Condor, Am. gasoline sloop (Tyler), with general cargo, for Alesha Bay.

Beginning next week, the steamship Homer will go on a regular run between Portland and San Francisco, sailing from each end of the route once in every ten days. She will carry general cargo south, as well as north, and, if business warrants, an additional steamer will be placed on the run and sailings will be set for every five days.

The placing of the Homer in the general freight business is practically the opening of opposition to the San Francisco & Portland Steamship Company. For some time past there has been a congestion of the line and the Harriman people have been compelled to charter steam schooners to handle the excess business. The owners of the Homer decided to get some of the business, and as a result the craft has been placed in the regular service and agents of the boat are out after freight. Heretofore the Homer has been carrying wheat and lumber south and general cargo north.

The Homer is a small vessel, registered at only 331 net tons' burden. She is equipped with twin screws, but is slow. She was built in Bandon, Or., in 1881 and is owned by the Portland P. F. Baumgartner is her Portland agent.

The placing of the Homer in service between Portland and San Francisco as a freight carrier will give the merchants three lines over which to ship—the San Francisco & Portland Steamship Company, the Portland & San Francisco Steamship Company and the concern operating the Homer.

**Plenty of Longshoremen, but Green Hands Do Work Slowly.**

SEATTLE, Wash., July 24.—(Special.)—The effect of the longshoremen's strike is noticeable along the waterfront, although the stevedoring companies claim they have all the men they want and there has been no violence. Every ship leaving today with freight was delayed several hours. The Paragon, for Skagway, did not clear till late this afternoon, and the same is true of the Santa Clara.

**Ames Credit Reporting Company Not Crippled by Fire.**

PORTLAND, July 24.—Concerning the article which appeared in the columns of the Friday morning's issue of The Oregonian, the Ames credit reporting company wishes to offer a correction as to the loss sustained by that company as a result of fire in their former offices, in the Abington building. The article as it read would lead the public to believe that we had lost the bulk of our records of information, which is incorrect. We wish to say that the records with the exception of being slightly charred about the edges are in practically as good shape now as they ever were, and excepting for the fact that we will be compelled to make transfer copies from the old cards to a new set, our records are complete. We wish to say further that we have just the same information as we ever had, and save for the additional expense for clerical work, etc., we are in just as good shape to do business now as we ever were.

**Daughter of Murdered Woman Will Probably Be Adopted.**

Opal Sharp, the daughter of Mrs. Dolly Sharp, who was murdered in her apartment on Third street, near Salmon, Sunday night, by David Conell, was committed to the Boys and Girls' Aid Society yesterday by Judge Green. The commitment was only temporary, however. For the last five months the little girl, a child of 2 years, has been cared for by Mr. and Mrs. Mack. They informed the court that they desired to adopt her, but if any relatives come forward they will, of course, be given precedence.

The divorce grant was small yesterday morning. Judge Bronaugh, in the Circuit Court, heard several cases, and granted decrees by default in all. Two of these went to husbands and one to wife. Sylvia L. Wood grumbled because she could not live in a mansion, have several "merry widow" hats, plenty of fine gowns, servants and an automobile, according to the testimony of her husband, Thomas Wood. He said he could not afford to furnish her anything better than apartments in a rooming-house. He is much averse to dancing. When his wife said one night she was going to a ball, he refused to accompany her, and told her that if she

**WITHYCOMBE TALKS OF OPPORTUNITIES IN OREGON.**

**Director of Experiment Station Expects Much Good to Result From Livestock Exhibition.**

"Oregon is rapidly awakening to one of the greatest of her possibilities in the way of industrial development," remarked Dr. James Withycombe, director of the Oregon Experiment Station at Corvallis, yesterday, "and that is the abundant opportunity for developing the livestock industry. We must make more of this opportunity we now have right before us," he continued, "if we are to keep pace with progress. Western Oregon affords the finest opportunity in the world for raising fine clover, alfalfa and vetch, and these products cannot be excelled as food-stuff for the raising of select stock. It is the same old story. We don't know what we have here in Oregon and we are slow to accept new doctrines of the raising of stock. But at the same time there is not a single industry I can think of or have in any way come in contact with that presents such manifold chances for extensive development as does this one industry. I am glad Portland is going to have a livestock exposition here this year. Its full meaning was presented in the columns of The Oregonian only a few days ago by W. E. Skinner, the founder of the great International Livestock Show of Chicago, and now one of the leading stockmen of Denver. He is familiar with the situation and sees perhaps a little further into the future than the most of us do. I say, with the proper arrangement, Portland will have no difficulty whatever in establishing her position as the livestock center of the Northwest, and by all means she should do so intelligently representative show each year."

**HEALTHY HAIR FOR ALL**

BY USING

**NEWBRO'S HERPICIDE**

It is now possible for everyone to have healthy and rich-looking hair by using Newbro's Herpicide, the ORIGINAL remedy that "kills the dandruff germ."

The presence of the dandruff germ in the scalp causes first, dull, brittle and lusterless hair, with later, dandruff, itching scalp and falling hair.

All of these disagreeable symptoms will disappear, and the hair grow as Nature intended, if the dandruff germ is destroyed and kept out of the scalp. Don't wait for chronic baldness, for it is incurable.

**FOR HOT WEATHER**

On account of its antiseptic and purifying action, Herpicide is an absolute necessity during the summer months. Dried sebacous matter, perspiration and other impurities thrown out by the sweat glands clog up the pores of the scalp and offer an inviting field for microbe development. Herpicide opens the pores of the scalp and keeps it clean, pure and wholesome. It relieves Prickly Heat and stops itching of the scalp almost instantly.

"I cannot speak too highly of Newbro's Herpicide; it keeps my hair and scalp in excellent condition."

**I Cure Men**

Is MY FEE in \$10 Any Uncomplicated Disorders

No other physician employs a like method and so thorough is my work that there need not be the slightest fear of a relapse into the old condition. It is not a question of whether you can be cured, but whether you will be cured. Don't wait until it is too late. My method is perfect and quick. The cure is absolutely certain. I use NO KNIFE, cause no pain and you need not be detained from your work for one day. I especially solicit those cases where money has been wasted on electric belts and other appliances.

**The Scientific Treatment of Weakness**

Dosing the system with powerful stimulants and tonics in an effort to restore functional vigor can have but one final result. The condition is rendered worse than before. Weakness is merely an indication of a low form of inflammation in the prostate gland, and this inflammation is but aggravated by stimulating remedies that excite temporary activity. I employ the only scientific and fully effective treatment for "weakness," which effects a permanent cure by restoring the prostate gland to a sound and healthy state. I obtain complete results in every case I treat.

Those in any trouble suffering from SPERMATORRHOEA, LOSS OF SEED, VARIICOCELE, HYDROCELE, BLOOD POISON or any other disease tending to destroy and disfigure add to render happiness impossible are urged to call upon me without delay.
