GERMANS IN LEAD

Take, First, Second and Third Places in Grand Prix.

TWO RACERS ARE KILLED

Cissac and His Engineer Crushed When Big Panhard Overturns. English Driver Badly Injured in a Like Manner.

DIEPPE, July 7.—The grand prix, the blue ribbon of the automobile world, was won today by a German, Lautenschlager, driving a Mercedes car. His time was 6 hours, 53 minutes, 45 seconds. The average speed he maintained was 69.95 miles an hour. Henry, in a Benz car, was second, and Hattori, also in a Benz, was third. The German victory was not popular, but still the crowd cheered Lautenschlager with a right good will. There were numerous accidents and two men were killed outright. Cissac and his engineer, Schaub, were the victims. While finishing the final round the tire of their machine, a Panhard, was torn off. The car was thrown on top of the two men, and they were horribly crushed. A Weigel car, driven by Harrison, an Englishman, turned a somersault at a dangerous point in the road near Eu and Harrison was badly crushed. The surgeons say his injuries are not mortal.

Set a Terrific Pace. The race today was the most exciting since the grand prix was inaugurated. A terrific pace was set at the start and three Frenchmen, Sizet, Thery and Abbot, and Wagner, an Italian, and Salzer, a German, beat the

lap record made last year, in the first round. In the second round Mazarro, driving a Fiat car, forged to the lead, but the strain soon began to tell on the leaders. Tire trouble then developed and a strong wind, at times reaching the proportions of half a gale, that blew straight in the faces of the drivers as they came down the sea leg of the triangular course, forced a reduction of the pace and put an end to the hopes entertained earlier in the day that the record of last year would be broken.

Accident to Nazzaro. Lautenschlager in his Mercedes, drove steadily and took the fourth round when Nazzaro dropped back owing to a jammed clutch, and he maintained his position to the finish. The English drivers were never prominent from the beginning and Strang, the American, who was driving a Thomas car, after finishing the fourth round next to the leader, disappeared. After the fourth round the Italians also dropped back and were never in the race. The Frenchmen, however, kept up the struggle but one by one the crack drivers succumbed and left only Thery in a Benz to see the fight out. Thery is the veteran who won the Gordon Bennett cup in 1903. In the sixth round, however, Thery had a tire accident and the last hope of the French entries was gone.

Hemery Shows Gameness. When the race was about half over a stone thrown by a flying wheel struck and broke Hemery's goggles and a piece of glass was driven into his eye. He refused to quit and after a surgeon had given him an injection of cocaine to kill the pain, he resumed his wheel and continued to the end. Almost 1,000,000 people saw German drivers capture the automobile honors of 1908. Strang, the American driver, was hopelessly beaten an hour before the race started. As he was driving into the enclosure before the start the transmission and reversing gear jammed. After considerable difficulty the mechanism was patched up, but the car crossed the starting line with the first and second and the reversing gear out of commission.

Strang's Tires Give Out. When Strang turned up after the race he explained that he had had tire trouble at every round and that finally his cylinder was washed out. Rosenthal's windows are money-savers.

INSPECTS PEARY'S SHIP

PRESIDENT ROOSEVELT WISHES EXPLORER SUCCESS.

Shakes Hands With Each Member of Crew—Predicts Goal Will Be Reached.

OYSTER BAY, July 7.—"My, what a fine ship!" remarked President Roosevelt as he approached the Arctic exploring steamer Roosevelt, lying at anchor near the President's yacht Syph in Oyster Bay harbor this afternoon. Commander Robert E. Peary, U. S. N., the Arctic explorer, who was at his side, agreed with the President and thanked him for the compliment. Captain Bartlett of the Roosevelt made apologies to the President for her appearance, saying she did not come up to the standard of the Navy. "Don't care what she looks like, Captain," replied Mr. Roosevelt, "it's what she does."

The President insisted upon going down the narrow iron ladder into the engine-room and seeing everything there was to be seen. When he came up he was wiping perspiration from his brow, but seemed to be enjoying his visit nevertheless. Climbing upon the forecastle deck, the President found the crew of the Roosevelt lined up. He was introduced to each individually. As he grasped successively the hands of the sailors, he had something different to say to each. Commander Peary said his last good-bye to the President as Mr. Roosevelt was about to go over the side into the Syph's launch. The President shook hands with the explorer, saying that hunting the pole is good sport. "Inasmuch as I cannot go along with you myself," said the President, "all I can do is to wish that good luck may go with you. I feel confident that you will get there this time, if it is possible to do so. If you do not, do the best you can. Good-bye."

LONDON TIMES NOT SOLD

Purchase of Thunder by Lord Northcliffe Denied.

LONDON, July 7.—Reports were in circulation here when C. F. Moberly Bell, manager of the London Times, secured control of that paper in March of this year, that Lord Northcliffe, formerly Sir Alfred Harmsworth, provided a majority of the required capital. This was subsequently denied. At the present time Lord Northcliffe is out of town, but Thomas Marlowe, editor of the Daily Mail, of which Lord Northcliffe is the principal proprietor, says there is no truth in the revival of the report, and it is denied also by the Times. The Times is authorized by the further statement that the directors of the company formed in March will take over the control of the paper July 4.

RECEIVER FAILS IN TASK.

KANSAS CITY, July 7.—Judge John C. Pollock, in the Federal Court here, last night ordered that the property of the Great Western Life Insurance Company be disposed of and that the policies, amounting to \$2,000,000, be re-insured in some reliable company. On May 16 last, upon petition of a number of stockholders, a receiver for the company was appointed by the Federal Court. At that time it was thought that the affairs of the company could be adjusted, but the receiver found it necessary to report to the court that he could do nothing with the company's already dilapidated affairs.

SETTLE FISHERIES DISPUTE

Controversy Between United States and Canada to Be Arbitrated.

THE HAGUE, July 7.—According to information in circles connected with the court of arbitration, it has been practically settled that the fisheries questions between the United States and Canada will be submitted to the court towards the end of this year. WASHINGTON, July 7.—It will not be possible to submit the disputed fisheries question between the United States and Canada to The Hague arbitration court for settlement this year. Under the arbitration treaty between the United States and foreign governments, ratified by the Senate, the last-named body is required to give its assent to the specific issues arbitrated. These issues in the fisheries question will be submitted to the Senate when it meets in December, so that it will be next year before the matter can be brought to The Hague. Tomorrow and Friday will positively be the last days for discount on West Side Gas Bills.—Portland Gas Co.

Superior in Strength

Dr. Price's Flavoring Extracts are superior in strength, freshness and fineness of flavor to any flavoring extracts made in the world, and ladies of the best taste, who are now using them, find them just as represented. Persons who desire a delicate and natural flavor in their cakes, puddings, or any table delicacy, will obtain it by using

PURI-TAN-ATED BRAND COFFEE

KING SOLOMON'S wisdom was frequently put to a test. Once he was shown two wreaths, one of real flowers, the other wonderful in the artificial duplication.

"Which is the real and which is the false?" he was asked. Solomon replied, "Open the windows." A drove of bees in quest of honey scenting the flowers swarmed to those which were real and shunned the false.

All coffees to the unsuspecting look alike, yet there is wisdom in the choosing if you know how. By asking for Puritan-ated Brand Coffee you get the best with the bitter herbal matter freed from it. By special machinery we remove the bad and leave the good—the very best there is in the best of coffees.

Coffee wisdom is a health protection. Puritan-ated Brand Coffee is unquestionably a healthful coffee because of our having freed from it this bitter herbal matter heavily impregnated with tannic acid.

At reliable grocers in 1-lb cans, granulated
