DEMAND MUCH BROADER

Change in the Market Indicates Improved Business Conditions in Other Lines-Active Buying of Fruits.

The revival of interest in the hide market e one of the most encouraging eigns of the returning of normal conditions in the East-States. The hide market is exceedingly sonsitive to monetary conditions and is so clusely related to other lines of business, the ather and shoe trade, the packing industry, etc., that any improvement in its cor ition is but the reflection of betterment in ner pranches of industry. When the ioney troubles occurred last Fair the hide servet was the first to suffer and in it the ump in prices was greatest, quotations at the misimum being only half what they

The side has furned now and prices have general upward tendency, though the course values is likely to be interrupted at times temporary market conditions. At the moment there is a good demand all over the untry and prices are firmly maintained. In the local market saited hides are quoted at 768 cents and calf skins at 12613 cents, ith green hides a cent less. Dry hides are held at 14615 cents, dry kip at 13 cents and

In its intest issue Dun's Review says of the general hide market:

Packer hides are well sustained at late seiling rates, but most sales recently have been of a scattering nature and in some instances at 4c over figures quotable on large blocks to big buyers. About mid-week the United States Leather Company entered the arket for a block of about 25,000 branded hides, including all kinds of these. Cattle ve stock and this class of hides is closely, sold up in both steers and cows, with prices firm at late selling rates. The small kill throughout country districts limits the receipts of short-haired country hides, and as the demand for these is good, tanners have desirable lots. Country hides have advanced egain, with asies of buffs in Chicago at 11%c. The foreign hide markets continue excited and the Paris aucting sales about the first of the month resulted in extreme advances g from 12 to 28 per cent on heavy Latin American dry hides are a full cent higher than a week ago, with advances of the between mies."

WHEAT MARKET NOT VERY ACTIVE Builish Views of Farmers Keep Down Volume of Business.

There was no change in conditions in the wheat market yesterday, Exporters are in the market, but sellers are backward and the quantity of wheat changing hands is not

and 1264 sacks barley, 13 cars and 900 bales

and 1286 ancks bariey. 13 cars and 900 bales hay and 1 car rolled oats.

E

Hope are slowly coming out of the burr, much more slowly than usual and some grow-ers express the oginion that some will not get out at all. Rain is again much needed at this time. Our advices from the other hop counties of the state agree that the crop will be one-third short on the average, as predicted of the crop in Schoharie County.-

less than an average yield, the vine looks healthy and bright and a hop of fine quality is looked for. Hop-picking will be with us within three weeks.—Morrisville Leader.

There is no change in the hop situation. The continued dry weather is retarding the smooning crop considerably. They are coming out of the bury very slowly. A little rain would improve matters somewhat, but could not make up for all that has been lost,-

his Country and many growers report that Hee are on the increase. Some yards are also effected by honey dew to some extent. Hope are now in the burr and the unfavorable conditions noted have had the effect of checking the growth .- Malone Gazette.

ANOTHER ADVANCE IN EGG MARKET Extras Quoted at 26 and 27 Cents-Poultry

HEAVY DEMAND FOR FRESH FRUITS

Watermelons and Peaches Are the Most Active.

The het weather made a good demand for fresh fruit and the jobbers are glad to see

Upward Spurt in Union and Southern Pacific.

STRONG METAL STOCKS

Great Northern and Northern Pacific Affected by Rumors of Hill's Illness-Demand for Money Is Light-Bonds Irregular.

NEW YORK, Aug. 18.—In its essential fea-tures, today's stock market was largely a repetition of yesterday's. Prices moved with the same uncertainty, the buying and selling representing for the most part the operations of the professional element. Trading during the early semion was in larger volume than in the previous day, but later became listless and devoid of significance.

There was an early drive against Great Northern and "Northern Pacific, based on rumors of the serious illness of James J. Hill. Although these reports were soon authorita-tively denied, those stocks held heavy throughbut. Part of the day's board-room gossip dealt with the possibility of a reduction in the Great Northern and Northern Pacific dividends, but Insamuch as action on these dends is still some two months off, this was

not taken seriously.

In the industrials, American Smelting and Amalgamated Copper were active and strong in spite of the belief that conditions in the metal trade are less favorable than they were In the final hour, shorts were hastily drive

to cover by the sharp upward movement is Southen Pacific and Union Pacific, togethe with advices from the West of further cro Demand for money is very light, all call loans recorded today being made at 1 per cent. Bonds were irregular. Total esies, E. 472,000. United States 2s registered advanced 14 and

the coupen 2s, 3s and 4s registered advanced & per cent on call.

PORTLAND LIVESTOCK MARKET. Prices Current Locally on Cattle, Sheep and

There is a much firmer tone in the sheep market, with the falling off of supplies. The available quantity in the Valley is about gene, and the trade will have to depend in the future on Eastern Oregon and the sheep districts further east. While prices are quoted strong, they are as yet no higher. The hog market is also strong, with prime stock in good demand at top quotaflons. Cattle, sheep and lambs hold about steady. Receipts yesterday were 140 hogs and 56 cattle.

The following prices were current on livestock in the local market yesterday:

CATTLE—Best steers \$8.75@4; medium. \$3.236.3.50; common. \$5.83.2.5, cows best. \$2.50.82.75; lambs, best trimmed. \$4: untrimmed. \$3.20.83.75.

HOGS—Best. \$6.50.87; medium. 5.75.86; feeders. \$5.50.85.75.

Eastern Livestock Markets.

GIVES LIFE TO CORPSE Hospital Surgeon Forces Dead Man to Breathe Again.

NEW YORK, Aug. 18 .- Oscar Culver was dead for three minutes in the East-ern District Hospitai, Brooklyn, yes-terday. Then by means of a powerful heart stimulant and artificial respiration to get his lungs into play again, the doctors brought him back to life. Culver lived through the night, never recovered consciousness. He died

Culver was 29 years old. He had been in had health for a long time, but up to four weeks ago worked in a rolling mill. His physician found that Culver had consumption complicated by rheumatism, and a fortnight ago had him removed to the hespital. Last night the nurse in the ward reported that Culver was dead.

It happened luckily for Culver that
Dr. Michael Jaffer, of the visiting staff,
was in the office. Dr. Jaffer believed

Culver was dead, but said he wanted to He hurried to the ward where Culver lay and made some of the tests for death. The pupils of Culver's eyes did not respond to irritation. He was pulseless at the wrist; his heart was not beating; he had ceased to breathe, and to all appearances he was dead as a man could be. Still hurriedly Dr. Jaffer injected under the skin and over the heart of the seeming corpse one-tenth of a grain of strychnine. In-stantly, too, Dr. Jaffer performed artificial respiration, trying to inflate and empty Culver's lungs systematically, as in natural breathing.

Three minutes had passed since Miss

Ryan had thought Culver died, when he sighed over so faintly. All the doc-tors in the hospital instantly heard the astounding news and hurried to his cot; they relieved each other in keeping up artificial respiration. Pretty soon Dr. Jaffer listened intently, heard Culvers heart flutter; then, feeling his radial artery, the doctor detected a slow, weak pulse, breathing became slower and the pulse steadier. Then he opened his eyes and stared fixedly into the world from which, by all signs known to medical men, he had made his THE UNITED STATES NATIONAL BANK

WHEAT FIRM AT CHICAGO

Winnipeg Reports New Wheat Arrival at Earliest Date on Record-Corn and Oats Are Very Strong.

CHICAGO, Aug. 18 .- Wheat displayed mod erate firmness all day, but the volume of trade was small. Weather in the Northwest was again ideal for harvesting and the four of a speedy heavy movement of the new crop had a tendency to restrict trade. Wincrop had a tendency to restrict frade. Win-nipeg reported the arrival of the first car of new wheat, which is the earliest arrival of new wheat at that point on record. These bearish influences, however, were completely offset by the steadiness of the Liverpool mar-ket and by an advance of more than I cent in corn and costs. Small primary receipts also aided the bulls. The close was firm. September opened unchanged to Mc higher at 91% winter advanced to 225c and closed

at \$13.691%c, advanced to \$25c and closed at \$25c.

Reports of damage to the maturing crops in Missouri, Illinois and Indiana caused decided strength in the cora market. Sep-
