

MEXICANS SLAY HOSTILE INDIANS

Desperate Battle With Papagos, Who Raid Ranches in Sonora.

SURPRISED BY TROOPS

Indians Rush to Defend Village and Begin Fight—Drawn From Ambush by Ruse and Slaughtered. Flee to the Mountains.

TUCSON, Ariz., July 24.—In a desperate battle between Mexican troops and Papago Indians Tuesday at the Imaculada ranch, near Cetro Colorado mining camp, in the Altar district of Sonora, 19 Indians and two soldiers were killed and five soldiers were wounded.

The encounter resulted from an attempt to return the Indians to their reservation. The Papagos are usually peaceful, but many complaints of depredations upon ranches by this band caused the Government on two previous occasions to send troops to subdue them. The Indians fled to the mountains both times.

The present expedition under Captain Barón with 600 men, including 100 Indian warriors, was sent to the Papagos Indian village. The soldiers found no one in camp but two boys, as the rest of the population was gathering cactus fruit in the hills. The soldiers set fire to the houses and the Indians rushed to the rescue of their homes.

Seeing the troops, they took refuge behind nearby rocks and opened fire. Barón ordered the bugler to sound the retreat. The troops retired, and the Indians pursued, thinking they had routed the soldiers. The latter, however, soon halted and opened fire, killing 19 of the hostiles and wounding many.

The Indians fled, taking their wounded with them. Among the killed are Chief Dolores and his son. These two are said to have been the chief trouble-makers. The wounded soldiers were taken to Hermosillo.

The scene of the encounter is near the international line about 90 miles from Santa Ana station on the Sonora Railroad. This is the first encounter between the Papagos and troops.

SONORA WILL FIGHT YAQUIS

Mexico Leaves State to Settle With Implacable Hostiles.

TUCSON, Ariz., July 24.—It was learned from the secretary to Governor Cullias of Sonora, today that after three years of endeavor to subdue the Yaquis, the government of Mexico has turned the situation over to the Sonoran state authorities. During this period a number of Yaquis and their families were deported to Yucatan, but it is believed that the main deportations have been of peaceful Indians instead of renegades.

Cullias has formulated his plan. The most important move will be to station troops in every mining camp and pueblo in the affected districts and also enlist Yaqueros to act as guides and informants. The force of rurales will also be increased. The latter, however, are assembling of a considerable body of troops on short notice in almost any locality.

It was thought that perhaps her insanity following his death would be only temporary, but at the asylum she showed no signs of improvement. She called day and night for her husband.

Last week the strain began to tell on her, she grew weak and the physicians abandoned hope. Yesterday after faintly calling for her husband to come and take her away she sank into a sleep from which she never woke. She was 82 years old.

FIRE AT VANCOUVER

Planing-Mill and Houses Burn. Loss \$31,500.

COMPANY WILL REBUILD. Blaze Believed to Have Started From Boiler-Room—Loss to Mill Proprietors, \$25,000, With \$5000 Insurance.

VANCOUVER, Wash., July 24.—(Special.)—Fire, which started in the boiler-room of the planing mill of the Vancouver Lumber Company, in this city, shortly before 10 o'clock this morning, consumed a mill plant, a large amount of lumber, three cottages and damaged other dwellings, entailing a total loss of \$31,500.

William manager of the plant, estimates his company's loss at \$25,000, with \$5000 insurance. "We are undecided as to when we shall replace the plant," said Mr. Penney tonight. "It is not likely we shall put in so expensive a plant. However, we must have a planing mill with which to fill orders that we have on hand. Our plans will be more definite in a few days."

Four men were in the building when the fire broke out, states Mr. Penney, who believes the fire started under the partition near the boiler. The planing mill occupied almost a block bounded by Grant, Harvey, Sixth and Seventh streets. The lumber yard lies across the railway track. Three houses belonging to Mrs. Rodgers, all tenanted and situated in this block, were destroyed entirely. The loss on them is \$5000, with \$2400 insurance. Most of the furniture was carried out.
