DETECTIVES' CASE UNDER ADVISEMENT

Gritzmacher Opposes Putting Joe Day on a Beat in Uniform.

DAY WOULD BALK ANYWAY

Commissioners Criticised for Alleged Arbitrary Tactics in Refusing Postponement - Greene Himself Presides at Hearing.

Testifying before the police com-mittee of the Executive Board at the City Hall last night, Chief of Police Gritzmacher, answering a question by Attorney Logan, declared that it was not in his judgment for the best interests of the service to put Detective Joe Day on a beat in uniform. The Chief's Day on a beat in uniform. The Chief's ideas on this matter conflict with the orders of Commissioners Greene and Sabin, who "suggested" that Day and three others be ordered into uniforms and put on patrol duty. The officers refused to do this, under advice from counsel, and were again cited to appear for a hearing. Insubordination and refusal to obey orders were the charges.

After two hours of taking testimony, hearing objections by Attorney Logan and Wolfe, who appeared in the ab-sence of the regular counsel, Ralph E. Moody, Commissioners Greene and Sabin last night took the case under advisement. They steadfastly refused to postpone the hearing, aithough Chairman Greene admitted that he knew before preferring these latest charges that Mr. Moody was to leave the city on a trip to Texas, and would, therefore, be unable to represent his clients, whose cause he has championed for two years, since they were discharged by the Executive Board.

Chief Gritzmacher, it is declared by Attorneys Logan and Wolfe, is in contempt of court, since he took the stand bin last night took the case under ad-

tempt of court, since he took the stand last night and testified in the case wherein Detective Day is defendant, inasmuch as the Chief was enjoined from doing anything further toward carrying out the recent order to put Day and the others in uniform. The injunction is still pending in the Cir-

Did It Because He Had To.

Chief Gritzmacher's sworn testimony clearly showed that he is out of sym-pathy with the proceedings and with the dering Detectives Day, Resing, Snow and Carpenter into uniform as patrolmen, and he so stated, in effect, by saying that he simply obeyed what he regarded as a direct order to force them to don the blue cloth and brass buttons of the patrolman, "suggested" by the con stoners. "The Chief swore that Joe is one of the most competent detective in America and a most valuable man as such, but said that, under the written "susgestions" of the commissioners to put Day and the others in uniform, he

put Day and the others in uniform, he was obliged to carry out the order. There was much adverse comment among the large number of persons attending the session last night as to the manner in which Commissioners Greene and Sabin overruled the petitions of counsel for a postponement of 10 days, until Mr. Moody could return, and the fact that Commissioner Greene, the author of the charges, sat as presiding of ther of the charges, sat as presiding of-ficer at the hearing. That an unfair advantage was taken of the defendants seemed to be the general bellef, and it is certain that, if the commissioners re-port in favor of the discharge of the four fficers, the case will be appealed to the

What Day Will and Won't Do.

department, on direct examination, and when asked by Commissioner Greene if he would be willing to report at headquarters and perform whatever service might be ordered by the Chief. Day re-plied very emphatically that he would work only as a detective in plain clothes, and not in uniform.

"I postifiely will not work except as a detective in plain closes," said Detective Day. "I have served 27 years as a detective, and I will not lie to you; I will tell you right now that I will not stand to be humiliated."

Detectives Resing and Carpenter were resent, but did not testify, except tha present, but did not testify, except that Mr. Resing said he was very sorry the case was pushed to a hearing without the presence of Mr. Moody, who had guarded the interests of the four officers for two years and who clone is familiar with all of the details of the case. Resing said he might be willing to work in uniform, but in the absence of Mr. Moody declined to commit himself.

Commissioners Greene and Sabin excused themselves for the arbitrary rulings.

cused themselves for the arbitrary rulings and the forcing of the case to a hearing without the regular attorney for the de-fense present, on the ground that this is a new case; that it has nothing to do with the old cases, which have been drag-ging along for two years and that the Commissioners have no personal feelings whatever in the matter.

MITCHELL NOT A CANDIDATE

Nor Will Governor Francis of Missouri Enter Race.

DENVER, July 9 .- John H. Mttchell, ex-president of the Mineworkers, and David R. Francis, of Missouri, have declined to allow their names to be presented before the Democratic Conven-

Governor Francis this afternoon noti-fied the Missouri delegation that he is not and will not be a candidate for Vice-President.

The Massachusetts delegation says Bovernor Douglas' name will not be pre-sented for the Vice-Presidency. Georgia will present the name of Clark Howell for Vice-President.

John Mitchell today made a personal ap-cal to the Alabama delegation not to peal to the Alabama delegation not to bresent his name to the convention for the Vice-Presidential nomination. Alabama being the first in the alphabetical roll of states, could give the Mitchell movement impetus by presenting the name of the labor leader in advance of other candidates. When Mr. Mitchell heard that the delegation had planned such a step he lost no time in trying to head it off. In discussing the situation at the Alabama headquarters, Mr. Mitchell said that, while he would possibly strengthen the Democraft ticket in some quarters, he would weaken it in others narters, he would weaken it in others and there he advised the delegation to abandon its plan. Speaking of his personal wishes he said he had made plans for the future which meant much to his family and that he would like to be undisturbed in carrying out his programme, particularly as he was greatly aterse to entering upon a political expression.

antering upon a political campaign.

The Missouri delegation today called

en ex-Governor David R. Francis and announced a decision reached today to put him in nomination for the Vice-Presidency. The Missourians expected to secure for Mr. Francis the support of Eastern Democrats because of the fact that he was a member of the Cleveland Cabbast.

Cabinet.

The Indiana delegation today began working earnestly among other delegations in an effort to arouse sentiment for John W. Kern for the Vice-Presidential nomination. His delegation is solidly behind him and more than a dozen states have been pledged to support, him in the event that Judge Gray, of Delaware. is not available.

A QUESTION OF SPELLING

International Copyright Law Leads Us to Old Standard.

New York Mail.

Could any one have foreseen, when the present international copyright law of the United States was passed, that it would tend to overthrow the "American" orthography and assimilate our spelling to the cumbersome forms in vogue in England? That is, that this public-spirited law would in a considerable degree dragoon us Americans into spelling "honor" and "favor" with the "u"? Surely no one could have predicted it. Yet that has been the result. Every year scores of American books are printed which have their pages sprinkled with year scores of American books are print-ed which have their pages sprinkled with "humour" and "flavour," and in which "civilize" is spelled in the last syllable with an "s" and other words in English fashion. Any popular novel, written by an American and dealing with American subjects and characters, is as likely as not to be as Britannic in its orthography as an Oxford prayer book

as an Oxford prayer book.

Why is this so? It is easy to explain. The American law restricts copyright to books printed from type set within the limits of the United States, while the limits of the United States, while the British law has no such restriction of the right in that country to books printed there. In other words, a book printed from type set in America may be copyrighted in Great Britain and elsewhere in Europe, whereas a book printed from types set abroad may not be copyrighted here. Now, the English abhor our Websterian spelling, and will not have it if they can help it. But many of our books, and especially a certain class of novels, are intended to have a circulation in Great Britain.

Though the English are so devoted to their own spelling, they do not care so much about their compositors. They are

much about their compositors. They are perfectly willing that the books they read shall be set up in the United States, provided they are properly—that is "honourably"—spelled. Our own publishers do not care how the books are spelled, provided they are the books are spelled, provided they are the books are spelled, provided they get the British sales. our book printing establishments the order often goes forth, "English spelling",—and the Yankee presses groan with columns in the old orthography.

Apparently the American reading public does not care. "Favour" and "humour," "plough" and "connexion," do not offend it. Perhaps it rather likes them. Every day the people become more accustomed to them. Already in wedding and social invitations, the "u" is always employed in "honor," and so forth. It looks very much as if we were gradually returning, in spite of spelling reform agitation, to the old standard. And it is this patriotic copyright law that is doing it. Yet, the reaction would not have taken place if the decimal-hating, reform-scorning British public had been more considerate of its printers than of its prejudices—if, in the words of the poet, it "loved not henour" more."

RUSSIA WANTS A FRIEND

Would Foster Closer Relations With American People.

ST. PETERSBURG, July 2.—The Rossia today publishes a letter from its correspondent in the United States, who urges in strong terms the necessity, particularly for Russia, of a better under standing between the Russian and the American peoples, and who proposes a method by which this highly desired end

can be accomplished.

The correspondent deplores what he calls the animosity of the American people today toward Russia, and says this is a direct outcome of the persistent efforts of the epemies of the Russian empire, the Japanese during the late war, and subsequently Russian political agi-tators who visited the United States and None of the accused officers except Detective Day took the stand. He testing the conditions in the emmysticing idea of conditions in the emmystic in the emm tion the correspondent says the American people must be instructed in what Russia really is. The press is not the way to do it, nor must the method be tainted by an official connection. Russian society must act by itself unalded.

WATTERSON ADDS HIS PLEA

Vainly Urges Gray to Accept the Second Place.

WILMINGTON, Del., July 9.—Despite the absolute quality of his refusal to ac-cept a nomination for Vice-Presidency at the hands of the Democratic National at the hands of the Democratic National convention, Judge George Gray continues to receive communications in reference to the subject. Answering inquiries today, Judge Gray stated that he had received no letter from Henry Watterson, of Louisville, pleading with him to accept the nomination for Vice-President, as had been reported, but that he had received, last Friday, a telegram from the verlast Friday, a telegram from the veteran editor urging him to acquiesce in the

roposition.

He replied, as he had replied to the Associated Press, that he would "under no circumstances accept such a nomina-tion should it be made."
This, he says, is still his attitude and will be unaitered.

Killed in Auto Accident.

OAKLAND, Cal., July 9.—Ernest T. Scribner, of Bockland, Cal., was instantly killed by an automobile accident on the Hayward road, about a mile southeast of Hayward, at 6 o'clock this morning. Three other persons were severely injured and were removed to the black of the control of the contr removed to the Alameda County In-firmary for surgical treatment. The injured are: Mrs. Hazel Liddell, J. J. Nelson; Major John D. Jeffrey, a re-tired Army officer and well-known clubman. At last report the patients were resting easy and there is no serious danger.

Carry Out Nordica's Plans.

NEW YORK, July 9. -Active work has egun on the plans for the administration utilding of the Lillian Nordica Festival building of the Lillian Nordica Festival House to be erected by the singer at Harmon-on-the-Hudson. This is the first of the group of the handsome and artistic buildings that, fostered by the prima donna and three men and women of wealth and society, who are to make up the board of managers and patrons, will go to make up a musical institution similar in every respect to the Wayner See flar in every respect to the Wagner Fes tival House in Bayreuth, Bayaria, found ed by the late Richard Wagner.

Will Codify Canon Law. ROME, July A.-The codification of the canon law of the church, upon which Cardinal Gasparri has been working for the last year, will be finished some time in 1908. A copy of the new complication will be sent to each bishop in the Cath-olic world for criticism and it is estimated that this work of revision will take two

PLATFORM MADE FOR DEMOCRACY

Longest of Party Declarations Dictated by the Candidate.

SPEAKS ON INJUNCTIONS

Recommends Bill Passed in 1896. Proposes Radical Tariff Revision With Free Lumber-Every Question Discussed.

(Continued from First Page.)

tional expenditure of nearly \$70,000,000, as against only 10,279 new offices created under the Cleveland and McKinley administrations, which involved an expenditure of only \$6,000,000.

only \$5,000,000.

We denounce this growing increase in the number of office-holders as not only unnecessary and wasteful, but also as clearly indicating a deliberate purpose on the part of the administration to keep the Republican party in power at public expense by thus increasing the number of its retainers and dependents. Such procedure we declare to be no less dangerous and corrupt than the open purchase of votes at the polis.

Economy in Administration.

The Republican Congress, in the session just ended, has made appropriations amounting to \$1.005,000,000, exceeding the total expense of the past fiscal year by \$90,000,000, and leaving a deficit of more than \$60,000,000 for the fiscal year. We denounce the headless waste of the people's money which has resulted in this appalling increase as a shameful violation of all prudent conditions of government, and as no less than a crime against the millions of working women and men, from whose earnings the great proportion of these colossal sums must be extorted through exceedive tariff exactions and other indirect methods.

It is not surprising that in the face of this shocking record the Republican platform contains no reference to economical administration or promise thereof in the future. We demand that a stop be put to this frightful extravagance and insist upon the strictest economy in every department compatible with frugal and efficient administration.

Curb Arbitrary Power of Speaker. Curb Arbitrary Power of Speaker.

The House of Representatives was designed by the fathers of the Constitution to be the popular branch of our Government, responsive to the public will. The House of Representatives, as controlled in recent years by the Republican party, has examed to be a deliberative and legislative body, responsive to the will of a majority of its members but has come under the absolute domination of the Speaker, who has entire control of its deliberations and powers of legislation.

We have observed with amesument the

has entire control of its deliberations and powers of legislation.

We have observed with amazement the popular branch of our Federal Government heipless to obtain either the consideration or enactment of measures desired by a majority of its members. Legislative government becomes a failure when one member, in the person of the Speaker, is more powerful than the entire bedy.

We demand that the House of Representatives shall again become a deliberative body, controlled by a majority of the people's representatives, and not by the Speaker, and we pledge-ourselves to adopt such rules and regulations to govern the House of Representatives as to enable a majority of its members to direct its deliberations and control legislation.

Misuse of Patronage.

Misuse of Patronage.

We condemn, as a violation of the spirit of our institutions, the action of the present of our institutions, the action of the present of the Executive in using the patronage of his high office to secure the nomination of one of his Cabinet officers. A forced succession in the Presidency is scarcely less repugnant to public sentiment than is life tenure in that office. No good intention on the part of the Executive, and no virtue in the one selected, can justify the establishment of a dynasty. The right of the people freely to select their officials is inalienable and cannot be delegated.

Published.

Publicity of Campaign Contributions. Publicity of Campaign Contributions.

We demand Federal legislation forever terminating the partnership which has existed between corporations of the country and the Republican party under the expressed or implied agreement that in return for the contribution of great sums of money wherewith to purchase elections they should be allowed to continue substantially unmolested in their efforts to encroach upon the rights of the people.

energy to encroach upon the rights of the people,
Any reasonable doubt as to the existence of this relation has been forever dispelled by the sworn testimony of witnesses examined in the insurance investigation in New York and the open admission, unchallenged by the Republican National committee, of a single individual that he himself at the personal request of the Republican candidate for the Presidency raised over a quarter of a million dollars to be used in a single state during the closing hours of the last campaign.

In order that this practice shall be stopped for all time, we demand the pleasage of a statute punishing, with imprisonment only, officers of corporations who shall either contribution by a corporation of any money or thing of value to be used in furthering the election of a President or Vice-President of the United States or of any member of the Congress thereof.

Denounce Republican Dodging.

Denounce Republican Dodging.

Denounce Republican Bodging.

We denounce the action of the Republican party, having complete control of the Federal Government, for its failure to pass the bill, introduced at the last Congress, to compel the publication of the names of contributors and the amounts contributed toward campaign funds, and point to the evidence of their instincerity when they sought by an absolutely irrelevant and impossible amendment to defeat the passage of the bill. As a further evidence of their intention to conduct their campaign in the coming contest with vast sums of money wrested from favor-seeking corporations, we call attention to the fact that the recent Republican National convention at Chicago refused, when the issue was presented to it, to declare against such practices. We pledge the Democratic party to a law preventing any corporation from contributing to a campaign fund and any individual from centributing an amount above a reasonable minimum and providing for the publication before election of all such contributions.

Oppose a Centralized Government,

Oppose a Centralized Government.

We assert our confidence in and admiration for the wisdom of the fathers in so organising the Federal Government as to secure rule to the people of each state; and we piedge ourselves to combat with increasing vigilance the efforts of those who are striving by usurpation to seles the powers of the people of the state for exploitation by the Federal Government. Believing, with Jefferson in 'the support of the state governments in all of their rights as the most competent administration for our domestic concerns and the surest bulwark against anti-Republican tendencies and in the preservation of the general government in its whole constitutional vigor as the sheet anchor of our peace at home and safety abroad,' we are opposed to the centralization implied in the augustions now frequently made that the powers of the general government should be extended by executive and legislative action and by judicial construction.

There is no twilight zone between the Nation and the state in which exploiting interests can take refuse from both, and it is as necessary that the Federal Government shall exercise the powers delegated to it as it is that the state governments shall use the authority reserved to them but we insist that the Federal commerce and for the prevention of private monoply shall be added to, not substituted for state remedies.

Revision of Tariff.

Revision of Tariff.

Revision of Tariff.

We welcome the belated promise of tariff reform now offered by the Republican party in tardy recognition of the rightsounness of the Democratic position on this question, but the people cannot safely entrust the execution of this important work to a party which is so deeply obligated to the highly protected interests as is the Republican party. We call attention to the significant fact that the promised relief was postposed until after the coming election—an election to succeed in which the Republican party must have that same support of the beneficiaries of the high protective tariff as it has always heretofore received from them, and to the further fact that during years of uninterrupted power no action whatever has been taken by the Republican Congress to correct the admittedly existing tariff infigurities.

We favor immediate revision of the tariff her the reduction of import duties. Articles

may be necessary to restore the tariff to a revenue basis.

Existing futies have given the manufac-turers of raper a shelter behind which they have organized combinations to raise the price of pulp and of paper, thus imposing a tax upon the spread of knowledge. We demand the immediate repeal of the tariff on wood pulp, print paper, lumbes, timber and logs and that these articles be placed upon the free list.

Reform in Banking System.

The panic of 1907, coming without any legitimate excuse, when the Republican party had for a decade been in complete control of the Federal Government, furnishes additional proof that it is either unwilling or incompetent to protect the interests of the general public. It has so lined the country to Wall street that the sins of the speculators are visited upon the whole people.

Walls refusing to rescue the wealth-producers from spoilation at the hands of the stock gamblere and speculators in farm products, it has deposited Treasury funds without interest and without competition in favorite banks. It has used an emergency for which it is largely responsible as an excuse to force through Congress a bill changing the basis of the bank currency and inviting market manipulation, and has falled to give to the 16,00,600 depositors of the country protection in their savings.

We believe that involar as the needs of commerce require an emergency currency, such currency should be issued, controlled by the Federal Government and loaned on adequate security to National and state banks.

We pledge ourselves to legislation under which National banks shall be required to establish a guarantee fund for the peomyt payment of the depositors of any insolvent National bank under an equitable system which shall be available to all banking institutions wishing to use it. Beform in Bunking System.

Postal Savings Banks. Postal Savings Banks.

We favor a postal savings bank, if the guaranteed bank cannot be secured, and that it be constituted so as to keep the deposited money in the communities where it is established. But we condemn the policy of the Republican party in providing postal cavings banks under a plan of conduct by which they will asgregate the deposits of rural communities and re-deposit the came, while under Government charge, in the banks of Wall atrect, thus depleting the circulating medium of the producing regions and unjustiy favoring the speculative markets.

Improvement of Waterways.

dium of the producing regions and unjustly favoring the speculative markets.

Improvement of Waterways.

Water furnishes the cheapest means of transportation and the National Government having the control of navignile waters about improve them to their fullest capacity, and we earnestly favor the immediate adoption of a liberal and comprehensive plan for improving every water course in the Union, which is justified by the needs of commerce, and to secure that end we favor, when practicable, the connection of the Great Lakes, with navigable rivers and with the Guif through the Mississippi River and the navigable rivers with each other and the rivers, hays and sounds of our consts with each other by artificial channels, with a view to protecting a system of inland waterways, to be mavigated by vensels of standard draught.

We favor the co-ordination of the various services of the Government connected with waterways in one service for the purpose of adding in the completion of such a system of inland waterways, and we favor the creation of a fund ample for continuous work, which shall be conducted under the direction of a commission of experts to be authorized by law.

Against Ship Subsidies We believe in the upbuilding of America merchant marine without new or addition burdens upon the people, and without boun ties from the public treasury.

Railroad Rate Regulation.

Hes from the public treasury.

Railroad Rate Regulation.

We assert the rights of courts to exercise complete control over interstate commerce and the right of each state to exercise control over commerce within its borders. We demand such enlargement of the interstate Commerce Commerce within its borders. We demand such enlargement of the interstate Commerce Commission as may be necessary to compol railroads to perform their duties as common carriers and prevent discrimination and extortion.

We favor the efficient supervision and the regulation of railroads enjaged in interstate commerce. To this end we recommend the valuation of railroads by the interstate Commerce Commission, such valuation to take into consideration physical value of the property, the original cost of reproduction and all elements of value that will render the valuation made fair and just.

We favor such legislation as will prohibit the railroads from engaging in business which brings them into competition with their shippers; also legislation which will assure such reduction in transportation rates as such conditions will permit, care being taken to avoid reduction that would compol a reduction of wages, prevent adequate services or do injustice to legitimate investments. We heartily approve the laws prohibiting the pass and the rebate and we favor any further necessary legislation to restrain, correct and prevent such abuses.

Increased Powers for Commission.

Increased Powers for Commission.

We favor such logislation as will increase the power of the Interstate Commerce Commission, giving to it the initiative with reference to ratee and transportation charges put into effect by the railroad companies, and permitting the Internates Commerce Commission, on its own initiative, to declare a rate flegal, as being more than should be charged for such service. That the present law relating thereto is inadequate by reason of the fact that the Interstate Commerce Commission is without power to fix or investigate a rate until complaint has been made to it by the shipper we hold to be evident.

We further declare that all agreements of traffic or other associations of railroad agents relating to interstate rates, service or classification, shall be unlawful unless filed with and approved by the Interstate Commerce Commission. We favor the enactment of a law giving to the Interstate Commerce Commission. We favor the enactment of a law giving to the Interstate Commerce Commission the power to inspect proposed rail-Increased Powers for Commission.

Protection of American Citizens.

We pledge curselves to insist upon the just and lawful protection of our citizens at home and abroad, and to use all proper methods to secure for them, whether nativeborn or naturalized, and without distinction of race or creed, the equal protection of law and the enjoyment of all rights and privileges open to them under our treaty; and if, under existing treates, the right of travel and solourn is denied to American citizens, or recognition is withhold from American pasports by any countries on the ground of race or creed, we favor prompt negotiations with the governments of such countries to secure the removal of these unjust discriminations.

We demiand that all over the world a duty authenticated passport issued by the Government of the United States to an American citizen shall be proof of the fact that he is an American citizen and shall entitle him to the treatment due him as such.

Abuse of Injunctions. Protection of American Citizens.

Abuse of Injunctions.

Abuse of Injunctions.

The courie of justice are the bulwark of our libertles, and we yield to none in our purpose to maintain their disnity. Our party has given to the bench a long line of distinguished Judges who have added respect and confidence, in which this department must be jealously maintained. We resent the attempt of the Republican party to raise a false issue respecting the judiciary. It is an unjust reflection upon the great body of our citizens to assume that they lack respect for the courts.

It is the function of the courts to interprat laws which the people create, and if the laws appear to work economic, social or political injustice, it is our dut to change them. The only basis upon whole and interity of our courts can stand is that of unswerving justice and protection of life and property. If juddelal processes may one. Experience has proven the necessity of a modification of the present law relating of an incurrence has proven the necessity of a junctions, and we reliterate the pledge of our National platforms of 1886 and 1864 in favor of the measure which passed the United States Senate in 1895, but which a Republican Congress has ever since refused to enact, relating to contempts in Federal courts and providing for trial by jury in cases of indirect contempt. Questions of judicial practice have arisen, especially in connection with industrial disputes. We deem that parties to all judicial proceedings should be treated with right disputes. We deem that parties to all judicial proceedings should be treated with right in partiality, and that injunctions should not be issued in any cases in which injunctions involved.

Rights of Labor to Unite. The expanding organisation of industry makes it essential that there should be no abridgement of the right of wage-carners and producers to organize for the protection of wages and the improvement of labor conditions to the end that such labor organizations and their members should not be regarded as illegal combinations in restraint of trade.

tions and their members should be restraint garded as illegal combinations in restraint of trade. We favor the eight-hour day on all Government work.

We pledge the Democratic party to the enactment of a law by Congress as far as the Federal jurisdiction extends for a genseal employers inhality act covering injury to body or loss of life of employes.

We pledge the Democratic party to the enactment of a law creating a Department of Labor, represented separately in the President's Cabinet, which department shall include the subject of mines and mining.

Arizona and New Mexico.

The National Democratic party has for the last 16 years labored for the admission of Arizona and New Mexico as separate states of the Federal Union and, recogniz-ing that each possesses every qualification to successfully maintain separate state gov-ernments, we favor the immediate admis-sion of these territories as separate states. Graring Land Begulations.

Independence for Philippines

Independence for Philippines.

We condemn the experiment in imperialism as an unexcusable blunder which has involved us in an enormous expense, brought us weakness instead of strength, and daid our Nation open to the charge of abandoning a fundamental doctrine of self-government. We favor an immediate declaration of the Nation's purpose to recognize the independence of the Philippine Islands as soon as a stable government can be established, such independence to be guaranteed by us as we guarantee the independence of Cuba, until the neutralization of the islands can be secured by treaty with other powers. In recognizing the independence of the Philippines our Government should retain such land as may be necessary for coaling stations and neval hases.
