BUYING FOR ALASKA

Early Potatoes Will Command the Best Prices.

LATER THEY MAY BE LOW

Present Prospects Are for Average Crop in Oregon—Acreage Is Larger, but Drouth May Reduce Yield Per Acre.

It is too early for an accurate forecast of the Oregon potato crop and Fall and Winter markets, but conditions as they stand now point to an average yield and the customary range of prices, varying with the progress of the season, in the opinion of D. E. Meikle, one of the leading potato buyers and shippers of Portland.

"The crop is doing fairly well," said Mr. Meikle yesterday. "The acreage is larger than last year, and if we should have favorable weather from now on, we will probably have as large or larger crop than last season. It is too early yet to tell what the quality will be. The hot weather has been ripening the early potatoes fast, those intended for the Alaska trade. The later planted potatoes, however, are not doing so well, and if it should continue dry and hot they will ripen before they are fully matured.

"Early potatoes for Alaska shipment will command good prices, as the buyers will have to look to Oregon for most of their supplies. Buying is now under way for shipment to the Yukon and buying for the Southern Alaska trade will last until about the end of September. After the Northern demand is satisfied, potatoes will be cheap."

WHEAT IS AS FIRM AS EVER.

But Not so Much Activity Is Reported From the Country.

The Northwestern wheat markets did not show the activity yesterday that characterized them on the earlier days of the week, but there was no abatement in their strength. Reports from the country noted less pressure to buy on the part of exporters, but the buyers that were still in the market were talking up everything offered them at the same prices that were bid on Thursday. Otherwise the situation showed no change. The majority of farmers take a bullish view of the situation and their belief in higher prices later is fully shared by the local buyers, judging from the readiness with which they have absorbed all offerings at prices above current values, as based on the foreign markets.

There was not much change in grain prices at the Board of Trade yesterday. The last bid on December wheat was at 91½ cents, an advance of ½ cent over Thursday's close. September wheat was unchanged at 89 cents. Oats and barley were practicaly unchanged.

Receipts were 15 cars and 2897 sacks wheat, 1 car and 596 sacks oats, 4 cars barley, 400 sacks flour and 8 cars and 177 bales hay.

The range of futures was as follows:

	Open.	High.	Low.	Close.
WHEAT.				
Sept.	$ .89	$....	$....	$ .89
Dec.	.91	.91½	.91	.91½
OATS.

Sept.	1.15	....	....	1.15
Dec.	1.17½	....	....	1.17½

Local Flour Market Is Stronger.

The sharp advance in the wheat market this week has added materially to the strength of the local flour market. While there were indications some time ago of a weakening of values along the Coast, these have passed away with the rise in wheat prices. Not only is there no likelihood of any decline in prices of old wheat patents, but there is a possibility that flour quotations may be raised in view of the general stiffening in grain values all over the country.

Fruit and Vegetable Supplies Larger.

The fruit and vegetable markets were better supplied yesterday and an improvement in the demand was reported. The receipts included one car each of bananas, peaches, watermelons and Walla Walla onions. There are due today a mixed car of oranges and lemons and a car each of watermelons and cantaloupes. Prices showed no important change in any line.

Slight Advance in Hens.

The country produce markets were slow, except in the poultry line, where the demand for hens caused a half-cent advance. Eggs sold at the former range of prices. Receipts were 335 cases. Butter was in short supply and very firm with receipts reported at 118 boxes.

Bank Clearings.

Clearings of the Northwestern cities yesterday were as follows:

	Clearings.	Balances.
Portland	$ 916,260	$ 78,284
Seattle	1,246,748	91,279
Tacoma	596,515	33,752

PORTLAND LIVESTOCK MARKET.

Prices Current Locally on Cattle, Sheep and Hogs.

In the livestock market the supply and demand were almost equal yesterday and the market was generally on a steady basis though the arrival of some off-grade stock was a weakening factor. There were heavier receipts of hogs, which relieved the scarcity in this line. The arrivals for the day were 190 cattle, 160 hogs and 10 lambs.

Receipts yesterday were 127 cattle, 230 sheep, 150 hogs and 350 lambs.

The following prices were current on livestock in the local market yesterday:

BIG DAY IN STOCKS

Largest Volume of Trading Since Year Began.

FLUCTUATIONS VIOLENT

Prices Are Steadily Upward Until Advance Overruns Itself and Sharp Setback Follows.

NEW YORK, Aug. 7.—It was a day of speculative excitement in the stock market and of violent and erratic price fluctuations. The bull movement started on its way prosperously and reached a new high stage of prices for the year with great animation and buoyancy in the dealings. At the accelerated pace of the advance the movement over-ran itself to some extent and paid the penalty in a sharp setback.

The market was the largest in volume of the present year, the number of shares which changed hands rising to 1,000,000 before 1 o'clock. Extensive covering by shorts has been a recognized factor in the later stages of the rise. The distress of the short interest in American Smelting and National Lead became so acute in the course of the day and desperation to punish them seemed so ruthless that the speculative temper became discomposed and heavy unloading of several large accounts was precipitated. The buyers saw a chance to regain an advantage and raided prices downwrd in a quest for stop loss orders.

The two Guggenheim stocks were conspicuous features from the outset by reason of the late bulge yesterday. When 7¼ points had been added to yesterday's 6¼ points gain in American Smelting and jumps of a full point between sales were made, the market took alarm. Considerable disorder resulted from this episode in the market.

The increased volume of transactions represented a substantial broadening of the participation, although concentrated buying from a few houses has been a feature throughout the movement. There was notable increase in the attendance on the floor of the stock exchange, many brokers having returned from vacation absences to share in the dealings.

Forecasts of the week's currency movement pointed to another heavy accretion to the cash holdings of the banks. The Subtreasury has supplied over $5,000,000 during the week, the continuing Government deficit requiring heavy disbursements by that institution. The movement of currency from the interior, although on a diminished basis, still added between $1,000,000 and $2,000,000 to the gains of the banks.

The decline of Spring wheat during July, shown by the Government crop, represented a degree of deterioration that disappointed expectations as expressed by other expert estimates, especially as a small decline in condition is to be allowed for in the week elapsed since the date of the Government's estimate. The firmness of wheat prices after the publication, in spite of the active speculation that has preceded it, was regarded as significant. The day's price changes are small when the width of the day's extreme fluctuations is considered.

Bonds were firm. Total sales, par value, $5,394,000. United States bonds were unchanged on call.

IN THE RIGHT DIRECTION

BUSINESS IS IMPROVING, BUT PROGRESS IS SLOW.

Fall Trade Opens at Leading Jobbing Centers—Failures Are Decreasing.

NEW YORK, Aug. 7.—Dispatches to Dun's Review indicate further progress in the right direction, although improvement is slow.

Boston reports that cotton mills are still curtailing output, but larger sales of wool promise greater activity in the woolen industry. Drygoods jobbers are placing Fall orders freely and the situation will be improved by the auction sales. Drygoods trade is quiet at Philadelphia, but wholesalers report more inquiries. The steel industry and building trades are more active. Drygoods markets at Pittsburg are seasonably quiet, but there is a noticeable improvement in orders for the future. Conservatism prevails in all lines.

Industrial conditions are slightly better at Baltimore, and more factories are operating, but wholesalers report a small attendance of outside buyers. The Interstate Merchants Association opened its first meeting at St. Louis on August 1 and country merchants are arriving in large numbers, making satisfactory purchases in most lines. The influx of buyers is expected to continue until the middle of September.

Kansas City reports that firms are placing orders freely in most lines. Retail trade at New Orleans and shipments by jobbers have been interrupted by heavy rains, which also retard harvesting of cotton and rice, but sugar cane prospects are bright.

At Chicago, country merchants attend the wholesale and jobbing markets in large numbers, placing orders that compare favorably with those of a year ago.

DEVELOPMENTS MAINLY FAVORABLE

Improvement in the Building Trade—Failures Are Decreasing.

NEW YORK, Aug. 7.—Bradstreet's tomorrow will say:

Trade, crop and industrial developments of the week are mainly favorable. The first of the Fall merchants' excursions are reported in leading cities, thereby enlarging sales by jobbers and wholesalers. Industrial reports are generally of increased time run and the leading crops have approached a week nearer harvest.

There are, however, some features accompanying this development deserving of note. There are statements from quite a few markets that early Fall buying is hardly up to expectations and that caution and conservatism govern buyers' actions. The railroads are certainly buying more rails, cars and also light supplies. The building trade evidently turned the corner in July, but reports of curtailment in output of certain lines of cotton goods are still prominent.

Business failures in the United States for the week ending August 6 number 205, against 275 last week, 157 in the like week of 1907, 137 in 1906, 166 in 1905 and 167 in 1904. Business failures in Canada for the same period number 19, compared with 32 last week and 18 in the like week of 1907.

Bank Clearings.

NEW YORK, Aug. 7.—Bradstreet's bank clearings report for the week ending August 6, shows an aggregate of $2,141,175,000, as against $2,306,520,000 last week, and $2,661,869,000 in the corresponding week last year. The following is a list of the cities:

SPRING WHEAT POOR

Condition Deteriorated 8.7 Per Cent in July.

DUE TO HEAT AND RUST

Stands at 80.7 Per Cent, as Compared With Ten-Year Average of 82.7 Per Cent—Estimate of Winter Wheat Yield.

WASHINGTON, Aug. 7.—The crop reporting board of the Department of Agriculture today issued a bulletin giving the condition of Spring wheat on August 1 as 80.7 compared with a ten-year average of 82.7.

Preliminary returns indicate a yield of Winter wheat of about 14.3 bushels per acre, or a total of 425,940,000 bushels, which compares with 14.6 bushels and 409,442,000 bushels respectively, the final estimates of last year's crop. The average quality of the crop is 90.1 against 90.5 last year.

The average condition of Spring wheat on August 1 was 80.7 per cent of normal, as compared with 89.4 a month ago, 79.4 on August 1, 1907, 86.9 on August 1, 1906, and 82.7, the ten-year average, on August 1.

The Winter wheat yield of California is 14,410,000 bushels; yield per acre, 14.6 bushels; quality, 92 per cent.

The condition of cork is 82.5 as against a ten-year average of 83.1.

The condition of the oats crop on August 1 was 76.8 per cent of a normal, as compared with 85.7 last month, 75.6 on August 7, 1907, 82.8 on August 1, 1906, 83.8, the ten-year average, on August 1. The proportion of the oats crop of last year in the hands of farmers on August 1 is estimated at 5 per cent, equivalent to 38,000,000 bushels as compared with 7.1 per cent and 68,000,000 bushels respectively, the corresponding figures of a year ago.

The average condition of barley on August 1 was 83 per cent and of rye 83.3.

The acreage of buckwheat is about 1.4 per cent less than last year.

The condition of white potatoes on August 1 was 82.9 per cent on a normal, as compared with 86.8, the ten-year average.

The condition of flax on August 1 was 86.1 as compared with 88.4, the average of five years.

The preliminary estimate of the acreage of hay is 1.2 per cent more than last year, indicating a total of 44,538,000 acres.

The condition of the hay crop on August 1 was 92.1 as compared with a ten-year average of approximately 88.

SHARP ADVANCE AT CHICAGO.

Government Crop Report Carries Wheat Prices Up Rapidly.

CHICAGO, Aug. 7.—The Government report, showing the condition of the Spring wheat crop on August 1, was issued 15 minutes before the end of the session, and its appearance was followed by a sharp rally which carried prices from 1⅜ to 2⅜c above the low figures. According to official statistics, the condition of the Spring-sown crop deteriorated 8.7 per cent during the month of July, owing to excessively high temperature in the Northwest and injury by "black rust." The condition was placed at 80.7, compared with 89.4 a month ago.

Prior to the issuance of the report the market had been very nervous, with sentiment inclined to be bearish, because of the cooler weather in the Northwest and weak cables. In the final few minutes of trading there was liberal realizing, which caused a considerable reaction from the top, but the market closed strong. September opened ⅝ to ⅝c lower at 94½ to 94⅝c, sold off to 94¼c and then advanced to 96⅝c. The close was at 95⅝@95¾c.

Beneficial rains in Kansas, Nebraska, Missouri and Southern Illinois caused weakness in the corn market early in the day, but before the end of the first hour and on active buying by shorts, all of the initial loss was regained. Bullish sentiment became more pronounced as a result of the Government report. The market closed firm. September opened ⅛c lower at 75c, advanced to 76⅝c and closed at 76c.

Oats were independently strong. September opened ¼@⅛c higher at 47⅝ to 47⅝c, sold off to 47¼@47¾c and then advanced to 48⅛c. The close was at 48c.

Provisions were weak. At the close September pork was off 22½c, lard was down 10c and ribs 7½c lower.

BALDWIN CLIP IS SOLD

LAST BIG WOOL DEAL IN EASTERN OREGON.

Prices Said to Have Been About 16 Cents—Botany Mills Purchaser.

THE DALLES, Or., Aug. 7.—(Special.)—The 1908 wool clip of the Baldwin Sheep & Land Company was sold today at Shaniko at private sale by its owner, J. G Edward, of Hay Creek. George Abbot, representing the Botany Worsted Mills, of Passaic, was the purchaser of the entire clip, aggregating 250,000 pounds. The exact price paid was not made public, but is understood to have been about 16 cents. This clip was not offered at any of the regular sealed-bid sales held at Shaniko earlier in the Summer, the buyers participating in the public sales declining to offer individually on the wools until after all sales for the season had closed.

This clip is one of the largest west of the Rocky Mountains, and has a well established reputation for quality among dealers and manufacturers. The sale practically cleans up the wool clip of Eastern Oregon. With the exception of a few straggling lots arriving late, all other wools were sold at the regular auction sales.

DROP IN SEATTLE WHEAT PRICES.

Centennial Company's Mills Preparing to Start Grinding.

SEATTLE, Wash., Aug. 7.—(Special.)—Wheat dropped to 93 and 91 cents here today. Buying is still spirited. The Centennial Mill Company's mill here will start grinding the first of the month and the company's mill at Ritzville will resume grinding next week. Wheat buying has been heavier along the Great Northern Railway than along either the Northern Pacific or the Columbia River, according to advices received here today.

Salmon prices just announced make sockeyes $1.60 for talls, $1.75 for flats, a reduction of 5 cents over last year's prices. Alaska red prices are $1.25 for talls, an advance of 10 cents. Ten thousand cases of red Alaska salmon arrived here this afternoon.

Fruits were scarce today and higher prices prevailed. Apricots are 25 cents higher. Bartlett pears are now held at $1.50 for the best stock. A car of Elberta peaches arrived today and was closed out at $1.

Holding Curry County Wool.

GOLD BEACH, Or., Aug. 7.—(Special.)—Sheep shearing is about completed in this part of the country. The clip has averaged fairly well, but there will be little or no selling at present prices. Growers think a rise in price is to be expected and almost without exception will hold for it. Offers have been made as low as 13c. T. S. Dickins, of San Francisco, lately passed through the county, but made no offers, saying he could not meet the 16c which was asked by the growers here. Last year at this time wool was bringing 21 and 22 cents.

Packers Change Prices of Salmon.

ASTORIA, Or., Aug. 7.—(Special.)—At a meeting of the Packers' Club this afternoon, it was decided, as the fish now coming in are deteriorating in quality, to change the prices for salmon effective after 6 o'clock on Saturday evening to the following rates:

Large salmon, 30 pounds or over, 7 cents per pound; small salmon, under 30 pounds, 5 cents per pound; silversides, 2 cents per pound; tulles, 10 cents each.

The gratest change is that the dividing line between "small" and "large" fish is raised from 25 pounds to 30 pounds.

QUOTATIONS AT SAN FRANCISCO.

Prices Paid for Produce in the Bay City Markets.

SAN FRANCISCO, Aug. 7.—The following prices were quoted in the produce market today:
