Court Resumes Hearing of Contempt Charges Against Detective.

SAN FRANCISCO, Aug. 4 .- Judge Lawlor today resumed the hearing of the contempt proceedings involving Detective William J. Burns and two of his assistants in the graft prose cution. John G. Lawlor, one of the men summoned for contempt, was a witness heard during the session. He told of presenting a petition to Charles A. Dumont, a carriage and wagon maker, who is on the jury list. The petition was supposed to be directed against the graft prosecution and Lawer signed a number of names to it before seeing Dumont, among them being those of men likely to be summoned for duty on juries.

Dumont would not sign the pretended petition because one clause in it favored the prosecution of the corrupt supervisors. His idea was to fine the president of the United Railroads \$100 and end the graft prosecution.

Lawlor explained that he circulated the petition for the purpose of having the views of veniremen in writing, as in some of the graft trials talesmen would make certain statements to peoer say something entirely differen The hearing of the matter will be continued tomorrow.
