BRAKEMAN KILLS TRAMP

TRAGEDY ABOARD FREIGHT TRAIN NEAR YAKIMA.

Hobo Wounds Trainman Before Later Gets Gun Into Action. Many Desperate Tramps.

NORTH YAKIMA, Wash., July 7.—(Special.)—In a brisk encounter on a freight train between Monte and Toppenish at 3 o'clock this morning a tramp, believed to be Charles Rice, was killed, and Brakeman J. L. Blake, of the Northern Pacific, was wounded.

According to the story of the brakeman, the hobo began the shooting, wounding Blake in the left arm and side before the latter could get his gun into action. Blake had not been carrying a gun lately, and last night he started to board the train at Pasco without it, when he changed his mind, remarking to a friend that he thought he would take it along. He states that he believes he would have been killed had he been unarmed.

Many complaints are being made by the officials of the Northern Pacific of the large number of hobos who are

PACKERS ENJOIN M'GOWAN

Fearing Trouble on Sand Island, Seiners Appeal to Federal Court.

TACOMA, Wash., July 7.—(Special.)—Fearing bloodshed and the destruction of their property, Attorney G. C. Fulton, of Astoria, Or., arrived in Tacoma today and obtained from Federal Judge Hanford a temporary restraining order enjoining H. S. McGowan and others from interfering with the Columbia River Packers' Association, Sand Island, near the mouth of the Columbia River, is owned by the association, which has several scores of men engaged in seining for fish. It is averred that McGowan and his partners have been putting in pilings and rocks in front of the island, which are in the way of the association. The association has torn out the alleged obstructions several times, and has fears that if the defendants are not permanently enjoined shooting will follow.

ASCEND TO RAINIER'S CRATER

Four Men Make Trip—Find Dangerous Trail on Gibraltar Rock.

TACOMA, Wash., July 7.—Guide Stampfer, George Schemp and Ritchie Bier of Tacoma, Cook, of California, ascended Mount Rainier to the crater yesterday, making the trip from Longmire and back to Paradise Valley in one day.

"From Camp Muir we found the climbing very difficult," said Mr. Schemp today, "and it was nearly 6 o'clock in the evening when we reached the crater. The snow was soft. There is one place on the side of Gibraltar Rock where the trail, the guide says, is considerably altered for the worse. There, just over the head of Nisqually glacier, is a sheer drop of hundreds of feet.

Coming down Stampfer stumbled or slipped and like a shot he went tumbling down the side of the wall full 25 or 30 feet. He managed to stick his toe pick into the side and caught himself and slowly clambered back to the association.

"We found the crater full of snow, with the exception of the rim on the south and east sides. Steam was issuing from the rim on the east side."

OBJECT TO CONFESSION

STEVE ADAMS' LAWYERS SAY IT WAS MADE UNDER DURESS.

Ask Court to Exclude It From Evidence in Collins Murder Trial.

GRAND JUNCTION, Colo., July 7.—With the jury completed, nine of whom are farmers, and only the opening statement of the defense and prosecution made, taking of testimony began today in the trial of Steve Adams, accused of the assassination of Arthur Collins, the mine manager, during the strike troubles in Telluride several years ago. District Judge Shackelford, sitting in the case, granted the application of the attorney for the defense to have the state summons Adams' witnesses by allowing \$100 for the purpose.

In his opening statement for the prosecution, Attorney H. M. Hogg referred to Adams' confession. "We object, Your Honor," interrupted Attorney Hilton, chief counsel for the defense. Hilton then began an argument as to the admissibility of the alleged confession, upon which document the prosecution bases its entire case. The court overruled the objection insofar as it pertained to the opening address. The defense filed objections as to why the confession should not be admitted, principal among which was that it was involuntary and

EXERCISE YOUR LIVER

The value of proper exercise as a means of gaining and preserving health has become generally well known. There are a number of good ways of exercising the various outer muscles and parts of the body.

There is also one good way of exercising the inner organs, particularly the liver. The inner organ is a sort of automatic machine, and the principal thing necessary to its proper performance and exercise of its parts is to keep it clean and well oiled, so that it doesn't clog and run irregularly.

The liver is one of the most important parts of this machine. When it stops, the machine stops. When it works badly, the machine works badly—and if it's your machine, you suffer. A very simple and good way to keep your liver going right and to avoid all its such as constipation, biliousness, headache, jaundice, acidity, sour stomach, rising bile, is to take Lane's Pills—the one best liver exerciser.

Lane's Pills act directly on the liver and never gripe. Gentle, but sure. One pill is a dose, and there are twenty-five doses in the 25c bottle. Made by Chas. E. Lane & Co., St. Louis Mo. Sold in Portland by the Lane-Devil Drug Company under their store—Third and Yamhill, 342 Washington street, 24th and Thurman and at East 28th and East Glisan streets.
