SMALL CARGO ON STEAMER ARABIA

German Vessel Brings Less Than 200 Tons of Oriental Freight.

TOUCHES SAN FRANCISCO

All Eastern Freight Is Discharged at California Port—Gunnies Principal Item for This City. News of Waterfront.

With less than 200 tons of cargo for Portland and not a pound of Eastern freight, the steamship Arabia, of the Portland & Asiatic Steamship Company, entered the Customs-house yesterday. The Portland end of the shipment was the smallest that has ever been received at this port. The Arabia sailed from the Orient with a full cargo. A large portion was discharged at Honolulu and the remainder at San Francisco, barring the small quantity for Portland. All Eastern shipments were placed with the rail lines at San Francisco.

Duties on the amount of stuff delivered at the Portland dock will amount to about $2700. Heretofore the duties on a China boat have run up to approximately $100,000. In 1907 the Arabia brought to Portland a single shipment of firecrackers on which duty in the sum of $108,000 was collected.

The action of the Harriman people in having the vessels discharge at San Francisco is a matter which has attracted the attention of steamship men and importers for some time. The Pacific Mail steamships are arriving in from the Orient light and it is not a shortage in tonnage that has prompted the action. Facilities for transferring are as ample at this port as in California and Eastern delivery is as rapid. The action of the steamship people only detracts from the prestige of Portland and adds to the revenues received through the San Francisco Customs-house. All outward cargo, however, is received at Portland and California is unable to fill up the regular liners plying out of the ports.

Gunnies formed the principal item on the manifest of the Arabia. Of these there were 159 bales and the duty will amount to $2500. Two hundred bags of peanuts will contribute an additional $300. Tin, sulphur and tea comprise the remainder of the cargo, and on these commodities there is no duty.

The complete manifest of the Arabia follows: For Portland—Gunnies, 159 bales; tin, 110 slabs; peanuts, 200 bags; sulphur, 1120 bags; tea, 75 chests.

SURVEY TRIP IS POSTPONED

Pilots Will Not Make Soundings of River for Some Time.

Columbia River pilots have postponed the survey trip to Astoria and soundings will not be taken until the rush is over. The announcement yesterday morning of the number of steamers which were due to arrive during the week and of the number in port forced the abandonment of the trip.

For several weeks the pilots have been preparing for the annual survey of the river between Portland and Astoria. A fleet of more than 20 steamers will have to be handled during the week, however, and no one will have time to do the sounding.

Marine Items of Seattle.

SEATTLE, Aug. 10.—The cod-fishing schooner Fortuna was reported passing in for Quartermaster Harbor yesterday afternoon. The steam schooner Northland, which sailed this morning for Ketchikan, will have her official trial trip on her return to Seattle. The Northland, which was launched in the Spring, went direct from the ways into the cargo business. The steamer Tourist on the Port Orchard run dropped her rudder while off Alki Point bound for the city this afternoon. The steamer Reliance running close to the Tourist came alongside and towed the disabled vessel to her dock.

The steamer City of Seattle was reported bound southward from Ketchikan at 6 o'clock this morning. The City of Seattle is bringing 125 passengers from southeastern Alaska.

The steamship Olympia will sail for San Francisco tomorrow morning to carry a general cargo from that port to Nome.

The steamship Nebraskan from San Diego brought about 1000 tons of general cargo.

The fishing steamer Chicago has left for the halibut banks off the north end of Vancouver Island. The fishing schooners Doncaster and Alice arrived from the banks this morning with light catches.

Starts Sinking in Harbor.

SAN FRANCISCO, Aug. 10.—The steam schooner Point Arena, which arrived today from North Coast ports, was partly sunk off Mission-street wharf as a result of striking a submerged rock near Fort Ross yesterday. Captain Johnson did not consider the matter serious but this morning the steamer's seams opened and the vessel began to fill. Soon her main after deck was submerged, and only the prompt arrival of a tug and the constant use of the pumps prevented her from going to the bottom.

Numantia Hurt in Collision.

A brief dispatch received by the Merchants' Exchange yesterday morning, from Japan, says that the steamship Numantia, from Portland to Hongkong, was disabled in collision with the steamship Suveric while in Japanese waters. No details of the accident are given. The Numantia sailed from Portland, June 21, and reached Hongkong a month later.

Steamer Edith at Bellingham.

BELLINGHAM, Aug. 10.—Arrived: Steamer Edith to load lumber for Nome. Local longshoremen are barred from the docks by Federal injunction enforced by guards. Strikebreakers were brought here from Seattle to load the vessel.

Marine Notes.

The steamship Eureka, for Eureka and way ports, sailed yesterday.

The sloop Condor, for Alsea Bay, sailed at an early hour this morning.

The steamship Rose City will arrive up at an early hour this morning from San Francisco.

The steamship Breakwater arrived last night from San Francisco, via Coos Bay points. The Breakwater has been off the run for five weeks.

The bar tug, Wallula, Captain John Reed, will go to the drydock today. She will be ready for commission within a week.

LARGER STOCK RECEIPTS

MORE ACTIVE MARKET IS EXPECTED THIS WEEK.

Northwest Continues to Draw Heavily on East for Its Supply of Hogs.

More active trading is promised in the livestock market this week than was the case lats week, as the movement of stock to this market will be considerably heavier. Receipts yesterday were fair to start with, consisting of 60 cattle and 720 sheep and a few lambs.

Prices all around were on a comparatively healthy basis. There was a very good tone in cattle and this is expected to continue because of the strong Eastern demand. Sheep ruled steady and lambs were held at last week's quotations. The determination of the dealers to keep up the distinction between trimmed and untrimmed lambs is now generally known throughout the shipping districts and the good effects of the move are already apparent. Many growers have notified the buyers that they will follow the practice hereafter.

Hogs are the strongest item in the livestock list and assurance is given of firm prices throughout the remainder of the season. Portland, Seattle and Tacoma are getting 40 to 50 cars of hogs every week from the East, and in addition to this, large quantities of pickled hams and sides are being brought here from the East all the time to be smoked. It is a matter of surprise to packers and dealers why the Oregon farmers do not engage more extensively in hog-raising when the large profits of the industry are so apparent. The feeding problem is a simple one anywhere in this state, and that there will be a market for all that can be raised for a long time to come is certain.

The Condon Times says Coe Barnard, Jim Zachary, Henry Neel, Leland Steiwer and others shipped five carloads of cattle to Portland Friday. The cattle were bought by Renolds, who went with the shipment, accompanied by Steiwer.

Nineteen carloads of Baker and Union County sheep passed down the O. R. & N. from Pendleton to the Union stockyards at Portland, according to the East Oregonian. It was one of the largest shipments made from Eastern Oregon during the Summer season.

The following prices were current on livestock in the local market yesterday:

CATTLE—Best steers, $3.75@4; medium, $3.25@3.50; common, $3@3.25; cows, best, $2.50@3; medium, $2.25@2.50; calves, $4@5.

SHEEP—Best wethers, $3.50; mixed, $3; ewes, $2.50@2.75; lambs, best trimmed, $4; untrimmed, $2.50@2.75.

Skingrafting Saves Life.

NEW YORK, Aug. 10.—Believed by the physicians to have been the subject of one of the most remarkable series of skin-grafting operations that have been performed in Brooklyn in several years, Miss Catherine Gorman, 23 years old, has probably undergone the last of the operations which have saved her life. She was injured while at work in a Williamsburg store last May, when her hair became entangled in the machinery of a money-carrying device and almost all of the hair on the top of her head was torn off, carrying the scalp with it.

SELLING IS HEAVY

Chicago Wheat Market Weak From Start to Finish.

DAY'S NEWS IS BEARISH

Reports of Damage by Rust in Northwest Are Less Alarming and Tend to Increase Offerings.

CHICAGO, Aug. 10.—The wheat market was weak from start to finish and the volume of trade was large. Selling was general the greater part of the day and the market lacked any substantial support, the principal demand coming from shorts. News of the day was favorable to the bears. News from the Northwest regarding injuries to the new crop by rust was much less alarming and this tended to increase offerings of wheat here. The market closed weak. September opened ⅛@⅝c to ⅝@¾c lower at 94⅛c to 94⅝c, sold off to 93¼c and closed at 93⅜@93½c.

Additional rains in various sections of the corn belt had a weakening effect on the corn market early in the day, but the market became strong on the active demand for December delivery and elevator interests' buying of September. The market closed firm. September opened ¼ to ½c lower at 76 to 76¼c, advanced to 78c and closed at 77⅝c.

Oats were firm. September opened a shade lower at 48c, advanced to 48½c and closed at 48¼@48⅝c.

Provisions were easy. September pork was off 10 cents, lard was down 2½@5 cents and ribs were 2½ cents lower at the close.

The leading futures ranged as follows:

Average Crop Conditions.

WASHINGTON, Aug. 10.—That crop conditions in the United States were somewhat better in the aggregate (2 per cent) on August 1, last, than they were a year ago, but slightly (1 per cent) below a ten-year average condition on that date is the opinion expressed by the crop reporting board of the Department of Agriculture in a supplemental report issued today. The report mentions the crops that are above the average, including Winter wheat, hay, cotton and tobacco. Corn, barley, rye, buckwheat, apples and flax are slightly below the average, potatoes being about 5 per cent and oats nearly 10 per cent below.

B. S. KELSAY ASKS PERMIT

Would Serve Mount Scott With Gas and Water.

B. S. Kelsay, through his attorney, J. A. Finch, has filed with the County Court a petition for a franchise to construct a reservoir and lay water and gas mains in the Mount Scott district. The franchise, if granted, is to cover township 1 south, of range 2 east, and the west half of township 1 south, of range 3 east. It is estimated that in this territory there are 8000 dwellings which have poor water supply and no gas.

Kelsay says he is amply able to construct and maintain a system which will furnish an abundance of water; that he has property upon which he can construct a reservoir to hold 5,000,000 gallons. He offers to put in free 20 fire plugs, hydrants and standpipes. He is willing that the city should fix the price of the water, to conform to the present charges of the City Water Board in Portland, that price to prevail during the length of the franchise, 25 years. If the franchise is granted he offers to begin work immediately, and to have water running in the mains within six months.

As to the gas plant, he will begin work "at an early date," and have it in operation within a year. The price of gas is not to exceed 95 cents a thousand feet.

YOUTHFUL GANG ARRESTED

THREE BOYS ARE ACCUSED OF BURGLARY.

Seen Entering Second-Hand Store, Which Was Robbed of Guns and Fishing Tackle.

Richard Dell, Fred Mills and Leroy Kisor, boys about 12 years old, were arrested yesterday morning, and lodged in the County Jail under the direction of the Juvenile Court. They are accused of stealing several fishing rods, rifles, ammunition, rings, watches and opera glasses from the second-hand store of Peter Rosumny, at Front and Madison streets. The same man conducts another establishment at Third and Burnside streets, and says he has missed articles from that store which he believes were stolen by the boys. The youngsters say, however, that it was another gang which entered the North Portland store.

Eight months ago Rosumny first noticed that articles were missing. At that time $200 worth of watches could not be accounted for. Last Thursday more articles were taken from the store on Burnside street. The thieves also entered the Madison-street store. So the proprietor resolved to watch the establishment. Renting a room in the Rheinpfalz hotel, across the street, he took his position at the upstairs window, overlooking the store, and watched, but in vain. Entering the store yesterday morning he was surprised to find that the basement had been entered and some ammunition taken. Making inquiry he found that three boys had entered the building from the Jefferson street side.

The police were notified, and soon afterward the boys passed the place, and were identified by the man who had seen them the day before. The plunder was found cached under the East approach to the Madison-street bridge.

Two of the lads have been before the Juvenile Court before. Leroy Kisor was sent to the reform school, and paroled. Richard Dell was once before Judge Frazer for playing truant. The boy had been lounging about a local vaudeville theater, and gave the Court a little stage play, getting down on his knees and begging to be let off. The probation officers were referred to by Dell as "blackhearted scoundrels." The judge did not place much value however on Dell's ability as a theatrical star.

NO DOCTORS FOR SCHOOLS

CITY WILL NOT HIRE NURSE OR INSPECTORS.

Ways and Means Committee Takes Position That Expense Would Be Too Heavy.

There will be no inspectors or nurse for the city's public schools during 1908, as the Ways and Means Committee of the City Council, in session yesterday afternoon, turned a deaf ear to the appeals of City Health Officer Pohl, who asked for $900 to carry on that important work from September to January. Members of the committee said they favor such a system of inspection, and admitted that it must be had some time, but pleaded economy and lack of funds.

In reply Dr. Pohl told the members of the committee that it was the best possible economy to guard the health of the children and of the city at large and declared if there had been inspectors during the first part of the last school year, much money that was spent could have been saved. The outbreak of smallpox in the Chapman school, she said, would have been prevented and several hundreds of dollars saved in that instance alone. She expressed the opinion that it is the poorest economy to hold down the budget as to the health department, but said she realized the weak condition of the general fund, and would hope for enough in the 1909 allotment to employ inspectors and a school nurse.

An item for $2000, to reimburse the health fund, was recommended. This is to be used for sick and indigent patients, who now have to be cared for by the city, as the hospitals refuse longer to care for them without cost as they did for years.

Dr. Pohl, in a written report and statement, set forth to the members of the committee on ways and means the great need for better inspection of the public schools and the urgent call for a trained nurse, whose duty it shall be to work with the inspectors and assist parents in the care of children, especially in the foreign quarters, to prevent the spread of contagion and to explain how to treat certain cases, which, if left uncared for, would work great havoc.

"I realize the necessity for inspectors in the public schools," said Dr. Cottel, a member of the Ways and Means Committee, "but our general fund is so low that we really cannot now appropriate the amount needed for the purpose. I think it is better to hold this matter up for a while and set aside enough the first of the year."

None of the members of the committee took other view of the matter, and a motion to appropriate only the $2000 for the care of the city's sick, carried. The schools will therefore go without expert protection.

BUSINESS TRIP TO JAPAN

Portland Merchants Asked to Join With San Francisco.

Jokichi Iwaya, representing the Chambers of Commerce of Tokio, Yokohama, Kobe, Kyoto and Osaka, has extended an invitation to the various commercial bodies of Portland as well as those of other Pacific Coast cities to visit Japan this Fall. About 50 prominent merchants of San Francisco, with their wives have accepted this invitation and will leave on the steamship Tenyo Maru, on September 25. The time consumed in making the trip will be three months. One month of this time will be devoted to a tour through Japan where the members of the party will be entertained by the local Chambers of Commerce. It is the intention to have the visitors arrive at Yokohama about the time the American fleet enters that harbor and participate in the welcome to the warships.

The return trip will be made about the last of November. The entire cost of the outing for each person will be in the neighborhood of $700.

Cholera Morbus and Bowel Complaint

"Over 95 cases in every hundred of Summer complaints could be avoided," says a leading specialist, "if every one was careful to keep his system toned up with Duffy's Pure Malt Whiskey. It's the most effective germ destroyer known to the medical profession."

Duffy's Pure Malt Whiskey

is an absolutely pure distillation of malted grain; great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

It cures nervousness, typhoid, malaria, every form of stomach trouble, disease of the throat and lungs, and all run-down and weakened conditions of the body, brain and nerves. It is prescribed by doctors and is recognized as the world's greatest family medicine everywhere.

(Dose):—One teaspoonful in each glass of drinking water during the hot weather will kill all germs.

If weak and run down, take a teaspoonful four times a day in half a glass of milk or water.

Duffy's Pure Malt Whiskey is sold throughout the world by druggists, grocers and dealers, or shipped direct for $1.00 per bottle.

If in need of advice, write Consulting Physician, Duffy Malt Whiskey Company, Rochester, New York, stating your case fully. Our doctors will send you advice free, together with a handsome illustrated medical booklet containing some of the many thousands of gratifying letters received from men and women in all walks of life, both old and young, who have been cured and benefited by the use of the world's greatest medicine.

MEN ONLY $10

My Fee in Any Uncomplicated Case.

DR. TAYLOR, The Leading Specialist.

I Cure the Cases That Others Cannot Cure

A bold statement, but **just as true as** it is bold. **Not all** cases that others fail to cure are curable by my methods, but fully ninety per cent of them **are.** The way to **learn** whether your case is curable is to **consult me.** I know **exactly** what can be done in every instance. I ought to know this, for I have done nothing else other than treat men's diseases for **twenty-five years.** If your case is curable I will treat you. If it isn't I will not. If I treat you, and if you so desire,

I Will Wait for My Fee Until You Are Well

Weakness

Functional weakness in men is in reality a comparatively simple ailment, and is but a symptom of local disorder, a state of chronic inflammation of the prostate gland. No stimulating treatment, whether internal or locally applied, can do more than excite temporary activity. By my system of local treatment I restore absolutely normal conditions throughout the organs involved, which promptly results in complete and permanent restoration of strength and vigor. This treatment is original with me, and is the only radical and certain cure yet devised.

Varicocele

Varicocele is a relaxation, knotting and twisting of the most vital blood vessels of the organic system. It stagnates the local circulation and interferes with the processes of waste and repair. Neglect brings derangement of functions and injury to the general health. Most physicians resort to surgical operations and hospital treatment. I cure Varicocele in one week without operation, pain or detention from business. My cures are absolutely permanent and no ill effects whatever can follow my treatment.

Contracted Diseases

I have reduced the time required for curing contracted disorders about one-half. This is an important achievement. It replaces danger with safety. It forestalls chronic complications. It removes the infection and inflammation before that vital center, the prostate gland, can become involved. To many men it means the difference between perfect health and a lifetime of misery and functional weakness. My method is mine alone. My treatment is original. In some features it resembles the ordinary. In its chief essentials it is different. In results it is entirely different. It is safe, prompt and thorough.

The above, together with Organic Weakness, Nerve Debilitation, Lost Vigor, Specific Blood Poison, Stricture, Piles and Reflex Ailments, constitute my specialty and are the only diseases I treat.

I state nothing in my announcements but the **straight, square truth.** It will cost you nothing to call and talk over your case. You can find out all about your trouble and you can later arrange to begin treatment any time you like. My offices, comprising ten rooms, are the **largest, most elegant** and **best equipped** in the West.
