# REPORTSSHOCKING TOILETCONDITIONS

Oregon State Congress of Mothers Denounces Sanitation.

#### FULTON SCHOOL IS WORST

Committee Finds Railroad Laborers Using Toilet Facilities and Says That Condtions Are Indescribable.

## SHOCKING SITUATION IN THE

SCHOOLS OF PORTLAND. Oregon State Congress of Mothers, in a written report to the Board of Education declares that a startling condition exists in the public school buildings regarding sanitation. They charge weeful lack of care of tollets, and general neglect of physical welfare of pupils in some of the build-

system of plumbing, attacks the lack of proper ventilation and lights and recommends new and modern plumbine and the exaction of greater care school buildings, looking toward physical upbuilding of the

In the Fulton Park School building the report declares, a gang of railroad laborers was allowed the use of the toilet, and the most startitng and shocking conditions were

In a lengthy written report, filed with the Board of Education yesterday after-noon, the Oregon State Congress of Mothers denounces what it terms the frightful conditions existing in many of the public school buildings regarding san-tiation and the worful lack of attention to the ordinary physical welfare of the children. The report was read by Mrs. children. The report was read by Mrs. Elimer B. Colwell, president of the Congress. It covered the investigations and personal inspections made by the members of the organization, and its contents are stortling.

are startling. The most serious charges are made as to the condition of tollets in the school buildings and the lack of proper care of the system as it stands. The sensational statement is made that the tollets in the Fulton Park School were used by men from the grading camp, located near

men from the grading camp, located near there, and on this point the report is most scathing in its denunciation of the conditions found in that building.

Bad conditions prevail, according to the report, in many of the buildings, and the Board of Education is urgently asked to install a new system of plumbing, and to exact greater care of the sanitation feature of the schools. No action was taken on the report, but the members of the Board listened with rapt attention as Mrs. Coldwell read it. The report was filed, and will probably form the basis for one of the most searching investigations ever ordered by the Board. It will receive consideration at the next meeting. The report follows:

Report of Congress.

## Report of Congress.

To the Honorable Beard of Education— The Oregon State Congress of Mothers begs to submit the following communication for your consideration. your consideration:

During the past Winter, members of the Congress have been visiting the schools of the city. While we find much in them to commend, we feel that special comphasis should be placed on the need in many of the buildings for better plumbing, and we mention in this connection the following schools:

schools: FULTON PARK—Tollets positively in-decent at the time of our visit, were being used by workmen amployed on the electric road, then in process of construction. We referred this matter to the construction referred this matter to the construction company and as we were assured that the work at the point was ended, we carried the complaint no farther, and mention it only at this time to amphasize the condition in which we found them. They were without windows or doors, and although we were told that lime was used once a mouth, the whole condition was so shocking that nothing but condemnation can be expressed. We found the water used by the pupils is from a well and amelled very badly. Other Schools Neglected.

TERWILLIGER SCHOOL—Toilets have no doors and are flushed but twice a day. The play space for the children here is not adequate nor in good condition. AINSWORTH SCHOOL—Also in bad condition as regards its sanitation. The tollet arrangements are that and poorly kept; insufficiently flushed.

DAVIS SCHOOL-Dirty and ill kept as

bayes school-brig and in sept as to hasement. The closers were not clean nor flushed often enough.
WILLIAMS AVENUE SCHOOL-As we were informed that the Board had under consideration the erection of a new building we attach no criticism in this report, other than to hope that the new building will not be delayed.
GLENCOE SCHOOL-Almost as poorly enoughped as the Fulton School. We have will not be delayed.

GLENCOE SCHOOL—Almost as poorly
equipped as the Fulton School. We have
no words that can convey our opinion as to

these two schools.
CLINTON KELLY SCHOOL—We found evidence of carelessness on the part of the janitor. Although it was 4:30 in the afternoon the tollets had not been flushed.

Falling School Overcrowded. Failing School Overcrowded.

FAILING SCHOOL—Toilet facilities in retched condition; school overcrowded; we build classes reciting in the halls and overcow grades conducted in a separate building poorly ventilated, with toilet equipment and surroundings unsanitary. We just to emphasize the situation at this chool, contrasting it with that of the Holman School in the adjoining district with our empty rooms closed through lack of upils, although many could just as easily ave gone to the Holman as to the Failing four empty rooms, cases through tax easily pupils, although many could just as easily have gone to the Holman as to the Falling School. We contess that this policy is not readily understood, nor can it be commended from the standpoint of the parent and the taxpayer. In this connection, we respectfully patition the Board to divide the districts so that the children can be more computably cared, for heat term.

SHATTUCK SCHOOL—Tollet facilities inadequate and not well cared for We realize that the two last-named schools are old, but we feel that the health of our children demands vigorous criticisms.

Maker Some Recommendations.

Makes Some Recommendations. Makes some Recommendations.

This list of schools is of those where we found particularly had conditions. We appreciate the expense which a new system of piumbing would involve hut we insist again that the health of our children should be considered as of more importance than any expenditure necessary to maintain a high standard.

We wish to emphasize particularly our protest against the tube system of folicis. Properly conducted it may be sanitary, but operated as it is in the schools with dushing so seldom during the day, it can be

properly conducted, it may be sanitary, but operated as it is in the schools with flushing so seldom during the day, it can be neither sanitary nor wholesome.

We desire also to refer to the absence of doors to the toilets while there may be good reasons for this custam, it does not appeal to us as one conductive to habits of medesty.

We wish to porcest most vigorously against the basement tellet and petition your honorable body to adopt the system in vogue in other cities, of piacing the plumbing fixtures in a one-story structure directly connected with the main building and accessible from yard or hasement. We would also petition for individual toilets with automatic seat-operating attachments. We believe that any economy in this direction or in the water supply is a false economy and one that is sure to react on the health of our children.

end to remove the toilets from the basements to the outside of the buildings, especially since the basements are used as play rooms and tunch rooms by the children.

We found in several of the schools, black window curtains and are at a loss to understand the special value of this color in a window shade, especially during the dark days of Winter. We respectfully recommend a change in this respect.

We desire to express our appreciation of the uniform courtesy with which we were received by the teachers and janitors alike. Trusting that this communication will be received in the spirit in which it is presented, a sincer desire for such improvement as may tend to raise not only the standard of our school architecture, we are yours most respectfully.

MRS. E. B. COLWELL,

MRS. R. L. DONALD,

MRS. WALLACE M'CAMANT.

Favor Automatic Sprinkler.

Favor Automatic Sprinkler.

The matter of installing an automatic sprinkling system in the Ladd School was discussed, and Mr. Campbell, to whose committee the item was referred for reccommendation, reported in favor of the installation. He stated that it would cost approximately \$200, and that a big reduction in insurance rates would be granted if it is done. In five years, it was said. the system would pay for its cost, aside from the protection afforded. No definite action was taken, but further considera-

action was taken, but further considera-tion will be had.

A committee, consisting of H. Witten-berg, chairman of the Board of Educa-tion; Mrs. L. W. Sitton, a director, and City Superintendent Rigler, was named to draft resolutions on the death of Pro-fessor Pratt, and the members of the Board will attend the funeral in a body.

#### HAWAII KEEPS OPEN HOUSE Island Capital to Overwhelm Fleet

With Hospitality.

HONOLULU, July 13. — Honolulu has completed all arrangements for the en-tertainment of the Atlantic battleship fleet. The entire community, regardless of race, has heartily united to extend a cordial welcome to officers and men and provide them with entertainment. By universal consent July 15, the day on which the fleet is scheduled to arrive. while he made a complete holiday, and all business will be suspended. Thousands of persons from all parts of the territory will assemble on Diamond Head and along the other heights and points of vantage southeast of Honolulu to witness the spectacle of the approaching men-of-war.

The fleet will proceed past the leper settlement on the island of Molokal on the way to this port, in order to give the lepers an opportunity to view the ships. From then on for the last 20 miles of its journey the whole fleet will be visible to the multitudes lining the heights.

the multitudes lining the heights.
With the appearance of the fleet itself
Honolulu will let loose its enthusiasm
in a magnificent bombardment and daylight fireworks which have been specially
prepared by the Japanese residents at great expense.

Daylight fireworks will also play a

large part in the festivities.

The entertainment committee has scheduled excursions to all places of interest, and the men of the fleet will be overwhelmed with opportunities to see the islands during their stay. There will be trips to Pearl Harbor and to the sugar plantations and pineapple regions of Muami and Pali and to all other

points of scenic interest.

The owners of automobiles have hastened to place their cars at the committee's disposal and practically every machine on the island will be in use.

chine on the island will be in use.

Large plans for baseball games, football, polo, boxing and wrestling matches have been made and in addition to these there will be many forms of entertainment of a purely Hawalian character. Among these will be a grand ball at Waikiki Beach; fishing and chowder parties at Pearl Harbor for the officers and a feast of cocoanuts, fruits and other island delicacles for the men.

For several days the use of the streetcars and trains will be free to the men.

cars and trains will be free to the men of the fleet and the committee has pro-vided rest houses and comfort stations about the city. Scores of private resi-dences will also keep open house for the sallors. There will be dinners and garden parties by the score.

## DAILY METEOROLOGICAL REPORT.

WEATHER CONDITIONS.

The barometer is relatively low over the inter-mountain States and in consequence showery conditions prevail nearly everywhere on the Pacific Slope, except in California, where fair weather continues. At Baker City 1.04 isches of rain fell, which was the heaviest rainfall reported. The showers, however, were general throughout the Inland Empire and when the last reports were telegraphed the indications were favorable for more rain in nearly all localities. It is much cooler in Oregon, Washington, Idahn and Northern Idaho and slightly cooler elsewhere west of the Rocky Mountains.

FORECASTS. WEATHER CONDITIONS.

FORECASTS. For the 28 hours ending midnight, July 14: Portland and vicinity-Showers and continued cool; winds mostly westerly.

Oregon—Showers; continued cool; easterly

Washington-Showers; cooler, except near the coust; westerly winds.

Idaho—Showers and thunder storms; cooler,

## NEW TODAY. North Beach 32 Acres \$100 per Acre

This is one of the prettiest pieces of acre-age on the whole beach. Fine ocean front-age, with beautiful growth of trees. Rail-road intersects property. Haif a dozen persons can each have a fine frontage, with several lots, and enough property will be left to pay full cost three or four times over. Phone owner (Main 585) or call 14d Second 8t.

# 30% Less Than Actual Value

315 acres right on the Willamette, between Portland and Salem. No finer farm in Oregon. See us today.
