this afternoon, after which it was officially given out that in order to avoid the danger of a collapse of the annexation movement, the government had decided in a spirit of conciliation to accept the action of the chamber with regard to Congo finances. The members of the ministry will, therefore, retain their portfolios.

The situation regarding the annexation of the Congo Independent State was thrown into great confusion last year by the action of King Leopold in withdrawing the control of the crown domain, the richest part of the Congo, from the regular Congo administration in order to prevent the passage of the domain to Belgium should annexation be consummated.

Forced King to Act.

This action was bitterly resented by the friends of annexation in Parliament as a usurpation of Belgium's national heritage and the opposition

became so great that in February of this year King Leopold changed his attitude on this matter and agreed to abandon the crown domain and the crown foundation to Belgium, stipulating that Belgium should not only assume all the Congo obligations, amounting to \$21,000,000, but undertake also to continue the King's usufruct in the Congo's revenues during his lifetime.

Belgium was required specifically to respect the concessions granted to two American companies in 1905, in which Thomas F. Ryan is interested. The stipulations were embodied in the final draft of the treaty.

Under the terms of the treaty the Congo's revenues are charged with the following annual allowances: Twenty-four thousand dollars to Prince Albert, son of the Count of Flanders, brother of King Leopold; \$15,000 to Princess Clementine, the King's third daughter, and, as an especial token of gratitude to the King, the sum of \$10,000,000 in 15 annual installments for his use in maintaining hospitals and schools and forwarding scientific work in Africa. Furthermore Belgium must expend the sum of \$9,000,000 in which contracts have already been made.

King Retains Interests.

In addition King Leopold retains in fee simple 40,000 hectares of land at Mayumbe for coffee and cocoa growing experiments, and during his lifetime he is to enjoy his interests in the Congo concessionary companies and the property in Belgium and France which he purchased out of the funds of the Congo foundation.

UPON THE DEATH OF THE KING ALL THIS PROPERTY WILL REVERT TO BELGIUM.

SPRINGFIELD, Ill., Aug. 20.—Springfield was inflamed tonight by a report that Rolla Keyes, a 17-year-old boy, who testified before the special grand jury, when that body indicted George Richardson for an alleged attack upon Mrs. Mabel Hilliam, had been shot by friends of the accused negro. Before the rumor had time to spread far, however, it was discovered that the shooting was accidental, the wound having been inflicted by a bullet from a revolver belonging to a companion of Keyes. surrounding the disappearance of Gertrude and Dorothy Behn, daughters of Jacob Behn, one of the wealthiest residents of Southern Wisconsin. The girls, 11 and 12 years of age respectively, have not been seen since their parents left them swinging in a hammock on the lawn at home Monday night. It is thought they were kidnaped and are held for ransom.

Another tangle is the receipt by Mrs. Behn, stepmother of the missing girls, of a note several weeks ago, warning her that a plot was on foot to steal the girls. Members of the household say that Monday night a closed carriage was driven up to the Behn gate. It is declared that a voice was heard sharply commanding the girls to enter and that they obeyed. The horses were whipped up and the victims rapidly carried away.

After an unsuccessful search by relatives and local authorities, Mr. Behn came to Kenosha last evening and engaged detectives to work upon the case. Several years ago the girls' mother died. Twelve months ago their father, Mr. Behn, was shot by a man named Mrs. Anne Schenkenberg, of Milwaukee. The stepmother appears to have been well liked by the children and not a word of dissatisfaction in their minds has ever been uttered by them in public.
