## \$3.75 Lingerie Waists, \$1.29

This bargain comes to Portland women because of the enviable position this store holds in the mercantile world. A New York maker, famous for the quality of his waists, had a large surplus stock—wanted to dispose of them quickly—sought a large buyer with ready cash—came to us. We knew our public, knew the enthusiasm it was possible to create by the announcement of such a sale as this. We took all he had. Today second day of sale. Fresher, more delightfully dainty and attractive waists than these it is impossible to imagine. They are made of white lawn, trimmed with lace and embroidery; an endless variety of models and regularly worth to \$3.75 each. The sale is bound to be tremendous today, so we advise early choosing. Ample assortment of sizes. Your choice at \$1.29

## TRAINS MEET HEAD ON

### SEVEN KILLED IN DISASTROUS CANADIAN COLLISION.

Three Cars Telescoped and Engine Is Reduced to Scrap Iron on Railroad Near Medicine Hat.

MEDICINE HAT, Sask., July 10.—Seven men were killed and four seriously injured in a head-on collision at a crossing a mile east of this city yesterday between a Spokane Flyer engine on its way to Coleridge and a Crow's Nest passenger train. The dead: James Nicholson, engineer. Robert Tweedie, engineer. Philip Millet, conductor. W. J. Archambault, baggage man. Howard Gray, fireman, all of Medicine Hat. James Gray, Duncah McEachern, of Bow Island. The injured: Samuel Abdus, Lethbridge, leg broken. Harry Thompson, Medicine Hat, hand crushed. The Crow's Nest train was on its way to this city when the Flyer engine, with Engineer James Nicholson, pulled out of the local yard with orders to

## MURDER, NOT ACCIDENT

### USOVO COAL-MINE HORROR DUE TO IGNORANCE.

Coroner's Inquest Reveals Archaic Methods of Working Coal-beries in Russia. USOVO, Russia, July 10.—An inquest into the fatal coal mine explosion of last week has revealed a terrible picture of the archaic methods of mining in Russia and the utter absence of inspection. It has been a matter of common knowledge for years past. The Rittovsky mine was dangerous. The workmen named it "The Inferno" because of the prevalence of stifling gas in the workings, and they would only consent to go down for double wages. The explosion itself was not of great force and a majority of 300 men who lost their lives were burned to death or suffocated by afterdamp. It would have been possible to save all but about a dozen below if prompt measures had been taken, as fully one hour elapsed after the explosion before the flames broke out. During this hour the rescuing party waited with folded hands for information as to how and where they were to descend. Immediately after the explosion the

## ONLY 25-KNOT STEAMER

### Lusitania Cuts Down Westbound Record on Atlantic.

NEW YORK, July 10.—Breaking all previous records over the long-distance course across the Atlantic, of 281 miles, the swift turbine, Lusitania, arrived at Sandy Hook lightship today at 2:11 A. M., the time of passage being 4 days, 19 hours and 36 minutes. The Lusitania left Daunt's Rock July 5, at 11:35 A. M.; her average speed throughout the trip being 25.0 knots an hour, which eclipses her previous day's average of 24.88 for the trip. The Lusitania on this trip also distanced the record of her sister ship, the Mauretania, by 26 minutes, the latter's record over the long course being 4 days, 20 hours and 15 minutes. The best day's run, on Monday, July 6, was 84 knots, beating the previous record by two knots. Thus far the Lusitania becomes the only 25-knot steamer.

## RAIL RATES MUST GO UP

### President Ripley, of Santa Fe, Says Wages Cannot Be Cut.

NEW YORK, July 10.—That the railroads of the United States could not lower the wages of their employes without bringing on a strike which would paralyze the country for months and that an increase in freight rates by the railroads in the West, as well as in the East cannot be avoided if they are to meet the demands upon them, is the view expressed by E. P. Ripley, president of the Atchison, Topeka and Santa Fe Railroad. To this Mr. Ripley added that most of the railroads of the country are imitations of railroads, a sentiment which has great interest, coming as it does from the head of one of the foremost railroads of the country. "Public sentiment toward the railroads, generally speaking," President Ripley said, "has not undergone any change for the better. Here and there some are found who express the view that public feeling has gone too far, but nothing tangible in the way of improved public sentiment has developed, nothing which might lead to the repeal of some laws affecting the railroads adversely. The railroads in the West have been considering the question of an increase in freight rates. I am in thorough accord in this matter with the position taken by W. C. Brown, of the New York Central, that wages will have to come down or rates be increased. But the wages

## of railroad employes could not be reduced without bringing on a strike which would paralyze the country for months. The only thing left seems to be to increase the rates.

"The fact is that with few exceptions the railroads in this country are merely imitations of railroads. They are skimpily built and have all kinds of money to spend for the protection of life and property and to handle the business entrusted to them as the public demands it shall be handled. For this new capital must be raised, and the only thing for those who use the railroads to do is to pay for all this or give up the use of the railroads. The consumer must pay the cost. An increase in net income to provide for this new capital is essential."

## Bodies of Everett and Wakeley.

### MANILA, July 10.—A telegram from Negros says Lieutenant Ahern is on his way to Manila with the bodies of H. D. Everett, a former Government forester, and T. R. Wakeley, formerly a school teacher, who were killed by hill tribesmen on June 24. No details have yet been received.

Small Ordered to Investigate. WASHINGTON, July 10.—American Consul Ernest L. Small, at Smyrna, Turkey, has been instructed by the State Department to investigate the report that 300 American citizens have been seized on the island of Nicaria and made prisoners by a Turkish warship. Mr. Adze took the initiative on the basis of the

## newspaper reports, no official information having reached the department.

### Rosenthal's windows are money-savers.

## Catarrh

Is a constitutional disease originating in impure blood and requiring constitutional treatment acting through and purifying the blood for its radical and permanent cure. The greatest constitutional remedy is Hood's Sarsaparilla. In usual liquid form or in chocolate tablets known as Sarsatabs. 100 doses \$1. Nasal and other local forms of catarrh are relieved by Catarrhlets which allay inflammation and deodorize discharge. 50c.
