Readville to Have Trotting Derby Without Gambling—Bryan Given Big Gourd and Contrasts It With Big Stick.

FAIRVIEW, Lincoln, Aug. 13.—Invitations to deliver speeches came thick and fast today upon W. J. Bryan. California's request for a visit again pressed upon him by Charles E. Dolman, of San Francisco, with the result that the Democratic candidate is giving the matter serious consideration.

Presented With Big Gourd.

A notable incident of the day was the presentation to Mr. Bryan by several hundred farmers from Otos County, Nebraska, of a "big stick" gourd, grown in that state. It is about five feet in length and nearly as wide as it is high.

Mr. Bryan referred to the fact that 30 farmers on their way to Lincoln subscribed to the campaign fund, and repeated the charge that the Republican campaign fund comes from the big corporations.

Clayton Compliments Lincoln.

Mr. Clayton, upon leaving the Bryan home, expressed himself, in a statement given out for publication, as having been delighted to attend the people's enthusiastic attendance of the people.

INCITE RIVALRY OF STATES

Democratic Plan to Raise Campaign Fund by Subscription.

CHICAGO, Aug. 13.—The Democratic National campaign funds of 1908 will be raised through appeals made to individuals for contributions. Each state, under the direction of the National committee, will designate a financial representative designated for the purpose, will determine its own method of raising money.

The members of the financial committee, of which Colonel Moses C. Wetmore, of St. Louis, is chairman, generally agree that between \$500,000 and \$1,000,000 will be required to finance the legitimate expenditures of the coming Presidential struggle.

SETTLES CHURCH DISPUTE

Bacon Compromizes Catholic Land Claims in Porto Rico.

SAN JUAN, P. R., Aug. 13.—After having satisfactorily settled the question in dispute between the regular government and the Catholic Church in Puerto Rico, arising out of the control of estates formerly owned by the Dominican and Franciscan orders, Assistant Secretary of State Robert Bacon sailed for New York yesterday on the steamer San Juan.

The church land question in Porto Rico involved the right of the Roman Catholic Church to control various property and lands and the lands occupied by the infantry barracks, paying therefor \$120,000. The insular government will receive, if the agreement is sanctioned by Congress, control of the San Domingo convent building and its lands and the lands occupied by the infantry barracks, paying therefor \$120,000.

TAFT MAKES NO COMMENT

(Continued From First Page.) The National chairman since the organization for the campaign began," said Mr. Taft at breakfast.

"The amount of work that has been done is surprising, but definitely another at one sitting of more than three hours. Throughout there was nothing but the most harmonious and cheerful spirit reached. Particularly was this the case in handling the Ohio situation. There has been no opportunity for an adjustment of the campaign details between Mr. Vorys and Mr. Hittcock. Mr. Vorys was desirous of putting the National chairman in possession of many threads of the state campaign which could not be reached in their character. At the same time it was desirable that arrangements should be made for carrying on the routine features of the work directly between the National and state committees, and all this was adjusted. With Mr. Hittcock's methods I am more than satisfied. He has wonderful grasp on the work he is doing and plans a long way ahead."

AERPLANE MEETS WITH ACCIDENT

Wilbur Wright Tries Experiment in Descending and Breaks Machine.

DAMAGE IS NOT SERIOUS

Aviator Attempts to Make Landing by Stopping Motor and Gliding to Earth—Tests Will Be Somewhat Delayed.

LEMANS, France, Aug. 13.—The Wright aeroplane which crashed this morning, which will require several days and possibly a week to repair. After two new and startling methods of descent. He stopped the motor at a height of 75 feet and tried to come to earth on a gradual descending glide. The calculations were not absolutely correct and the execution of the aeroplane came in contact with the ground. This tore the frame of the machine. Mr. Wright was not injured.

Mr. Wright said he did not regard the accident as serious, and explained that these were only incidental experiences devoted to acquiring complete mastery of the difficulties of aviation and the execution of new maneuvers. Mr. Wright's first flight this morning eclipsed all his former efforts. He made several complete tours of the field over the tops of the trees. According to the official time he was in the air 8 minutes and 33 seconds. The aeroplane passed over a 15-mile breeze, but in spite of this he was in the air 8 minutes and 33 seconds. The aeroplane passed over a 15-mile breeze, but in spite of this he was in the air 8 minutes and 33 seconds.

ZEPPELIN PRAISES WRIGHT

Has Best of Wishes for Fellow-Worker in Aeronautics.

FRIEDRICHSHAFEN, Aug. 13.—Count Zeppelin made the following statement today to the Associated Press:

"I am heartily gratified at the success attained by Wilbur Wright at Lemans, the more so because I always have considered the efforts of Americans as greatly advancing the final solution of the aerial problem. This was so, even during the period when others said aerial navigation was all a humbug. I cannot see, however, that Mr. Wright's success will minimize that of my airships. While I readily admit that the trickiness of balloons always must be recognized with, however, I can see no means of conveyance certainly is superior to the aeroplane.

The aeroplane requires great dexterity and long practice for flight. I do not mention the inability of the aeroplane to ascend to any great altitude nor its limited scope of action, because improvements in this respect are only a question of time. But let us say, for instance, that in time of war an airship and an aeroplane were reconnoitering the position of the enemy. The results obtained by the aeroplane with the present apparatus would of necessity be unsatisfactory, because it is necessary for the single person on board the aeroplane to give his entire attention to the management of the machine. This work requires great concentration and leaves neither time nor opportunity for observation.

"On the other hand, a balloon can carry a number of persons who can devote all their time to observation. Both the aeroplane and the navigable balloon may perish in a storm or be destroyed by projectiles; both are imperfect as yet."

"I hope Mr. Wright will continue his splendid flights. We mean to learn as much from him as he does from us. We are putting in the same things and common experiences will lead to the accomplishment of our common purpose."

In conclusion Count Zeppelin said he desired to send through the Associated Press his hearty thanks for the numerous messages of sympathy he had received from all parts of the United States since the loss of his balloon.

MURDER AT GRASS VALLEY

GRASS VALLEY, Cal., Aug. 13.—John Richards was shot and instantly killed today by a young farmer named Moulton, upon the latter's ranch in the Chicago park district. Few details have been received, beyond the fact that Richards was warned away from Moulton's place several times last night, but returned this morning and attempted to enter the house. Richards is said to have raised the motor bullet with the intention of assaulting him, when the latter shot him dead with a rifle. Moulton surrendered and is now in jail.

TAFT, MONTANA, IS BURNED

New Town Near Missoula Destroyed at Early Morn.

MISSOULA, Mont., Aug. 13.—The explosion of a kerosene lamp is responsible for a fire which broke out at 5:20 o'clock this morning and destroyed the greater portion of the town of Taft, Mont., located about 100 miles west of this city and having a population of about 350. The fire was only extinguished by the most strenuous work on the part of the residents. The loss is estimated at \$50,000, with no insurance.

Fifteen buildings were burned to the ground, including the Taft Hotel, the Northern Pacific depot, the Siegel drug-store and wholesale liquor house and two variety theaters, the Spokane and the Arcade. The principal losses were the contents of the buildings, which, as a general rule, were fire-insured.

Rebuilding operations have already been commenced.
