitted against each other in the struggle for supremacy. Gotch is the acknowledged champion catch-as-catch-can wrestler of the world, for he has won the title by defeating Hackenschmidt and other big foreigners who aspire to the title, and tonight he will be pitted against as crafty a wrestler as is before the public today. This is not the first meeting between Roller and Gotch, for something over a year ago the Iowa man undertook to place the Seattle man's shoulders to the mat a certain number of times within an hour, and posted a wager that he would accomplish the task. As the bout turned out, Gotch lost his bet, for not only was he unable to secure the stipulated number of falls on Roller, but failed to put his shoulders down even once within the specified time. Roller, himself, was unable to gain the upper hand on the champion, and the few who witnessed the struggle of strength announced afterward that it was the finest exhibition of wrestling they had ever seen.
Roller is a much more scientific and classy wrestler than on the occasion of his former meeting with Gotch, and the Iowa man has also improved, which would indicate that a battle royal will take place between the men when they meet tonight in the contest, which will either determine Gotch to be the champion for

WORK OF TRAINWRECKERS

FATAL SMASH-UP AT WINSLOW NOT DUE TO ACCIDENT.
Santa Fe Officials Have Evidence That Bridge Was Deliberately Set on Fire.
LOS ANGELES, June 30.—A claim is made by officials of the Santa Fe Railroad today that the wreck of the California Limited near Winslow, Ariz., Sunday night was deliberately brought about by the burning of the bridge, the absence of which caused three deaths and resulted in injury to over 30 people. H. J. Franklin, general coast claim agent for the company, declared today that reports from his subordinates establish a clear case of train-wrecking.
It is said that the bridge was so located that fire could not have been started by a passing engine; that a train had passed two hours before the wreck and that in the meanwhile a trackwelder had found the bridge in good condition. Two men are said to have been seen running away as the engine crashed into the ditch.
It is now declared that the wreck of a freight train in the same vicinity on June 29 was accomplished by an obstruction placed on the track originally in the mistaken belief that the next train due was the California Limited.
Three passengers, most dangerously injured, whose names have not been learned, were sent from Winslow to Albuquerque, N. M. A special train of four Pullmans and a chaircar brought the other passengers and about 15 injured to this city, arriving today. Only four of those hurt required hospital treatment.
Of these, William Davis, of Pittsburg, was the only passenger.
The other was Sherman Storer, O. E. Spears and

DRILL A 600-FOOT WELL

Huntington Expects to Have City Water Supply.
HUNTINGTON, Or., June 30.—(Special.)—At a special meeting of the City Council the contract for drilling a city well, 600 feet deep, was let to Russell & Wilson, of Fayette, Idaho. The well is to be eight inches at the top and six inches at the bottom, and work is to be commenced not later than July 10 and pushed to completion as rapidly as possible. Six hundred feet will make the well 42 feet below the level of the railroad well, which has an unlimited supply of soft water and several of the citizens are in favor of donating money enough to put the well down deep enough to strike a flow of artesian water. They think it can be struck at a depth of about 350 feet.
The city has over \$500 in the treasury and it is thought that there will still be a surplus in the treasury when the well is completed. It is the intention of the Council to pipe the city.

STRIKEBREAKERS ARE SHOT

DUEL WITH CONSTABLE
Nevada Bad Man, Though Wounded, Puts Officer to Flight.
RENO, Nev., June 30.—A special from Winnemucca says that Constable Wolf, of Lovelock, went to that city to arrest C. R. Webster, a saloon-keeper, for a small offense. As Wolf entered the saloon Webster leveled a gun at the constable. The officer backed out, but, returning soon, opened fire on Webster, shooting him twice in the back and once in the arm. With the assistance of the day bartender, Wolf was driven from the place after a fusillade of shots.
Sheriff Lamb and a posse have gone for Webster, and another fight is expected.
Big Force Working on Canal.
WASHINGTON, June 30.—The total labor force actually at work on the last day of May on the Isthmian canal operations was 21,036, according to the monthly report of the chairman.

WORK OF TRAINWRECKERS

Work Almost Done on Dam.
PENDLETON, Or., June 30.—(Special.)—With the exception of the trimming-up work, the big dam at the Government irrigation project at Hermiston is complete. Practically the entire force of laborers has been discharged, those remaining being employed in transferring the equipment, a large part of which is being taken to Yakima. The big steam shovel did its last work some two weeks ago and arrived at Hermiston yesterday, having been ten days in covering the five miles between the dam and the town. It is now being loaded on cars and will soon be at work in some other part of the country, probably on the Yuma project, in Arizona.
