Sales of Oregon and Other Western Clips.

TERRITORY DEMAND LIGHT

Exporters Again in Market for Wheat-Apple Crop as Estimated by International Shippers.

The selling movement in Oregon wools in the Easiern markets continues fairly ac-tive. The latest mall advices from Boston report the approval of sales closed in the previous week, amounting to about 1,000,000 pounds, and the sale of a few hundred thoupounds, and the sale of a few hundred thou-wand pounds additional on new contracts. No. 1 Eastern has sold at 18c to 19c and No. 2 at about 18c. The accurred cost of the former is estimated at 58c to 60c and of the latter at 53c to 55s. On earlier con-tracts 18c to 19c was the general range, but a little choice sold at 20c. There are few Valley wools on the market. They are nominally quoted at 18c to 20c fer No. 1, 22c to 23c for No. 2, and 19c to 20c for

No. 3.

The demand for territory wools is not reported as general and the number of buyers is few. Sales for the week at Boston include Idaho, Montana and some Wyoming wool. Business in Utah, Nevada and similar clothing wools is fair at 15c to 16c, the aroured basis being 47c to 48c. Half blood clothing Utah sold at 17c to 18c, to cost 45c to 47c, a line of 250,000 pounds changing hands at 18c. changing hands at 18c.

enanging hands at 18c.

Transfers in the original bags include 500,000 pounds Montana at 20c and 250,000 pounds Idaho at the same price. Fine staple Idaho has moved at 20c to 21c, or about the older Montana staple has not said. sec, clean. Montana staple has not sold, as supplies are not on hand in any quanas supplies are not on mand in any quantity and dealers profer to wait till the wools are on hand before naming values. Still, some quote askink figures at 21c to 22c for fine, 22c to 23c for half blood, and 23c to 24c for three-eighths and quarter,

EXPORTERS AGAIN AFTER WHEAT | nut) Buying Movement Is Resumed in This Mar-

ket-Farmers Holding Oats.
A rather quiet condition still prevails in the wheat market: The large buyers sent out offers to the country yesterday and will know this morning what success they met with. The general condition of the

market was reported as firm.

Trading in the other cereals is slow. A good demand is reported for oats, but farmers have been influenced by the high prices paid for wheat and are slow sellers. The attendance of grain men at the Board of Trade was the largest since the board was organized. In wheat there was a difference of only one cent in the views of huyers and sellers, September being offered at 91 cents with 90 cents bid. Receipts were 22 cars and 7332 sacks wheat, 200 sacks oats, 1 car barley, 1110

sacks flour, 470 sacks bran and 12 cars and 557 bales hay. The range of futures was as follows: WHEAT.

FRUIT A	SSORTMES	T IS V	ERY I	ARGE
Street Is	Well Suppl	led, but	Trade	Is Not

Brisk. Front street was well supplied with all

kinds of fruit yesterday, but the demand was a little slower than usual. Receipts of cantaloupes from all sources were about a carload and coming on top of a good carry-over supply weakened the market, fancy offerings going at \$2. Two cars of watermelons arrived and sold well.

A few Early Crawford peaches came from The Dailes and sold at 75 cents. Other Oregons ranged from 50 to 85 cents. Callfornia Elbertas were held at 30 cents. Among the plum offerings was a lot of Satsumas, a blood-red variety said to be superior for cooking, but it is not well known here yet. They were quoted at 75 cents. Black and Muscat grapes are more pientiful and in good demand at \$1.25@1.50. Seedless grapes are held at \$1.25.

CONDITION OF THE EGG MARKET Only a Small Part of Receipts Will Bring

Top Price, Front street is having its usual mid-Sum-mer trouble with eggs. As is to be expected at this time of year, the general quality of the receipts is not good, and the percentage of eggs that will grade as extrus is small. There is a good demand for this quality and sales at 25 and 26 cents were reported, both on Front street and by jobbers outside of the produce district. The total egg receipts for the day were 158

Poultry receipts were not heavy, and with a fair demand the market was moderately firm at the previous day's prices. prices. Receipts were 72 boxes.

Market Advances to 32 Cents-Better Inquiry for Old Hay and Oats.

SEATTLE. Wash. Aug. 15.—(Special.)—
The egg market was materially firmer today. The presence here of 15.000 visitors
has created an exceptionally heavy demand.
All first-class local eggs were closed out at
32 cents. Ranchers are now getting 29 and
30 cents for their eggs.
The first straight car of grapes is due
here tomorrow. Peaches were scarce today.
Late varieties are not coming forward freely.
Wenatchee peaches are quoted at 75 cents
to 31.

Wenarchee peaches are quoted at 40 cents to \$1.

Beef was weak. The demand was fair, but the supply was liberal. Dressed sizers were quoted as low as 7 cents.

Wheat was dull and unchanged. New hay is not pientiful yet, except alfalfa, but this is not in much demand. Hay dealers report a better demand for old hay and oats than has been experienced in weeks.

BUY "NATIONAL STOCK"

Legal Name Bay State

I earnestly ask every man and woman to buy "National Stock." If you are a millionaire, buy 100,000 to 1,000,000 shares. If a prosperous business man, 10,000 to 50,000 shares; if a well-to-do middle-classer, 500 to 5000 shares; if a salaried worker 200 to 2000 shares; if a savings bank depositor, a tenth of your savings worth; if a workingman or woman, one share

I assume the grave responsibility of asking all to buy for three reasons.

Read them and see if they are plumb.

First-The investment will be a reasonably safe one, for, unlike all other corporations but banks and trust companies, all money paid for "National Stock" goes into the Treasury "National Stock," there to remain as money and to be as safely kept as if in the Government mint. I personally guarantee that all funds will be always on hand unless lost in the stock

BELOW SEE CHANCES FOR LOSING "NATIONAL STOCK" FUNDS IN STOCK MARKET.

Second-Your investment will aid in the greatest work of modern times—the annihilation of the System and the putting of the American people actually into the saddle.

Third-Every dollar invested in "National Stock" should return 500 to 1000 per cent profit. Mark you, I do not say will, but should. Let us examine, man-fashion, the chances for this enormous return.

The top, sides and bottom of my whole work, for which I have planned, plotted and maneuvered a lifetime, are : First-Can I sell to the American people-and Europeans high and low, here, there and everywhere, millions upon mil-

lions of shares of "National Stock"" Second-With the proceeds can I make money, that is, can I take away the money of the Rockefellers, Harrimans, Morgans-the system, through my stock market operations? Can I beat them at their own game, and one by which they have taken from the people billions upon billions of wealth, which the people earned and should have retained for themselves? It is for American people whom I have educated during the past four years to the inside workings of "The The American people who have habited themselves Game." to the game of stocks, the American people who know me, to decide.

If I can sell millions upon millions of "National stock" will take the System by the tail and swing it round and through its stock marts until the dollars plundered from the people will flow back to the people like a golden Niagara.

There should not be much doubt but that I can make the System's forces in the stock market look like Falstaff's army in front of a buffalo stampede if I have the people and the people's millions behind me. In the past I never

have been compelled to work overtime to take away from the System as many millions as were reasonably necessary and this without the people or the people's millions. Yet oftentimes I have been compelled to refuse to act as field general for the System. Looking at this end of my work cold-bloodedly, I say: It is 100 to 1 in favor of my turning every \$5,000,000 of the people's investment in "National Stock" into \$20,000,000 annually. Therefore my proposition concentrates to—can I sell to the people unlimited number of shares of "National Stock"? I believe my chances of doing this are at least 10,000 to 1.

I know how to advertise. Experts viewing the past say I do. I have never yet really advertised. "I WILL ADVERTISE NATIONAL STOCK." In my advertising I believe I will outpatent medicine the most successfully advertised patent medicine, and that in my coming campaign, having for its end the making of 20,000,000 stockholders for "National Stock," I will out-Barnum Barnum. I assure the public I stop at no honest method to get this stock into every nook and corner of the world. I repeat: The one question for every one to decide is: Will I be able to sell "National Stock" everywhere and to every one by continuously raising the price and by giving large returns to all buyers from the tremendous profits which I will make in the stock market? If your answer is yes, and it must be, buy "National Stock," buy it now, before the beginning of my next advertising campaign, which will be entirely different from this one. It would seem that even the fence viewer should be able to answer the question; why should people, who know nothing of the stock game, play it against experts, when they can become owners in the most perfect expert machinery which ever tackled "The Game," machinery into which will go all the stock market profits of successful experts? Mull this over.

Also this. In stock market affairs one must not only know the game, have capital enough to play it and machinery to play it with, but one must be nimble as a nimble cat.

For instance: "The street" and the public last week knew I had bought an enormous line of smelters between 60 and 70, that I was shouting from the housetops, "Buy it," that it jumped to 107 and that then, quick as a flash I dumped my entire line onto "The Street." Why? Between one jiff and another I saw the whites of the System's eyes and they were red and I dumped. The System and "The Street" loaded with stocks and in the middle of a big bull campaign could do nothing but take my stock or havoc would have been to pay all along the line. And they took the stock and I the big profits. Smelters dropped to 97 and I am buying again 10 points less than I sold. This is the stock game as it is played and as "National Stock" will play it.

I repeat: Buy "National Stock." Buy it now. Buy it through any New York, Boston or Philadelphia stock exchange or responsible curb house.
