GARFIELD VISITS OREGON PROJECTS

Has to Pass by Klamath but Is on His Way to See Umatilla Dam.

HARNEY PROJECT SHELVED

Secretary of Interior Says Certain Private Interests in Klamath County Are Obstructing the Department's Work There.

To investigate personally the transformation of arid lands of the Northwest into producing tracts, James R. Garneld, Secretary of the Interior, is touring Oregon; he spent yesterday in Portland. With Mr. Garfield on the tour are F.

H. Newell, Director of the Reclamation Service; Arthur P. Davis, Chief Engineer Service; Arthur P. Davis, Chief Engineer of the Reciamation Service, and two clerks. The party left last night for Umatilia, where the Secretary will investigate the work being done on the Umatilia project, tributary to Hermiston. Immediate beneficial results from the gigantic undertakings of the Government in this state must come from the railroads, according to Mr. Garfield, Vast sums may be expected by the Federal Government and arid lands may be made gardens of great richness, but the bringing of the people to inhabit these fruitful areas is up to the railroads.

The Umatilia project, according to Mr. Garfield, is progressing satisfactorily. In

Garfield, is progressing satisfactorily, in that work the Cold Springs dam, about eight miles from Hermiston, has been completed. It is 100 feet high and stores 60,000 acre feet of water. It is filled by means of a large feed canal from the Umatilla River. The entire project will bring under irrigation 20,000 acres of land. Already 7000 acres are under irrigation and ready for cultivation.

Will Look Up New Projects.

The Harney County project, according to the Secretary, has been practically abandoned for the time being. However, the Department is looking favorably toward the development of several other projects in this state, and to investigate

them personally and more completely is one of the objects of Mr. Garfield's visit. The Secretary carefully refrained from expressing himself with reference to any action that may be taken by the Government against the Oregon & California Railroad. That matter, he said, is altogether in the hands of the Department of Justice. Nor would he discuss the probable ultimate fate of the so-called "innocent purchaser," who has already bought and paid for lands from this railroad

and paid for lands from this railroad company.

Mr. Garfield reached San Francisco Tuesday after a visit to the Hawatian Islands. He was on the islands for two weeks and is considerably tanned as a result of the tropical climate. However, he expressed himself as greatly pleased with the results of his trip. He arrived in Portland yesterday forenoon, and during the brief time, he spent in this city, was extremely busy. He received nunerous callers, attended meetings, made several visits, accompanied a delegation of prominent citizens to luncheon at the Commercial Club, and besides many other things kept his two cierks at the Portland Hotel busy all day.

Those at the Luncheon.

Those at the Luncheon.

The luncheon at the Commercial Club was an informal affair and was tendered the Secretary of the Interior by the Club. Senator C. W. Fulton, who came from Astoria to see Mr. Garfield, was a guest. Others who attended were: F. H. Newell, Others who attended were: F. H. Newell,
H. R. Judah, assistant general passenger
agent of the Southern Pacific, San Francisco: Governor George E. Chamberlain,

Many of the delegation met the Secre-tary at the hotel and excepted him to the Commercial Club. Immediately after the luncheon Mr. Garfield attended a meeting of the state commission in the office

ing of the state commission in the office of J. N. Teal, where plans for the conservation of the natural resources of this state were discussed.

"The department is not only satisfied, but very much pleased with the progress of the work on the Klamath project." said Mr. Garfield. 'However, progress has been retarded by certain private land interests which are said to be speculating in the lands there. A great many complaints have come to us in Washington about private owners holding up the work, and we have been surprised that the work has met with any opposition at all, for we had naturally expected it to be met with the heartiest approval of

all, for we had naturally expected it to be met with the heartiest approval of and co-operation from the citizens of all sections of Oregon.

The purposes of the new regulations in the Land Office, according to Mr. Garfield, are to install new methods of accounting. The changes are chiefly clerical, it is said, and were made to facilitate the work of the land offices.

Mr. Garfield did not include Klamath Falls in his titnerary on this trip. He

Falls in his titinerary on this trip. He visited that place last year and declared he did not have time on this trip to visit the various other government projects, if Klamath was included.

In addition to the meetings Mr. Garfield In addition to the meetings Mr. Garfield attended, he also held conferences with John McCourt, United States District Attorney; Thomas B. Nenhausen, Special Inspector of the Interior Department; L. K. Glavis, chief of the field division for this district and Alaska; Senator C. W. Fulton and others.

LEGAL TRIO IN TROUBLE

Disbarment Proceedings Brought Against Watts, King and Finch.

f. F. Watts, H. C. King and J. Z. Finch must appear before the Supreme Court to answer the disbarment proceedings filed against them by the grievance committee of the Multnomah County Bar Association. The citations were sent to Portland yesterday for service on the lawyers by Sheriff Stevens.

Four charges have been lodged, one each against Watts and King, and two against Finch. The latter is charged with drunkenness and forging a pension certificate. Watts is alleged to have deceived one of his clients, and king is alleged to have deceived the father of Roy Summers into giving him an exorbitant sum for legal advice.

ROAD WORK CHEAP

Prisoners Save County \$9211 in Two Months.

Report Shows That Mile and Threequarters of Road Was Macadamized by Kelly Butte Gang During May and June.

By working the city and county pris-oners at Kelly Butte, Multnomah County saved in the construction of its roads, during June, \$2527.12, and during May, \$3954.46. The prisoners turned out 4220 during June, \$2557.12 and during May, \$2564.46. The prisoners turned out 4220 yards of rock during the month of June, which would have cost, had it been purchased from local contractors, \$1.50 a yard, or \$6480. This is the price at the bunkers. The 4220 yards cost the county, including the feeding of the prisoners, 43 1-5 cents a yard, or \$1865.92. Meals were served to the prisoners during June to the number of 5477, at a total cost of \$539.42, or 9 4-5 cents a meal.

Had the rock for the repair and building of the county roads been purchased, it would still have been necessary to feed the prisoners, so this amount should be deducted from the \$1969.92, which leaves a net cost of 28 2-5 cents a yard. This means that the county saved \$1.216 a yard on its rock during June, or \$257.12.

The prisoners turned out 3682 yards of rock in May, at a cost of \$1881.22, or \$4

rock in May, at a cost of \$1981.22 or 64 cents a yard. The prisoners received 5877 meals during the month at a cost of \$48.36,*or 9 1-3 cents a meal. Deducting the cost of feeding the prisoners from the whole cost of getting out the crushed rock, there remains a net cost of 42 3-5 cents a yard. The county therefore saved \$1.074 a yard on its rock during May, or \$355.446. The feeding of the city prisoners cost, in May, \$137.50 and in June, \$157.50.

During the last two months the county built a mile and three-fourths of heavy macadamized road, putting in a thousand yards more rock than was ever laid before in an equal time.

No Mail Service Over Bad Roads.

Postal authorities at Washington having the rural delivery service in charge, about this time of year notify postmasters all over the country in whose territory this service is maintained to communicate with County Commissioners and County Judges with reference to having the roads used by rural carriers put in good condition before the bad weather of the Fail and Winter seasons sets in. Rostmaster Mints received the customary notice some weeks ago and at once informed the Commissioners of Multnomah County of the request of the Department. There is an intimation in the circular letter from Washington that unless the roads are kept in passable condition the service of

to destruction. Mrs. Fiske is undeniably the greatest English speaking actress today; the apostle of repression. Nothing finer has been done in the intellectual school of re-strained acting than Rebecca West's constrained acting than Rebecca West's confessional in the third act. With glazed eyes, the tragic quiver of the eye-ild, a twitching of her expressive mouth, and the flexible voice full of heart-throbs, she lifts us by the quietest possible method to the most superbellmax. During the period of intensity of repression, anyone with blood in his veins must admit that for the nonce his nerves executed a chromatic scale up and down the vertebrae.

and down the vertebrae. and down the vertebrae.

Mrs. Fiske is an exceptional actress, in that she does not court an interview. It was therefore an agreeable surprise that she met me between the acts with the utmost cordiality in spite of the intense heat and the fact that she had tense heat and the fact that she had undergone both performances void of her handsome stage scenery, owing to the inadequate accommodations of the theater. This Mrs. Fiske regretted exceedingly, as she declared that on account of the cramped quarters of the antitrust houses in this city doubtless Portiand in the future would be omitted from her itinerary.
