BRYAN'S CHANCES

Best He Can Do Is to Reduce Republican Majority of 1904.

SMITH TURNS AGAINST HIM

Ex-Senator Advances Arguments to Show Bryan's Election Impossible-New Idea Men Bother Republicans.

BY LLOYD F. LONERGAN.

NEW YORK, July 18.—(Special.)—At a convention held in Brooklyn a number of years ago it looked like a nighty close fight. Just as the temporary chairman seized the gavel, an excited Republican rushed up to the veteran boss, Jacob Worth.

"Jaka the contract of the contract of the property of the veteran boss, Jacob Worth.

Worth.

"Jake, they've stolen our delegation from the Fourth Ward," he whispered.

"Don't worry," replied Worth, in low, even tones, "I won over the Sixteenth Ward a few minutes ago." And he had, and he carried the convention

Ward a few minutes ago." And he had, and he carried the convention.

This is a good description of the situation in New Jersey. Many Republicans are aligned against the party organization, and the state might be considered doubtful were it not for the Democrats who have repudlated Bryan. All the way from the ferry entrance at Jersey City to the end of Cape May Point, where the Delaware River meets the Atlantic Ocean, you will find men with political grouches.

Taft is the luckler of the two candidates, as the animosity of boiling Republicans is not directed against him. Still the party split is bound to cost him a good many votes.

Bryan's campaign in Jersey is in the hands of his enemies. James Smith, Jr., ex-United States Senator, absolutely controls the local Democracy. Mr. Smith demonstrated his power at Denver, when he cast the Jersey vote for Gray under the unit rule despite the pitiful walls of the Honorable Bob Davis, of Jersey City. Mr. Smith will conduct the Democratic campaign through his fleutenants. Bryan's fate is in his hands, and Smith is pleased to know it. The real Bryan men in the state say it is a shame, but they are powerless to do anything in the matter. That Mr. Smith does not think matter. That Mr. Smith does not think they are powerless to do anything in the matter. That Mr. Smith does not think much of Bryan's prospects is demonstrated by an editorial in his paper, the Newark Morning Star, under the caption "The West as the Fighting Ground." Mr. Smith saves.

An Argument for Defeat.

"To begin with, the Democratic party must this year secure 102 electoral votes more than the number got by Judge Parker in 1904. St more than Bryan received in 1906 and 66 more than Bryan received in 1896. To be elected, Mr. Bryan must get a total of 342 out of a total of 483 electoral votes. In 1924 Missouri went Republican. It will go Democratic this year, and Bryan will get the seven votes of Oklahoma, giving him with the vote of Parker four years ago, a total of 163 electoral votes.

of Parker four years ago, a total of 165 electoral votes.

"He must get 77 more votes to win.

The selection of a Vice-Presidential candidate from Indiana is accepted as meaning that the Democratic battle will be concentrated in the Western states. Indiana with its 15 votes presents the most favorable field. The state gave 33,344 plurality to Roosevelt in 1904. In Kansas the Roosevelt plurality was 125,009. Ohio, Iowa and Minnesota are not to be thought of, Michigan and Wisconsin gave respectively 227,715 and 155,834 for Roosevelt. Mr. Bryan may carry Colorado, as he did in 1900. If went Republican four years ago, by 34,532.

"Conceding that the East will go to Taft, and the South to Bryan, by what combination of the states of the West and Middle West can Mr. Bryan attain This editorial has failed to please the radical Democrats. They point out that in "conceding the East to Taft." Mr. Smith admits that the fight in Jersey is hopeless before it begins. Furthermore, they and the might wave politics unless n the Electoral College? hopeless before it begins. Furthermore, they add, it is mighty poor politics, unless it is the desire of the former United it is the desire of the state line united by the

States Senator to see the state line up for the Republican ticket. Will Trade Off Ticket.

Nobody who has studied conditions be lieves that Smith will strain a blood vessel for his Peerless Leader. The general opinion is that he will gladly trade votes to help his Legislative candidates, and the Mayoralty nominee in Newark. Eugene W. Lenke, of Jersey City. Eugens W. Lease, of Jersey Chy, a Democratic member of the present Congress has already repudiated Bryan, and announced that he will not vote the party ticket. As Mr. Leake is one of a tiny group of Democratic officeholders in the state, his defection is regarded as of importance.

Davis, of Jersey City, is one of "Hob" Davis, of Jersey City, is one of the few lenders who will really support Bryan, but he does not expect to hold his organization in line. Alrendy a num-ber of influential Hudson County Demo-erats have sorved notice that they intend to "go fishing" election day. The same conditions prevail practically all over the state, and the party is in a badly disor-sanized state. ganized state.

ed state. Republicans are bothered by the The Republicans are bothered by the activities of the "New Idea" men. These independents declare they are through with the "ring men," and intend to run tickets of their own in at least seven countles of the state. Up to a few weeks ago, the "New Idea" leaders had planned either to run an electoral ticket of their own, or else leave that space on the ballot biank. Since the nomination of Bryan, however, they have decided it would be however, they have decided it would be bud politics to take any position in an-ingonism to Taft. Consequently they liave expressed a willingness to rum the regular party electors at the head of

regular party electors at the head of their column. This decision has naturally addied to the confidence, of the Tatt men, who are now trying to bring about an indorsement of the long-sessional candidates, with a fair prospect of success. The storm center in New Jersoy this year will be Newark, where a Mayor and other city officials, and a full county ticker will be elected. It will be a battle without quarter, three tickets in the field, and the Democratic candidate has the best prospect of success. This fight, by the prospect of success. This fight, by the

way, is the one in which ex-Senator Smith is principally interested. -Neither party is taking much interest in the Legislature, as the Jerm of United States Senator John Kenn, of Elizabeth. coes not expire until March 4, 1911. As the "New idea" men will run tickets of their own in at least seven of the 21 counties it would not be surprising if the Democrats carried the assembly while Taft and Sherman bad a majority in the state.

Make-up of Legislature.

The New Jersey Legislature is made up of il Senators, one from each county and 60 Assemblymen. One-third of the Senate and the entire Assembly is elected each year. The present body is composed as follows: Senate-Republicans, 14: Democrats, 7: House-Republicans, 40: Democrats, 25: While the Republicans are pretty safe to hold the Senate, there is

likely to be a reversal of form in the lower house. But as everybody says "What does't matter anyway?"

Congressman Henry C. Loudensläger, who is secretary of the Congressional campaign committee, is confident that Jersey Republicans will show a gain in the next National House of Representatives. The present delegation is made up of six Republicans and four Democrats. Mr. Loudenslager figures that the party has a good chance to succeed in three of these four districts, while the Republican seats are all safe.

while the Republican seats are all safe. The First District is the one long represented by Loudenslager, and is made up of the countles of Camden, Gloucester and Salem, in the southern end of the state. In 1908 Mr. Louden-slager wen by the comfortable vote of 20,674 to 9308. The Democrats have never made an active fight there, and iever will.

The Second is also a solid Republican district, Congressman John J. Gardner district. Congressman John J. Gardner breezing in in 1206 by 19,537 to 8921. His district takes in four countles in the southern tier along the Atlantic. The few Democrats there are always discouraged and always will be.

Congressman Benjamin F. Howell won in the Third District in 1906 by 20,472 to 16,638. This is less than the normal majority. It will archably be

normal majority. It will probably be increased this year. The Fourth is another reliable Republican balliwick, Congressman Wood having carried it by 17,497 to 13,989.

Fowler's Narrow Escape.

Congressman Charles N. Fowler had a mightly narrow escape from defeat in the Fifth, his vote being 19,760 to 19,208 for James Martine, the "Farmer Orator of Plainfield." Mr. Fowler thinks he will have an easier time this Fall, and politicians in general agree with him.

In the Seventh, Richard Wayne Parker won re-election in 1906 by 16,-493 to 15,983. His majority was beaten down by the fact that the New Idea people slashed the ticket and forgot to vote for him. He believes they will re-member him favorably this time. Under the circumstances Mr. Loudens-lager thinks he can conservatively claim

that all of these districts wil remain in the Republican column. The liveliest battle of the lot will probably be in the Fifth.

A Democrat now represents the Sixth

A Democrat now represents the Sixth district, and this is one seat the Republicans hope to redeem. William Hughes won in 1905 by 35,438 votes to 23,335 for Burke, Republican. The Sixth is made up of three counties, Bergen, Passalc and up of three counties, Bergen, Passaic and Sussex, and was originally carved out as Republican territory. Last year, when Governor Fort carried the state by a scant 8000 votes, he carried the three counties by 25,672 to 24,113. G. O. P. leadors are certain that the majority will be much larger this Fall, and figure that it means defeat for Hughes,

Le Gage Pratt, of East Orange, Demonstrat carried the Fighth district by 18,734.

crat carried the Eighth district by 18,334 to 12,490 for Harry Gottlob, Republican. This was the surprise of that campaign, as the territory was strongly and Democratic, and Gottlob had been indorsed by the Newark Trades Council as the representative of labor. Gottlob fell a victim to the knife of the "New Idea." If the factions unite on a man this year he can be elected by 7000. If they fight it probably means another Democratic vic

Loudenslager Is Hopeful.

The Ninth district went Republican when Roosevelt swept the state in 1904. The present representative is Eugene Leake, the man who repudiated Bryanthe other day. He went into office by 18,387 to 12,628. There is little chance of electing a Republican, although Loudenslager says there is a good fighting chance.

Tenth district is a dyed-in-the

The Tenth district is a dyed-in-the-wool Democratic bailiwick, electing James A. Hamili to Congress in 1996 by 22/381 to 2905 for Cruse, Republican. It was carved out to be Democratic and only a cyclone could prevent it. Bryan's experiences as a candidate in Jersey have not been such as to make him fond of the voters of the state. Mc-Kinley defeated him by 87,692 votes in 1896 and the Republican plurality in 1990 was 56,899. Parker made a gallant effort to equal Bryan's bad record, but falled. equal Bryan's bad record, but falled. Roosevelt's plurality only being 80,598.
A leading Democrat of Newark made the prediction today that Taft's plurality will be between 30,000 and 40,000. Republican figures run between 35,009 and

Nobody believes Taft will receive the majorities that McKinley or Roosevelt did, but on the other hand, nobody believes that Bryan has a chance to carry the state. And anyway, the size of the plurality is not a matter of importance. It is the electoral votes that count, and Taft seems to have them safe.

SULTAN IS STILL UNEASY

Fears People May Demand Reforms He Cannot Grant.

CONSTANTINOPLE, July 29-The crists in Turkish affairs is by no means over. The demonstration in favor of the Sultan may at any moment turn against him if he does not yield to the demands of the constitutional party for the dismissal of the palace camarilla. It is believed the sultan will make these concessions, al-hough to do so is a difficult matter. ome of the obnoxious officials have al ready been removed. It is apparent that the Sultan is becoming uneasy.

Troops last evening prevented further demonstrations in front of the palace. It is believed that some of the most unpopular officials will either fee the country or seek refuge at one of the foreign

An imperial irade made public today convokes the first Turkish parliament under the new constitution November 1. The document announcing this decision appeals to the people to cease their dem-onstrations, pointing out that since the Sultan has proved his good sentiments and his intention strictly to observe the constitution and to labor for the pros-perity of all his subjects, there is no

tions, which only impede the progress events.

Before Sheik Ullam, the head of the hierarchy in Turkey, the Sultan yes-terday took the oath of allegiance to the constitution on the Koran. This solemn ceremony tends to reassure the public mind. As the result of a long meeting of the Council of Ministers Ham-dy Bey, who was recently appointed Min-later of Police, has been dismissed. Hamdy Bey's removal has been decided

by the reformers.

A dispatch from Salonika, European Turkey, says all the political prisoners there were liberated yesterday. The leaders of the revolutionary bands and their followers are entering the city and fraternizing with their former opponents.

WILL DRIVE OUT USURERS Union Pacific Takes Up Cudgels for Its Employes.

KANSAS CITY, July 29 .- A systems tic crusade against a money-lender was started yesterday, when Isaac Drake, a negro train-porter on the Union Pacific Railroad, brought suit against Patrick J. Hughes for \$25,200 damages. Hughes and others who operate similarly have given the railroad companies so much trouble that the interest of the companies has been aroused. The Union Pacific is supporting the suit and its local attorneys are also Drake's attor-

neys.

Mr. Watson, one of the company's attorneys, said that two similar suits were now in preparation for other employes. The company, he said, means to rid its employes of usurers.
