TRIP NOT PLANNED AS POLITICAL TOUR

Campaign Speeches Suggested Only After Judge Parker Had Come West.

SEES SIGHTS OF PORTLAND

Distinguished Democrat Is Entertained by Oregon Party Leaders and Is Greatly Pleased With This City.

"The visit of myself and Mr. Nicoll to the Pacific Coast at this time was intended by us as a sort of play trip," said Judge Parker yesterday, "but we had scarcely reached California until we were called into the harness and urged to deliver a number of political addresses. Early last Winter Mr. Nicoli and I concluded that we should visit the Pacific Coast States at this time and become personally acquainted with and become personally acquainted with one section of the country, the only information of which we had was that gathered from reading. We have been fully compensated for the trip and are satisfied that this section of the coun-

satisfied that this section of the country fully measures up to the rather extravagant claims that have been made for it.

Aside from saying that it would be a fortunate thing for the country should the Republicans lose control of the administration of its affairs, Judge Parker declined to discuss political affairs and faithfully sustained his reputation as the "sage of Esopus." The distinguished jurist would venture no forecast as to the result of the contest between Taft and Bryan. He thilmated strongly that many surprises would develop during the campaign, the very nature of which defied any man intelligently to forecast the result of the November election at this time.

Does Not Favor Big Funds.

Does Not Favor Big Funds.

Judge Parker emphatically disap-proved of the growing tendency on the part of both parties to raise enormous campaign funds and declared with equal emphasis that it would be better if the two organizations would return equal emphasis that it would be better if the two organizations would return to the simple campaign methods of years gone by, when torchlight processions by men in uniforms better served the purpose of arousing enthusiasm. Party loyalty and the satisfaction of seeing their party win, asserted the distinguished jurist, should be the proper animus of the members of any party rather than to resort to the prac-

proper animus of the members of any party rather than to resort to the practice of raising large campaign subscriptions with the expenditure of which there always is associated charges of graft and corruption.

Judge Parker, accompanied by De Lancy Nicoll, ex-District Attorney of New York City, arrived in Portland at 7:15 o'clock yesterday morning from San Francisco. They were welcomed to the city by the members of an early-rising reception committee of which F. V. Holman was chairman, and escorted to the Portland, where reserescorted to the Portland, where reservations had been made. At 10 o'clock automobiles were provided and the visltors were shown about the city, luncheon being served at the Commercial Club at noon. In addition to Judge Parker and Mr. Nicoll, the luncheon party included F. V. Holman, chairman of the reception committee; Alex Sweek, chairman of the Democratic state cen-tral committee; State Senator M. A. Miller, National committeeman for Oregon; C. K. Henry, delegate to the Den-T. G. Greene, S. Garland, of Lebanon; State Senator J. E. Hedges, of Oregon City, and W. H. Holmes, of Salem, who presided as chairman at the public meeting at the Heilig last night.

Auto Ride Throughout City.

Another automobile ride was arranged for the afternoon, when the visitors were accompanied to the Forestry Building and the various saw-mills surrounding the city. Both of the New Yorkers were interested observers of the different plants and sat-isfled their interest in this important industry by a thorough inspection of the plants visited. They declare the Forestry Building was the greatest sight they had seen on the Coast. Between 3 and 6 o'clock yesterday after-noon an informal reception was held at the Portland, where Judge Parker and associate met many prominent Portand people.

Today Judge Parker and Mr. Nicoll

will enjoy a ride up the Columbia River, returning to Portland tonight in time to take the midnight train for coints on the Sound.

points on the Sound.

Physically Judge Parker in no respect compares with the published portraits of himself. One would judge from the different printed likenesses of him that he was a man about five feet six inches tall, weighing not less than 200 pounds, dark complexioned with black hair and moustache to match. On the contrary, he approaches close to the six-foot mark and probably would tip the scales at 180 pounds. His hair is of an auburn shade, with a moustache of the same color, and he has a reddish complexion. He is pro-nouncedly of athletic build that is emphasized by a grip which makes the timid handshaker squirm. Judge Parker is a gonfirmed horseback rider, and when at his home in New York state takes a ride every morning from 7 to 3 o'clock. He is also a frequent visitor

TARIFF REVISED WANTS

Jurist Declares Republicanism Is Leech on Body Politic, in Speech Launching Democratic Campaign in Oregon.

(Continued From First Page.) undertook to show that the Republican party at all times had sought to perpetu-ate this policy, which, he alleged, operated to exact from the people an just tax.

"We are all convinced that there are evils in the body politic which require the attention of the American people," said Judge Parker. "For years these evils have been allowed to develop and the time has arrived when they should be checked. There is a difference of opinion as to the remedies that should be applied to bring about that result. It is an admitted fact that the great majority of men are honest, and the question naturally arises, who is responsible for the condition that has arisen by which a few have secured to themselves emoluments at the expense of the many?"

Strikes at Federal Control.

The subject of centralized authority as proposed under Federal control was scored vigorously as a direct conflict between the those of the individual states. Federal with the Federal Government.

"When these interests said the state selves the very power to prevent the inselves the very power to prevent the injustices of which they complain. It is an old law. The failure to enforce this law is not due to the judiciary but to the executive officers who have failed to enforce the laws which prevent the organization of combines in restraint of trade.

"Who is responsible for this conditions and the second reference of the contribution was given by the man with the sore contribution was given by the man with the sore contribution was given by the man with the sore contribution. is not due to the judiciary but to the executive officers who have falled to enforce the laws which prevent the organization of combines in restraint of trade. "Who is responsible for this condition by which these abuses multiply more than mosquitoes on a New Jersey coast? All states have in their posses-sion and control the very measures to suppress these interests. Combinators are allowed to grow without any at-tempt to restrain them. From 1896 to 1905, including the first five years of President Roosevelt's administration, nothing was done to restrict these unlawful combinations.

Reviews Effects of Tariff.

"From 1876 the Democrats have contended that the inevitable result of a high protective tariff would be to create trusts, and subsequent events have justified that conclusion. The tariff has enriched only the persons engaged in manufacturing pursuits; it never has fixed wages, which are regu-lated entirely by the question of supply and demand. The reason the steel and other trusts were created was in order to require the consumer to pay as great a price for the product as the tariff would permit them to exact. Even the railroads have been compelled to pay \$8 more a ton for steel rails in this country than the same product sold for in England.

England.

These same interests contribute regularly to the Republican campaign
fund. Why? To prevent the Democrate from securing control of Congress and tinkering with the tariff.
That is the only reason back of the
demand of the Republican National
Committee for subscriptions from all of Committee for subscriptions from all of the large manufacturing concerns. The real purpose of these subscriptions natrally is the control of Congress and the Presidency. It has never been nec-essary for the contributing manufac-turing interests to have a written agreement with the Republican party that the tariff would not be disturbed. The request of the Republican party for these subscriptions has carried with it an implication that no reduction in the tariff would result."

Evils of Campaign Funds.

If only for this year. It is the intention to make the Fair a permanent annual feature of this section.

Judge Parker charged that the demoralizing influence of large subscriptions in National campaigns had extended to the conduct of political affairs in the different states. He referred to the fact the uprisings in Honduras were a part of the last day for discount on East Side gas bills. Portland Gas Company.

dency, he came in contact with young dency, he came in contact with young collegians who were distributing boodle among the voters. He asserted that the future of the country would be stiffed unless all relations between the business affairs of the country and the Government were severed. His declaration in favor of a law that would make it a penal offense for any corporation to contribute any funds towards a political campaign was received with tremendous applicate.

To the Republican party was attributed To the Republican party was attributed all of the blame for the existence of trusts, while the carapaign subscriptions of these special interests, it was alleged, successfully muzzled the dominant party from all hostile legislation. "It is not more laws that we need, as I declared in my speech of acceptance of 1904," said Judge Parker, "but the enforcement of those we already have on our statute. we already have on our statute

books.

"The Republican managers rejected the proposal of Bryan for publishing all campaign subscriptions before the coming election and the members of Congress viewed the request with amusement. In order further to prevent a recurrence of the request, the Republicans retailated by proposing a measure by retaliated by proposing a measure by which the representation of the South-ern States in their National convention would be reduced.

"I leave this argument to your con-sideration. If you believe it vote for Bryan and Kern. Mr. Bryan has been active for several years in bringing homthe people the same issen advocating tonight."

Federal control was denounced as an unjust for the trip in order to salve his consumpation by the President of the powers reserved by the states to themselves.

The speaker charged that in the creation of trusts and predatory interests the real purpose was to persuade the people that the fault did not rest with the states but with the Federal Government.

Science. Since he insisted on making the payment, Mr. Charlton took the money and accounted for it by making out a Ticket to Tacoma, cancelling it, and writing an explanation of the affair on the back. This will go through the hands of the auditor in the general offices at St. Paul and the money will increase a gen-eral fund kept by the railroad company and augmented every little while by just governments were derelict in their duties, they told the truth," followed Judge Parker. Portland Will Regain Hill Dining Service.

REMOVAL ONLY TEMPORARY

Trade That Has Been Removed to Seattle Will Be Given to This City on Completion of North Bank Road.

Although the Northern Pacific has noved its dining-car service department to Seattle from Portland, officials of the Hill system give assurances that when the new North Bank road starts trains out of this city, the business formerly done here by the dining-car service will be resumed. The removal to Seattle, it is said, is only a read-justment of the dining-car service, and all Hill trains originating here will be supplied from the commissary depart-ment of the Spokane, Portland & Seat-tle, upon the completion of the line into the city.

Very recently the management of the Northern Pacific commissary de-partment removed its headquarters Conscience-stricken because he trains running from this city over the trains running from this city over the trains running from this city over the Hill line were supplied with provisions for the dining-cars from Portland for the dining-cars fr years ago, a man who refused to give his stores, the local commission merchants name paid \$4.35 to Assistant-General Pasand markets deriving a business of several hundred dollars a day from this

ment, lorcal merchants presented the situation to the Chamber of Commerce and Assistant Secretary Mosessohn took the matter up with F. H. Fogarty, as-sistant general freight agent for the Hill line. Mr. Fogarty wrote a letter to the Chamber of Commerce setting forth the facts that the commissary department is in the process of reorganization, and that as the Spokane, Portland & Seattle will create a similar department here, it will be unneces-sary for other Hill lines to maintain another supply depot, when all trains leaving Portland over the Hill roads may be supplied from the same source. In this event, Portland will not lose any of the business of this kind it has formerly had, but will reap the advantage of having the Spokane, Portland & Seattle dining-cars to supply, in addition to the Northern Pacific, together with the diners of Great Northern trains that may be routed down the North Bank to Portland over the new line. The city will lose nothing by the centralization of all this business under one department, and the new arrangement will mean a larger volume of purchases of dining-car supplies in
