Prune Yield Will Be Light and Growers Holding Firm.

NO DEMAND FOR FUTURES

Range of Grain Prices on the Board of Trade-Active Trade in Fresh Fruits-Eggs Scarce and Very Firm.

A careful investigation of the prune crop in Clark County has been made by an experienced buyer, who estimates about half perfenced buyer, who estimates about nate a normal crop this year. Conditions are spotted in the county, some orchards doing fairly well and others poorly. The prunes will run to the large sizes. The only harm that could come to the crop now would be rains during the drying season, which will begin about September 10.

begin about September 10.

In the Williametts Valley conditions are better than in Clark County.

The crop will be heavier than was first expected, probably 75 per cent of a normal yield. The total output of the Northwest is figured at about two-thirds of a crop.

Prune growers are rejuctant to sell new at the prices offered them, feeling that the situation is strong enough to justify higher prices, but like all articles in the dried fruit line, prunes are not in strong demand. Of the situation in the futures market the New York Journal of Commerce mays:

There is reported to be a more urgent desire on the part of Const packers to secure orders for future California prunes, which finds expression in quotations that are a quarter to half a cent lower than prices named heretofore on the new crop. These prices are said to be entirely speculative, and there is a suspicion that they are being put out more for the purpose of influencing growers than in the hope of getting business in Eastern markets at this time. From some quarters 1908 Santa Claras are offered on a Bige f. o. b. bug basis in 40s to 90s, inclusive, but there seem to be but one or two sellers at that price. 3% chais representing the minimum price in most cases, while a number of packers are not inclined to book orders on anything less than a 4c f. e. b. bag basis. As 30s and larger sizes promise to be extremely scarce on this crop, they are not being offered, as far as can be learned. Outside prunes are quoted in some instances on a 3% of 5, b. bag basis, but even that figure does not seem to appeal to buyers.

RETURN OF PRESIDENT TOWNSEND After Visiting Eastern Exchanges, Is Well

Satisfied With Work of Local Board. President T. S. Townsend, of the Board of Trade, returned yesterday from a trip in the Eastern States, and after watching the busi-ness done on many of the produce exchanges, expressed himself as well satisfied with the showing made by the local board. He said: "All things considered, we have a larger membership, a better daily attendance and more interest is displayed by the members than at many of the exchanges I visited. I also found that, compared with other boards, our fees are ridiculously small. "Trade conditions in the East are quiet

in many lines, but a striking exception is in the dairy produce line. The butter market is very active throughout the East. There has been plenty of rain in the Mildle West and the dairy produce output is large, but notwithstanding this fact and the quietness in trade generally, prices of butter hold up

At the noon session of the board a wide range was quoted in December wheat, of fers to soll being made at 85@89 cents, with bids at 54 cents.

Receipts for the day were two cars of wheat and one car each of oats and barley

Speculative Liquidation in the New York Market.

IT CHECKS THE ADVANCE

But Profit Taking Is Conducted Cautiously and Effect on Prices Is Light-Granger Group

Is Strong.

NEW YORK, July 9.—It was plainly to be seen that speculative liquidation was in pro-gress in today's stock market to secure profits accrued on the considerable advance which has occurred in prices since last week. The effect of this in itself was depreasing to

day and were less speciacular in the demonstration, and so had less sentimental influence. The outside buying orders attracted by yesterday's strong showing were taken advantage of to gupply stocks in profit-taking sales, and this kind of selling recurred pretty regularly at all favorable opportunities.

The seeming change in the temper of the speculation was not based on any new developments affecting general conditions, unless it were the suggestion current at one time that preconceived notions of the action to be taken by the Democratic convention at Denver might be upset.

The reactionary tendency of the United States steel stocks, after a brilliam display of strength, was a marked restraining influence on any upward tendency elsewhere. There was obvious profit-taking going on in Union Pacific with powerful zentimental effect on the whole list, which this stock has come to have.

Another rise in the London price of copper helped the copper stocks. A center of strength was the Northwestern granger group, induced by reports of the brilliam Spring wheat prospects. This revived old rumors of an intended extra disbursement on Northern Pacific stock.

The day's profit-taking was conducted cautiously and without serious inroads on prices at any time. Whatever declines were involved were made up before the end of the day with the growing strength of the sustaining stocks in the dealings.

Prices Quoted Locally on Cattle, Sheep and Hogs.

The livestock market feels the effect of the warm weather and trading is not as brisk as it will be when a lower temperature prevails, but receipts at the present time are not excessive and prices generally hold very steady. Arrivals of sheep yesterday were larger than any other day this week, but the quality of the offerings was satisfactory and the demand for them was good. Receipts for the day were 800 sheep, 307 cattle and 55 hogs.

The following prices were current on livestock in the local market resterday:

Firm cables and light receipts in the Northwest, good demand for cash wheat both in the Northwest and Southwest, and reports of improvement in the expert inquiry at the seaboard, were the chief bullish factors. There was a little reaction on profit-taking, but the market closed strong. September opened 4.9 % lower to a shade higher at \$54.9 % \$54.0 lower to a shade higher at \$54.9 % \$54.0 each off to \$54.0 and then advanced to 30%. The close was up 14.8 I % at 30c.

Rapid development of the new crop, owing to favorable weather conditions, caused weakness in the corn market. September closed % lower at 71%.

Oats were weak throughout the session. September closed at 30%, a loss of 1c. Provisions were firm all day, because of active demand by local packers. At the close, September perk was up 12%c, lard was 2% % to higher and ribs were 7%c higher. CHICAGO, July 9.—The wheat market KANSAS CITY, Mo., July R.—Cattle—Receipts, 4000; market, steady. and Grammar Schools. That he was never paid for doors, windows and mill work furnished for That he was never paid for doors, windows and mill work furnished for the East Portland High School, the Portsmouth school, and the Arleta school is the assertion of Frank Schmitt in a sult filed yesterday in the Circuit Court. Frank Schmitt & Company seeks to recover \$2496.94 from M.E. Freeman. To secure the payment of this sum, should the case be decided in Schmitt's favor, the Sheriff yesterday served attachments on the Hibernia Savings Bank and School district No. 1, which owe Freeman money. The aggregate value of the materials furnished by Schmitt to Freeman was \$25,496.94, including those delivered for use on a building at Fourteenth and Tillamook streets. It is alleged that only \$23,000 of this bill has been paid.

The first lot of lumber for the East Portland High School was delivered by Schmitt, he says, in March, 1906, the contract calling for payment of \$5500. Extra material was delivered between that time and February, 1908, to the value of \$55131. The mill work

between that time and February, 1908, to the value of \$851.31. The mill work

for the second and third stories, de-livered in January, 1907, was worth \$8000. The mill work for the Portsmouth school, delivered in March, 1907, is said to have been worth \$2301, and for the Arleta school, \$7792.

As the wagon drove away, Mrs. Dautoff ran out of the store by a side entrance and tried to stop it by holding one of the wheels. Seeing that this did not avail, she sprinted after Bulger, who was afoot. He succeeded in escaping, and had his wounds dressed at a nearby drugstore.

WOMAN FACES OLD SENTENCE

Mrs. De Cico Returns to Portland Despite Court's Order.

Sentenced three years ago to spend a year in the Multnoman County Jall or to leave the state, because she beat her husband over the head with a bar of iron, Mrs. Rosa De Cleo is back in Portland. After sentence was passed on her she went to Tacoma. She made application to Judge Gantenbein, of the Juvenile Court, yesterday morning, to have her children taken away from her husband, Tony De Cico, and given to her. She informed the court officials

her. She informed the court officials that he was compelling the youngsters to work too hard.

Upon investigation Probation Officer Hadley found that one of the boys is employed by Glebisch & Joplin as a water-carrier at \$1 a day. As many children have hander work than this to do, Mr. Hadley did not think that the facts warranted a change of the custody of the children. Mrs. De Cico once of the children.
