

BRISTOW VICTOR IN KANSAS FIGHT

Nominated for Senator Over Long After Bitter Campaign.

FIRST OF MUCKRAKERS

Future Senator Exposed Postal Frauds and Sent Officials to Prison—Investigated Panama Commerce.

TOPEKA, Kan., Aug. 5.—After one of the bitterest campaigns ever waged in Kansas, the nomination of Joseph L. Bristow as Republican candidate for United States Senator is conceded by Chester I. Long, the present incumbent. Mr. Long's campaign manager, Morton Albright, admits that Mr. Bristow will have from 19 to 25 majority in the Legislature.

Walter R. Stubbs, of Lawrence County, was nominated for Governor by the Republicans over Cyrus Leland, Jr. Early returns indicate the renomination of all Republican Congressmen.

Mr. Bristow was Fourth Assistant Postmaster-General in President Roosevelt's first administration and brought to light the frauds in his department which caused the sending of central officials to the penitentiary. He made a report accusing a number of Congressmen of unduly influencing postal appointments, which caused a scolding from the House with a chorus of vociferous denials. He resigned in the interest of peace in the party and was appointed by the President to investigate the commercial possibilities of the Panama Canal, where he felt foul of the Harriman competition of railroads and steamships. He then retired to St. Anna, Kan., where he is editor of the Journal.

COWHERD CARRIES MISSOURI

Sunday Law Judge Wallace Third in Governorship Race.

KANSAS CITY, Aug. 5.—With three precincts missing, Jackson County, including Kansas City, gives Governor Jay, Democrat, nominee for Governor by a plurality of 13,000. Here it is estimated that from the returns at hand that his plurality over the state will be about 10,000 or about half of the plurality he received in the cities. David A. Ball will be the second candidate in the race. Bell appears to have received a larger vote than Wallace, who made his campaign on his Sunday enforcement record. Herbert S. Hadley, of Kansas City, the Attorney-General of Missouri, was the only candidate for Governor on the Republican ticket.

Wallace and Ball showed their greatest strength in the farming district. The cities turned the scale in favor of Cowherd.

All the present Missouri Congressmen were renominated except in the Eleventh District, where William T. Findlay, St. Louis, was named by the Republicans to succeed Congressman H. Claiborne. Republican, who was not up for renomination.

Gore and Flynn Are Nominees.

GUTHRIE, Okla., Aug. 5.—United States Senator Thomas P. Gore, Democrat, of Lawton, and Dennis T. Flynn, Republican, of Oklahoma City, had no opposition in their parties for the nomination for United States Senator in yesterday's primaries in this state to succeed Gore for the short term. Mr. Flynn formerly was delegate to Congress from the territory of Oklahoma. The contest in the district centered in the race between Congressman Bird S. McGuire, of Pawnee, and Judge Bayard T. Hainer, of Perry, for the Republican nomination. Indications this morning are that McGuire received an overwhelming majority.

MACHINISTS GO ON STRIKE

(Continued from First Page.)

that the men must be bound by the findings just as they are, but they consider that the men's refusal to sign their position, as the railroad is not satisfied itself with the decision.

Summary of Men Idle.

The summary of those idle is as follows: Meadum Junction, headquarters maritime provinces, 300; Fort William, 200; Medicine Hat, 100; Quebec, 50; North Bay, Chapeau and Incaigne, 120; British Columbia points, 400; Calgary, one division, 40; Regina, 40; Winnipeg, 1500; Montreal, 2200; West Toronto, 500; London, 100; Ottawa, 40; Brandon, 175; Moose Jaw, 200; Broadview, 90; Swift Current, 40; McLeod, 30; Lethbridge, 60; Cranbrook, 25; Nelson, 25; Ebbot, 50; Smelter Junction, 5; Trail, 5; Rossland, 25; Midway, 20; Greenwood, 25; Revelstoke, 50; Kamloops, 30; North Bend, 25; Spencer Bridge, 20; Mission Junction, 15; Westminister Junction, 20; Kenora, 100; Vancouver, 225.

Krupp Buys Air Torpedo

Pays Great Sum for Colonel Unges' New Projectile.

ESSEN, Aug. 5.—Notwithstanding frequent denials, the Krupp Works have apparently acquired the right to the air torpedo invented by Colonel Unges, of the Swedish army, under the conditions that the Swedish government is free to use the device. The particulars of the weapon are secret, but it is understood that the Krupp paid a great sum for the invention, after prolonged tests, so it is assumed that the projectile is really effective in one for sea fighting and also against fortifications, three calibers being used, one for sea fighting, a second for ordinary land fighting and a third for mountain work.

One More Death in New York.

NEW YORK, Aug. 5.—Excessive humidity, combined with high temperature, caused a great deal of suffering in the city district of New York last night and early today. One of the victims was the Rev. Dr. Edward Wallace Neil, for 25 years pastor of the Protestant Episcopal Church of St. Edward the Martyr, in East 193rd street, who died suddenly today.

Attacks Entire Family.

NEW YORK, Aug. 5.—Stanley Withsmith, aged 21, a clerk, is dead at his home in East Orange, N. J., following two operations for appendicitis. The young man's mother and brother were recently operated upon for the same disease and a sister will soon have to go under the knife.

Alien Labor Act Bars Strikebreakers From Canada.

ST. PAUL, Aug. 5.—With \$600 skilled mechanics on strike, due to the walk-out of the machinists and other employees in the company's shops, Agents of the Canadian Pacific Railroad are holding out inducements to men in Canada and the United States to fill the places of the strikers.

But St. Paul labor agencies have given out the statement that it would be practically impossible for any men

to go from here and local labor agents propose to take no chances with the Canadian alien labor act. According to this law, no strikebreaker can be imported into Canada, the act prescribing a penalty of \$1000 fine for each violation, with deportation of the strikebreaker as an added penalty.

Blocks Movement of Grain.

VANCOUVER, B. C., Aug. 5.—The machinists and roundhouse men employed by the Canadian Pacific Railway here quit work this morning in response to the call of the union. The general public hardly realizes that the strike is really on or that it can continue, as the biggest crop in the history of Canada is just ready to be cut under the best of conditions, and the strike, if continued, will paralyze the whole movement and leave the grain rotting in the field. Under ordinary conditions, it would tax the railway company to transport the men needed in the harvest fields.

Wyoming Coal-Mines Close.

DENVER, Aug. 5.—Suspension of work in the coal mines of Wyoming on September 1, when the present scale expires, is explained as the result of the failure of the operators and miners to reach an agreement. About 7000 men will be thrown out of work. Thomas Gibson, president of the Wyoming district of the United Mineworkers, left Denver for Indianapolis today and will report the failure of the negotiations to Thomas L. Lewis, National president, who will probably take part in future negotiations. The disagreement was caused by the refusal of the miners to accept a reduction of wages ranging from 10 to 25 cents per day in the different classes of service.

WORKMEN MEET LIKE FATE

FALL FROM BRIDGE FROM SAME PLACE.

Day After One Is Killed His Companion Meets Identical Fate in Vancouver, B. C.

VANCOUVER, B. C., Aug. 5.—(Special.)—Charles MacAdam, a bridge workman, yesterday slipped from a timber on Granville-street bridge, this city, and fell to the ground 30 feet below. His roommate, James Bent, who was working with him, hurried down and assisted the injured man into an ambulance. MacAdam's skull was fractured and he died in the hospital two hours later.

Bent was unharmed for the remainder of the day, but returned to work this morning as usual. Within an hour of the time at which his chum perished yesterday, Bent was walking along the same timber. He glanced down, became dizzy and fell in exactly the same place that MacAdam was killed. He likewise sustained a fractured skull and died in an hour.

GREWSOME FIND IN LAKE

Chicago Police Probe Mystery of Dismembered Corpse.

CHICAGO, Aug. 5.—A gruesome murder mystery that promises to be one of the most baffling with which the police have had to deal in some time was developed today by the discovery of the dismembered body of a boy in what is known as Mud Lake in the stockyards district. The finding of the lower limbs severed at the knees and the knee this morning was followed this afternoon by the discovery of the torso which had drifted some distance. The legs were wrapped in a newspaper and part of a shirt bearing the initial "C," and at first were supposed to be those of a young woman. The torso from which the arms had also been hacked disclosed that the victim was a boy.

That a crime was committed and the body hacked up in order to destroy evidence is indicated by the manner in which the limbs were torn from the torso and the feet severed at the ankles, in order to make identification almost impossible. Suggesting that the portions of the body might have come from a cadaver used in a medical college have been rendered untenable by the manner in which the amputation was done. The instruments used were evidently a hatchet and a saw.

Dragging the lake for other parts of the body was started by the police today, in the hope of finding the head and trunk of the body.

OFFICERS' SECOND "HIKE"

Seven Army Men March 17 Miles in Physical Test.

SAN FRANCISCO, Aug. 5.—Promptly at 8 o'clock this morning the seven army officers from the Presidio and Benicia, all above the rank of Captain, and near the age of retirement, started on their day's "hike" in the 50-mile walking test ordered by President Roosevelt to determine their efficiency to remain in the Army. They arrived at the camp at Thirty-sixth and Fulton streets early in the afternoon, after covering 17 miles.

Krupp Buys Air Torpedo

Pays Great Sum for Colonel Unges' New Projectile.

ESSEN, Aug. 5.—Notwithstanding frequent denials, the Krupp Works have apparently acquired the right to the air torpedo invented by Colonel Unges, of the Swedish army, under the conditions that the Swedish government is free to use the device. The particulars of the weapon are secret, but it is understood that the Krupp paid a great sum for the invention, after prolonged tests, so it is assumed that the projectile is really effective in one for sea fighting and also against fortifications, three calibers being used, one for sea fighting, a second for ordinary land fighting and a third for mountain work.

Table Mats, set of three; special 8c

Gas Hot Plates, extra heavy frame; regularly \$2.50 each; special today \$1.98
Regular \$4.50 value; today only \$3.50

JAMAICA WANTS RACES

URGES HORSEMEN EXPELLED FROM SOUTH TO COME THERE.

Boasts Advantages Over California for Winter Meetings—Hope for Poolrooms.

NEW YORK, Aug. 5.—R. L. Delisser, a New York racing promoter, returned from the island of Jamaica today with the announcement that Knutsford park track which would ordinarily be held at New Orleans and at Benning.

"The wiping out of the New Orleans and Washington tracks means that the East will be left this Winter without any track," said Mr. Delisser, "and that the only track in the country in the Winter months will be that in California. The Knutsford park people feel that they will be much better able to handle the work of the Eastern racing stables than can California. It costs \$1000 a car to ship horses from New York to California, 12 horses in a car, and only \$30 each, or \$360 for 12, to send horses from here to Jamaica.

"California is separated from New York by several hours' difference in time; Jamaica by only seven minutes, so that poolrooms in New York and through the East can operate in proper hours on the Jamaica races.

Mr. De Lissier says he understands that \$150,000 has already been put up for enlarging the Jamaica track and that stables are now being built on it for the accommodation of big Winter strings.

BROKERS GO TO WALL

Head of Firm of Eastman & Co. Is Arrested.

NEW YORK, Aug. 5.—The suspension of the firm of Eastman & Co., stock-brokers, was announced on the floor of the Consolidated Stock Exchange today. Robert E. Eastman, head of the firm, was arrested in Chicago last night, after a Portland, vice-president of the Metropolitan National Bank of New York,

had gone to Chicago with evidence against Eastman.

Eastman said his troubles were due to an overdraft of \$15,000 on the Mechanics National Bank. The New York police stated that John T. Garrison, the other member of the Eastman firm, told them that Eastman had taken \$15,000 from their office in Garrison's absence.

All the office of Eastman & Co. this afternoon the following statement signed by John Garrison was posted:

"Robert Eastman left New York on July 23 in the absence of his partner Eastman, as already announced in the press was arrested in Chicago yesterday. He took with him the books of the firm and it is therefore impossible to give any accurate statement as to the firm's liabilities until Mr. Eastman returns to New York."

FIND \$54,000 ON EASTMAN

Chicago Police Take Fortune From New York Broker.

CHICAGO, Aug. 5.—Robert F. Eastman, the New York broker arrested here yesterday, was found by the police today to have in his possession bonds and certified checks to the value of \$54,000.

Twelve thousand dollars were in Government bonds, \$27,000 in other bonds, and the remainder in certified checks.

Memorial to Osteopathic Leader.

KIRKSVILLE, Mo., Aug. 5.—(Special.)—Fifty thousand dollars was subscribed by the Osteopaths, now in their twelfth annual convention, for the A. T. Still Research Institute. This fund will be largely increased tomorrow.

The meeting was large and enthusiastic and the attendance tomorrow at the celebration of A. T. Still's 80th birthday is estimated at over 10,000. Dr. F. E. Moore, of La Grande, Or., is presiding over the convention.

Portland Band for Pendleton.

Portland will be represented at the annual fair at Pendleton, commencing September 28, by De Caprio's crack band, which will furnish music during the entire week the fair is to last.

Signor De Caprio yesterday received a contract from the Pendleton fair management, calling for 25 musicians. Since the show will be held well after the close of the park concert season in Portland, Signor De Caprio will have no trouble meeting the engagement.

SHOOTS DOWN DESERTER

SENTRY AT PRESIDIO INSTANTLY KILLS PRISONER.

W. F. English, Private of Company 115, Coast Artillery, Falls to Private Ryan's Bullet.

SAN FRANCISCO, Aug. 5.—William F. English, a private in Company 115 of the Coast Artillery, awaiting trial for desertion, was shot and killed at the Presidio today while trying to escape. English was at work with other prisoners on the protected target range in the west cantonment of the Presidio reservation under guard in charge of Corporal Johnson, repairing the range. Awaiting what he thought was a favorable opportunity, English suddenly took to his heels and ran toward the hill.

Private Ryan of the Tenth Company, Coast Artillery, started in pursuit of the fleeing soldier and after chasing him for 200 yards, repeatedly calling upon him to "halt," and seeing that he would escape if he gained the protection of the trees and underbrush, brought his rifle to his shoulder and fired, killing English instantly.

English deserted from Fort Rosecrans at San Diego on June 23, and was captured by the civil authorities at San Jose on July 7. No blame attaches to the sentry for his action in shooting the prisoner. The penalty for desertion is from one to three years in one of the Federal penitentiaries.

Cocaine Banned From Mails.

WASHINGTON, D. C., July 28.—Cocaine and its derivatives will hereafter be debarrued from the United States mails. Government reports show that an enormous amount of cocaine is sent through the mails each year and that it is steadily growing greater. The crusades waged against the "habit" in the cities have driven the drug fiends to seek other means of procuring the powder, and the means of procuring the mail has been in the form of so-called "medicines." These medicines will also fall under the ban.

The action of the Postoffice Department was taken by authority of Congress, granted last session, when a prohibition

against the drug was included in the department's appropriation bill.

FLEET IN ROUGH SEAS

Reports by Wireless 810 Miles From Auckland.

SUVA, Fiji Islands, Aug. 5.—Wireless telegraphic messages received here tonight from the United States Atlantic fleet report the vessels at 6 P. M. in latitude 25-23 South; longitude 178-51 West; 810 miles distant from Auckland.

Reward Hardly Manifested.

CHICAGO, Aug. 5.—William Becker, a postoffice wagon driver, found a \$3000 check in a driveway beneath the Federal building and reported it to Superintendent Fred Day. The check was payable through the Merchants Loan & Trust Company. The Trust Company was notified, and a bank messenger was sent for the check. Becker is said to have been the recipient of many thanks and a \$2 bill.

CASH For Your Name

We are getting up a mailing list of reliable people who live on farms or ranches in Oregon, Washington, Idaho and Montana. This list is to be used in mailing out our free clothing and woolen goods catalogue, which contains samples of the famous Brownsville and Salem Woolen Mills Clothing, tells how to tell woolen goods from cotton, how to order suits, etc.

To persons sending us a list of names and addresses of heads of families who live outside of cities, we will pay one cent in cash for each name or give prizes, if preferred, as follows:

Key Ring for.....	10 names
Beautiful Pocket Mirror.....	15 names
Gentlemen's Purse.....	25 names
Fair Gold Cuff Buttons.....	50 names
Ingersoll Guaranteed Watch.....	100 names

Where the same name is sent in by two different people it will count only for the first one sending it in.

Every one interested in buying clothing for men and boys direct from the manufacturer at cut prices should be on this mailing list. Address all letters,

BROWNSVILLE WOOLEN MILL STORE,
Third and Stark Sts., Portland, Or.
