TWO GOLD MEDALS GO TO AMERICANS

Athletes From United States First in Shot-Put and Discus-Throw.

LEADERS IN FIELD EVENTS

Score to Date in These Contests 31, With United Kingdom 20, Sweden 5 and Greece 3—English Count in Different Manner.

WINNERS OF THE DAY'S EVENTS.

Shot putting contest—Ralph Rose, San Francisco Olympic Club, distance 46 feet, 7½ inches.

Discus throw—M. J. Sheridan, Irish-American Athletic Club, New York, distance, 134 feet, 2 inches.

Swimming, 400 meters—H. Taylor, United Kingdom, time 5:36½.

LONDON, July 16.—This was America's day in the Olympic sports at the Stadium, both big events which reached the finals, throwing the discus, free style, and putting the shot, being carried off by Martin J. Sheridan, of the Irish-American Athletic Club, and Ralph R. Rose, of the Olympic Club, San Francisco, respectively. The United Kingdom captured the third final, the 400 meters swimming event, in which H. Taylor added to the score of his country by beating Beaurepaire, the Australian crack, and Scheff, of Austria.

The final also was reached in the 1000-meter cycle race, but this proved such a fiasco through the efforts of Chilles, of France, and Jones, Kingsbury and Johnson, of England, to force each other to make the pace, that the judges declared the event off, it not being finished within the time limit.

Italy got her first gold medal today in the team gymnastic competition receiving the greatest number of points against a great array of competitors.

Ignores Seconds and Thirds.

This system of awards one point for each winner, ignoring seconds and thirds and includes all sports carried out under the auspices of the association whether within the stadium or outside of it. Following this method of counting points, the countries would be placed in this order:

United Kingdom, 20; United States, 8; Sweden, 3; Norway, 2, and Canada, France, Belgium and Italy 1 each. The United Kingdom's 20 points, according to this computation are made up as follows: Men's doubles and singles and ladies' singles in both the lawn tennis and covered court tennis competitions; pole competition; singles and doubles at racquets; individual rifle competition individual miniature rifle competition at disappearing targets; team and individual competitions; miniature rifles at ordinary targets; team competition at clay birds and the following wins in the stadium: 300-meter walk; 20-kilometer cycle race; three-mile team race; 660-yard cycle race, and 400-meter swim.

Score of United States.

The United States score is made up of the following wins:

Rifle team competition; revolver competition; individual double shot at running deer; J. Gould's victory in court tennis competition; throwing the hammer; 1500 meters flat race; throwing the discus and putting the weight.

The Swedish points were scored by wins in the team and individual shooting competitions at running deer and throwing the javelin; Norway, the team and individual rifle shooting at 300 meters; Canada, the individual competition at clay birds; France, the 2000-kilometers tandem cycle race; Belgium, the individual revolver competition, and Italy, team gymnastic competition.

As the Summer section of the games will continue until October 19 and will include yachting, the Olympic regatta and figure skating, and as there will be a Winter section, to include Rugby and association football, hockey, lacrosse and boxing, it will be the end of the year before the trophy for the championship in all sports can be awarded. If this method of counting points is admitted by the British Olympic Association, England will win the trophy, for there are few countries taking part in these sports outside the Stadium.

American Count Differently.

The American athletic team, which is devoting its attention to the events within the Stadium, however, is not accepting this interpretation. James E. Sullivan, president of the Amateur Athletic Union, and United States commissioner to the Olympic games, said to the Associated Press tonight:

"We came here as we went to Paris and Athens, with a field team, making a fight in the field events and caring nothing for the other sports. We asked that the championship trophy be put up for the field sports, separately, but this request was not acted on so we will simply take the score in the field events, counting first, five points; second, three points, and third, one point, and figure out the American score on this basis.

As Americans See It.

Under the American system the score as it stands tonight is as follows:

America, throwing the hammer, 8; team race, 3; discus, 9; putting the shot, 6; 1500-meter race, 5. Total 31.

United Kingdom, team race, 5; putting the shot, 3; 1500-meter race, 4; 300-meter walk, 8. Total, 20.

Sweden, 5; Greece, 3; Canada, 1; Australia, 1; Norway, 1.

Commissioner Sullivan has received a reply to the letter which he sent to Lord Desborough, chairman of the British Olympic Association, protesting against certain of the rules governing the contests, and referring to other matters in connection with the games. In his reply Lord Desborough opens with an apology to the Americans for the failure to use a single American flag in the decoration of the stadium on the opening day. The omission to do so, he says, has since been remedied. He then takes up the complaint of the Americans regarding the conduct of the sports.

No Hole in Pole Vault.

The question of the pole vault was referred to the Amateur Athletic Association, which decided not allow the Americans to dig a hole for the pole, but acceded to the request to have pits filled with sand for landing on.

With regard to the question of heat drawings, Lord Desborough pointed out in his letter that the drawing had already been made in the various heats and could not be altered, although this had not been asked for. The Athletic Association, he said, had invited the American committee to have a man in the arena during the progress of events in which America was interested and Mr. Halpin, the American manager, had been appointed to that position.

After reading Lord Desborough's letters, Commissioner Sullivan replied that if the drawings were already made the Americans would like to see them before the day on which the events were to be contested, a privilege which heretofore had not been accorded.

Several Preliminary Events.

In addition to the discus-throwing, the weight-putting, the 400-meter swim and the 1000-meter cycle race, a number of preliminaries in other events were pulled off today. These included the second heat of the 100-kilometer cycle race, two heats of the 10-mile walk, two heats in the second round of the 200-meter breast-stroke swim, the fifth heat of the fancy diving, in which H. C. Grote, of the Missouri Athletic Club, got second, and seven heats of the 100-meter back-stroke swimming, in which A. M. Goessling, of the Missouri Athletic Club, the only American entered, was beaten in the sixth heat.

It was cold all day, the rain falling heavily from early morning until after the last event had been decided. The competitors and officials who had to be in the field were dripping with water all day long and the whole scene was about as cheerless as could be imagined.

All Stands Are Deserted.

The stands and course were deserted and later in the afternoon the running track resembled a canal. Fortunately there were no running races on the programme. All the gymnastic displays, which were the features of the previous days, had to be put off, and even the band did not make its appearance to help dispel the gloom.

No official announcement is obtainable as to how the British Association is going to decide the Olympic championship, but the system adopted by the London sporting papers in arriving at the respective positions of the various contests has been generally accepted.

Following are today's results:

Shot putting, final—Ralph Rose, Olympic Club, San Francisco, won; Horgan, United Kingdom, second; Garrells, Chicago A. A. C., third. Distance, 46 feet, 7½ inches.

Swimming, 400 meters, final—Taylor, United Kingdom, won; Beaurepaire, Australia, second; Scheff, Austria, third. Time, 5 minutes, 36½ seconds.

Discus throw, final—M. J. Sheridan, Irish-American A. C., New York, first; Griffin, Chicago A. A., second; Horr, Irish-American A. C., third. Distance, 134 feet, 2 inches.

GRAFTER LOSES HIS JOB

Timekeeper at Seattle Exposition Grounds Found Out.

SEATTLE, Wash., July 16.—(Special.)—John Heal, captain of the guards and timekeeper at the Alaska-Yukon-Pacific Exposition grounds, has been discharged on a charge of grafting. Frank P. Allen, director of works, says he intended to swear out a warrant for Heal's arrest, but Heal cannot be found, and is believed to have left town. The specific charge is that Heal turned in time for a man who had quit work and receipted for the man's money. The man afterward came to the office for his money, saying that Heal denied having it. This resulted in an investigation, which is still in progress.

The amount which the exposition is out is only $23.25, but after it became known that Heal had been discharged, workmen appeared at Allen's office, complaining that they had been forced to pay various sums to Heal, from $2 to $4 each, in order to get jobs.

Heal said the specific cause for which he was discharged was a clerical mistake, and promised to come around Monday and straighten it out. He did not appear.

BEGIN RIFLE PRACTICE

Companies E and H Go Into Camp Near Salem.

SALEM, Or., July 16.—(Special.)—Rifle teams of Companys E and H of Portland, arrived in Salem today to engage in practice shooting in preparation for the annual National Guard rifle meet which will begin in this city next Monday. These teams are the first to arrive, but more are expcted on every train until all the 23 teams in the state shall have come. Each team consists of five men.

For the accommodation of this large number of Guardsmen a village of tents has been erected near the rifle range across the river from Salem, in Polk County. There the men will live for about a week, while competing for the medals and trophies which have been offered as rewards for superiority in the use of the rifle and the revolver.

While here the Guardsmen will be under the usual military discipline. Mess tents have been provided and the camp has all the features and accompaniments of a National Guard encampment.

TRIBUTE TO MEEK'S WORK

Hillsboro to Ask Legislature for Fund for Suitable Monument.

HILLSBORO, Or., July 16.—(Special.)—A movement is on foot in this county to memorialize the State of Oregon at the next meeting of the Legislature to have an appropriation passed for the purpose of erecting a fitting public monument over the grave of the late Colonel J. L. Meek, whose energy and decisive action at Champoeg saved Oregon to American territory. The remains of the redoubtable pioneer and trapper repose in the Scotch churchyard on the Tualatin Plains, five miles north of this city. Meek settled here in 1841, and was Oregon's first United States Marshal. S. A. D. Meek, a son of the deceased, was elected to the Legislature at the June election.

Escapes by Jumping Out Window.

GALICE, Or., July 16.—(Special.)—Later developments regarding the attack on Emma G. Robinson, the Portland schoolteacher, who owns a mining claim near here, are that a masked man appeared at the woman's home about 9 o'clock one night and leveled a loaded revolver at the woman's head. Warding off her assailant, the woman escaped through a window. Miss Robinson believes robbery was not the stranger's motive. The police believe it was an effort to frighten her.

Gathering Witnesses in Roseburg.

ROSEBURG, Or., July 16.—(Special.)—More Roseburg people will go to Portland as witnesses in the Booth-Singleton trial. Deputy United States Marshal W. B. Griffith is in Roseburg with a number of subpenas which he will serve immediately.

ONE HOUR EARLIER

For the Potter's Saturday Trip to North Beach.

The steamer Potter will leave Portland, Ash-street dock, at 1:00 P. M. on Saturday next, July 18, and on succeeding Saturdays throughout the season, instead of 2:00 P. M., as originally arranged in the published schedules, thus giving passengers the benefit of the entire river trip by daylight, and landing them at the beach one hour earlier. Don't forget that baggage should reach the dock at least a half-hour before departure.

BATTLESHIPS IN HONOLULU HARBOR

Great Cosmopolitan Crowd Gives Atlantic Fleet a Warm Welcome.

ALL CARRY OLD GLORY

Every Nation of Europe and Orient and All States of Union Represented in Assemblage—City in Its Gala Garb.

HONOLULU, July 16.—The Atlantic battleship fleet arrived here at noon today, completing another long leg in its world cruise. Magnificent beyond anything ever seen in these waters was the arrival, as one powerful vessel after another rose out of the Eastern horizon and came in the range of vision of the thousands of spectators from the whole Hawaiian group of islands, who thronged Diamond Head and adjoining heights that stretch beyond Waikiki eastward from Honolulu to the extremity of the Island of Oahu.

The day opened cloudy and threatening rain, but by 9:39 o'clock, when the lookout on Diamond Head, through his telescope, first descried the smoke of the Connecticut, the southern half of the sky was clear and only fleeting clouds obscured the northern half. Early the city was astir, and the pilgrimage to Diamond Head and other points of vantage began, with streetcars jammed, automobiles and gaily-decked carriages crowded with eager people. Many rode on horseback, while others hastened on board excursion craft in the bay.

Crowd Is Cosmopolitan.

Upon the first notification of the sighting of the fleet, the excursion steamers hurried out of the harbor, and as the fleet rounded Diamond Head and came into view of the city, its approach was beheld from roof and tall buildings by a great cosmopolitan crowd, men, women and children of all the races and nations that go to make up Honolulu's population—Japanese, Chinese, Coreans, Hindus, Hawaiians, Portuguese, Spaniards, Porto Ricans, Filipinos and people from every European country and every state in the Union.

Nearly all carried American flags, and from the housetops of the city floated, besides the Stars and Stripes, flags of almost every nation, Chinese and Japanese flags predominating.

The formation of the fleet began to be distinguished when it was about 15 miles distant, and as it ploughed its course along the southern coast of the island, it furnished a magnificent spectacle, the vessels moving slowly in perfect column. A wind fresh from the northeast blew the smoke of the vessels off the port bow.

Reach Harbor at Noon.

Just at noon the Connecticut hove to at the outer entrance of the channel and the other vessels took position. The Illinois, Kearsarge and Kentucky anchored westward of the channel entrance; the Georgia, Nebraska, New Jersey and Rhode Island to the eastward. At 12:30 the Connecticut slowly entered the channel surrounded by a Japanese fishing fleet, firing daylight fireworks of many and curious designs.

When the Connecticut was about to enter the harbor she was greeted by a salute from the naval station. The Wisconsin, Minnesota and Vermont followed after the Connecticut.

Immense crowds covered the wharves and the most intense interest and patriotism was displayed, finding expression in cheers and the discharging of daylight fireworks. This afternoon Rear Admiral Sperry and Governor Frear exchanged official visits.

After passing Molokai the third division, composed of the Louisiana, Virginia, Ohio and Missouri proceeded to La Haina on the Island of Maui for coal.

Voyage Was Uneventful.

During the entire run to Honolulu the fleet experienced pleasant weather and smooth seas. For two hours or more daily except on Sunday the fleet had tactical evolutions and at the same time routine drills were carried on. No noteworthy incidents occurred on the entire voyage and as a matter of fact this, the first leg of a long cruise, was rather more uneventful than is usual.

The fleet never had to stop or slow down nor did any of the ships have to fall out of formation through accidents to machinery or steering gear. The health of the crews has been very good and there have been no deaths or serious accidents since leaving San Francisco.

The Nebraska which was left behind when the fleet sailed from the Golden Gate on account of scarlet fever cases among her crew overtook the fleet at 6:30 A. M. yesterday. The third division which went to La Haina for coal will come to Honolulu July 19 and rejoin the other members of the fleet.

City in Gala Garb.

Tonight the city dressed in bunting is illuminated with thousands of incandescents and the streets are filled with a holiday crowd. Out in the harbor searchlights are flashing and the ships are outlined in light, their masts, huge electric crosses against the sky.

Socialists Bewail Expense.

WELLINGTON, N. Z., July 16.—The Socialists in Auckland are threatening a demonstration of the unemployed as a protest against the public expenditures incidental to the reception of the fleet. In the House of Assembly, Mr. Malcolm, one of the members, declared that there was the danger that the visit of the American fleet may cause the colonists to place dependence upon the United States rather than on the mother land. He therefore regretted that the invitation had been given.

Gunboats to Go East.

WASHINGTON, July 16.—Acting Secretary of the Navy Newberry has announced that the gunboats Princeton and Vicksburg, now at Bremerton and Mare Island, respectively on the Pacific Coast, will be brought to the Atlantic Coast in a short time. Both vessels are now out of commission. They will be fitted for the voyage and advantage will be taken of suitable weather conditions to make the trip. They will be used for coast defense on the Atlantic.

Melbourne Will Be Hospitable.

MELBOURNE, Australia, July 16.—The official programme of the festivities to welcome the American battleship fleet at Melbourne provides for daily entertainment and includes dinners by Governor Carmichael, of Victoria, and by the Commonwealth government and a reception to the Admirals and officers by the State government.

DAILY METEROLOGICAL REPORT.

WEATHER CONDITIONS.

A high pressure area of considerable strength overlies the North Pacific States and in consequence the weather has cleared nearly everywhere on the Pacific Slope, and the rains have ceased. Since yesterday the temperature has risen in Oregon and Washington and fallen in Idaho.

The indications are for fair and warmer weather in this district Friday and Saturday.

FORECASTS.

Portland and vicinity—Friday fair and warmer; northwest to northeast winds.

Oregon and Washington—Friday fair, warmer, except near the coast; northerly winds.

Idaho—Friday fair and warmer.

BLOODLESS PEOPLE

Hundreds Are Suffering from Anaemia and Don't Know It.

The Disease Approaches Stealthily, the Decline in Health is Gradual and Unless the Tonic Treatment is Taken May End Fatally.

Nothing in medical science is more direct and more reasonably certain than the action of Dr. Williams' Pink Pills in cases of anaemia, a disease which is literally a condition approaching bloodlessness and which if neglected, inevitably results in decline and death. Anaemia is stealthy in approaching its victim and often is well advanced before it is detected. On this account it is necessary to begin treatment as soon as the first symptoms are noted.

Mrs. Elizabeth Barnett, of 505 Ashland avenue, Buffalo, N. Y., was cured by these pills. She says:

"During the spring of three years ago I began to suffer with anaemia. I was overworked and did not rest nor derive nourishment from my food. Everything I ate felt heavy in my stomach, gas formed on it and I had no appetite. My hands and feet were cold, I was troubled with dizzy spells and my lips and cheeks turned white. I had severe backaches at times and it was hard work for me to bend or stoop over to pick up anything. My sleep was restless, my head ached a great deal and I grew quite weak.

"I was sick about a year before I began to try Dr. Williams' Pink Pills. They soon helped me and I used them until cured. My appetite became hearty, I grew strong and have since been entirely well. We consider the pills the best blood-builder and tonic medicine to be had."

Dr. Williams' Pink Pills are the greatest builder of rich, new blood and they have been curing anaemia and other blood diseases for nearly a generation, during which time they have come to be recognized as an invaluable household remedy.

A valuable booklet, "Diseases of the Blood," containing fuller information about anaemia, rheumatism and other diseases of the blood will be sent free upon request.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.
