HEARST PARTY ON THE DOWN GRADE

Politicians Predict That Candidates Will Be in Fourth Place Next November.

BT LLOYD F. LONERGAN.

NEW YORK, Aug. 2-(Special.)-That the National candidates of the Independ-ence party will run far behind the Socialence party will run far behind the Social-ists' nominee, is the general opinion of politicians in the East who have studied the situation. Republicans take only a mild interest in the matter, as they be-lieve the buik of Hisgen's votes will come from the opposition. Democrais declare Hearst is practically wiped out, and figure on securing the votes of most of his followers for Bryan. Tammany Leader Murphy has displayed a great deal of activity in an effort to ascertain deal of activity in an effort to ascertain exactly "where Hearst is at." Every dis-trict boss has carefully canvased the situation, and their reports have been

state will be 20,000, and rather under than over. An active Tammany man who has returned to New, York after a trip that took him to the Pacific Coast, declares the new party will have tough sledding. "I attended the Republican convention for information, and the Denver gather-ing as a delegate," he said, "and at both places I made many inquiries about Hearst's party. In every way I indeavor-ed to ascertain the exact conditions, with-out partisan prejudice, and I kept on asking questions when I had crossed the Rockles. As a result I feel safe in making this prediction:

The Independence party will cut abso-intely no figure in the West and South. Its strength is confined to a few big cities and even there it is falling off from day to day.

Many voters believed Hearst had been robbed of the Mayoraliy, and felt kindly toward him in consequence. When the recount showed that Tammany had given him an absolutely square deal. there was a revulsion of feeling, and Hearst stock dropped materially. There is nothing solid in this new party of his. Outside of his paid employes, it is made up of political outcasts and faddists who have been rejected everywhere else. Well, one of the Blue Grass delegates to Denver told me all about Guffey, Guffey is a 'Hill-Billy,' and comes from Morgantown. He is a man of poor education, and decided to enter the legal profession, the requirements not being exacting in that state. And over his first office, he raised this sign: "'Wake anaker, and come to taw.

A year later, when the Independences League was 'incorporated' under the laws of New Jersey, Seabury was one of the directors, the others being J. G. era,

J. G. Phelps Stokes is the happiest one of the trio. He is the Socialistic nom-ines for Assemblyman in the Tenth Dis-trict , and expects to be elected. This territory comprises a section of the East territory comprises a section of the East Side where the Debs workers are strong and where on several occasions they have polled a larger vote than that cast for the Republican nominees. Mr. Stokes is being aided in his campaign by his wife, known in the newspapers as "Rose Pas-tor, the beautiful cigarette girl of the East Side." She was raised in that sec-tion of the city and has lived there since her marriage with the young millionaire. her marriage with the young millionaire, who met her while she was engaged in

ettlement work. Hearst polled an enormous East Side vote when he ran for Mayor in 1905, and the Socialists now claim that the bulk of it was supplied by admirers of Stokes, who had second place on the cket. Stokes is now engaged in mis-onary work in that section, and he de-nunces the Independence party as a nounces the independence party as a band of office-seekers and hypocrites. Stokes is thoroughly in earnest in his campaign, and is confident of election. Republicans and Democrats in the As-sembly district admit that the young mil-lionairs Socialist has almost an even chance of success

chance of success. Neither Gilleran nor Seabury will vote for Stokes, one reason being that they do not live on the East Side of Manhattan, but they would not shed tears if their old fellow-director in the Hearst corporation should be elected to the Assembly. It is only natural that membere of the "Down-and-Out Club." even the William Randolph Hearst Down-and-Out Club, rejoice at any ray of political sunshine that illuminates their narrow, unhappy

Bryan thus was enabled to transact a good deal of business, he having been occupied practically the entire day with his secretary, Mr. Rose, answering let-ters and outlining several speeches which he will make in the course of the next month.

Title an Empty Honor.

"How did he become Chief Justice of the state? Well, in Kentucky every native is a Colonel by right of birth, and plans agreed upon at the conference be-tween the Governor and himself, but it every Appellate Judge is Chief Justice by right of law. Each year the term of one judge expires and during that year tween the covernor and nimsed, but it was understood that a definite pro-gramme had been mapped out with a view to bringing to a sudden stop any attempts that may be made at the Au-gust race meeting at the Brighton Beach track to violate any of the provisions of the Aurone Heat and the retiring member presides. So the Hearst papers are correct in stating that Guffey was Chief Justice of the state, although it is not so great an honor would at first appear. I believe Hearst has lost the greater

part of his labor following. During the pust 15 months he has made a play at being conservative, and that has not helped him. If any really representative labor men were at the recent convention, their names have not been made public." Republican leaders are pleased with the

selection of John Temple Graves for Vice-President. They feared that some of the negro voters, who are unfriendly to Taft, but cannot stand Bryan, might adopt a middle course by voting the In-dependence party ticket. Graves was in dependence party licket. Graves was in Atlanta during the negro riots which dis-graced that city a year or so ago. His paper issued numerous extras with start-ling headlines. "First Assault." "Second Assault." etc. This was followed by an

orgy of lynchings that hurt Atlanta in he eyes of the whole world. Many of the prominent citizens blamed

Graves and his paper for the trouble. Advertising fell, so did the circulation, and the editor changed his sphere of activity to New York, where he obtained a position on the American. An interest-ing pamphlet on this subject will soon be issued, and is hardly likely to endear Graves with the colored men of the Na-

Campaign Lie Nailed.

The first campaign lie of the season was nailed today, when the official an-nouncement was made that Presidential Candidate Thomas L. Hisgen was born in Petersburg. Ind. It had been stated by some malicious persons that the nominee's name was Tom His Gen, and that Canton. China, was his birthplace. Hisgen is not well known in New York,

nithough he is said to have a big follow-ing in New England. A year ago he made the race for Governor of Massachu-setts, and claims to have poiled the second ingest vote. The courts disagreed with him, however, Hisgen's running mate at that time was E. Gerry Brown, who polled a linger vote for Lieutenant-Governor than Hisgen did for Governor. At the recent Chicago convention Brown had the audacity to suggest that Bryan should be indorsed by the Leaguers. As a result he was treated like Captain

Dreyfus. The convention ousted him as a National committeeman, unseated him weeks ago after an inspection of the office. The department says Mr. Gray has been careless in the conduct of the as a delegate and formally "fired" him as a member of the party. The same horri-ble fate befell Mr. Sheppard, of Kansas, who named the Nebraskan in the conwhich have the was submitted to additional humiliation, however, as his badge was torn off his coat, and four delegates struggled for the privilege of punching follows.
