PACK WILL BE LIGHT

Output of Canned Vegetables Showing Decrease.

ESTIMATES BEING CUT

Jobbers Not Disturbed by the Prospect of Short Deliveries—Local Millfeed Market Stronger. Fruit Trade Active.

That the American pack of canned vegetables will be a light one this season is now assured, reports from the different packing sections of the country fully confirming the early expectations of shortage, which were based on the prolonged dry weather during the Spring and early Summer. The subsequent rains came too late to offset the effect of the drouth.

Estimates of the probable tomato pack in Maryland, Delaware and New Jersey are subject to constant cutting. Very many of the canners in those states now believe that they are not likely to get more than half a pack. At a meeting of the Tri-States Packers' Association, reports submitted by its members induced that organization to issue a statement to the effect that the pack will not exceed 70 per cent of a normal output in the several states covered by its membership. The New York State pea packers will deliver much less than the face of their contracts, it is said. Some of them will be 50 per cent short on their deliveries, while those who will make the fullest shipments are understood to fall 25 per cent short of their contract obligations. Corn prospects, so far as Maine is concerned, are reported to be good and if weather conditions continue favorable full deliveries will be made by packers in that section, the latest advices state. Corn conditions in New York are irregular and most of the packers, according to reports, will make short deliveries, the estimated shortage being from 30 to 50 per cent. In the South corn prospects have been improved of late by favorable weather conditions. Still some of the packers there decline to take chances and are out of the market at present as sellers of futures.

The shortage in the probable pack of vegetables is not disturbing the jobbing trade. In fact, there is apparent a feeling of relief that short deliveries are likely to be the rule. This may be traced to the fact that the retail trade has bought fewer futures than for many past seasons, and still turns a cold shoulder to efforts to induce them to anticipate their wants. In other lines of futures, business is anything but active.

MILL FEED MARKET IS VERY FIRM

Demand Exceeds the Available Supply. Wheat Is Quiet.

The local mill feed market has taken on a very firm tone. The demand is improving and large handlers report they have orders larger than they can fill. The San Francisco market is strong and advancing.

There were no new developments in the wheat market yesterday. Trading was small and previous quotations were repeated.

Grain prices were unchanged at the Board of Trade. Receipts for the day were 32 cars and 2679 sacks wheat, 2 cars and 268 sacks oats, 7 cars and 800 sacks barley, 1700 sacks flour and 14 cars and 1718 bales hay.

The range of futures was as follows (f. o. b. warehouse, Portland):

MOVEMENT OF CALIFORNIA FRUIT.

Pears and Peaches the Leading Articles Shipped.

Shipments of California deciduous fruits in the past week are reported by the California Fruit Distributors as follows:

Peaches, 203 cars—Shipment has been steady, with a small decrease and the same condition will prevail for the next week. There will be more cling stones available for shipment than any other one variety and these, of course, will mostly go out to special places and on orders. Beginning about August 25 Salways will be ready to go out in carload lots.

Plums and prunes, 70 cars—Available supplies are getting less and less and will continue to drop off now slowly until the end of the season. The shipment for the next seven days will be lighter than for the preceding seven days. The shipment of plums and prunes from California to date has exceeded that of any other season.

Bartlett pears, 268 cars—A decrease in shipment for the seven days, and for the next seven days we will again have the same comparative decrease. Quality of fruit going forward still continues fine and they will continue to be of the same general character. The Fall pears that have already gone forward have given good satisfaction.

Grapes, 99 cars—Malagas have gone out quite freely during the week and their shipment will remain steady for some little time yet. Quality is reported as being O. K. Black Prince, Rose Peru, etc., will be generally available for carload shipments this week. The quality of these varieties is also good. Tokays are coming on nicely and growers are still showing disposition not to ship them until they are fairly well colored and sugared.

CANTALOUPES AND PEACHES FIRMER.

Lighter Supplies in the Local Market—Demand Is Active.

There was an active demand for good fruit of all kinds. Receipts of peaches were not as heavy as on Thursday and the market was stronger.

Cantaloupes were also quoted firmer at $1.50@2. Among the receipts was a fine car of cantaloupes from Mantica, Cal., and a shipment of excellent stock from Hood River. Some of the cantaloupes coming from other Oregon sections were poor. Five cars of watermelons and a mixed car of California pears and peaches also arrived.

Cheese Shipments Are Large.

Heavy shipments of cheese are being made to Seattle and the strong inquiry from that quarter keeps the local market on a firm basis. Butter, at the new price, which went into effect yesterday, moved as actively as ever. Receipts of butter for the day were 90 boxes.

Poultry arrivals continue light and all kinds of chickens are firm. Eggs rule steady at the old prices. Egg receipts yesterday were 214 cases.

Potato Quotations Lower.

The potato market showed a weaker tendency yesterday. Buying for early shipment to Alaska has practically ceased and with the closing of these operations and the slower demand, prices sagged somewhat. For the choicest stock $1.10 was the top price offered by buyers.

Bank Clearings.

Clearings of the Northwestern cities yesterday were as follows:

	Clearings.	Balances.

BUYING IS HEAVIER

Distinct Improvement in Distributive Trade.

FEELING OF CONFIDENCE

Better Inquiry for Lumber Affects Prices—Collections Are More Prompt—Features of Iron and Steel Trade.

NEW YORK, Aug. 21.—Bradstreet's tomorrow will say:

While conservatism still affects purchasing, the number of buyers in leading Northern and Western centers is very large and there is a distinct gain in the jobbing distribution of Fall and Winter dry goods, shoes, clothing, hats and millinery. Optimism as to the future is noted and the practical completion of the grain harvest, especially of Spring wheat, and the advance of the corn crop toward maturity have made for an accentuation of the more confident feeling.

Among the leading industries the most notable feature is the general expansion in inquiry for lumber, with prices showing a distinct hardening and preparations making for the resumption of operations at mills in the South, the Northwest and on the Pacific Coast.

The features in the iron and steel trade are the quietness in pig iron and the improvement in the demand for railroad supplies, such as light track material and cars.

Relatively the best reports as to jobbing trade distribution come from the Southwest and the states west of the Mississippi.

Collections show signs of improvement, especially where the early crop movement has begun, but there are a number of reports of lagging settlements and payments as a whole are not yet up to normal.

Business failures in the United States for the week ending August 20 number 236, against 249 last week, 153 in the like week of 1907, 155 in 1906, 156 in 1905 and 185 in 1904. Canadian failures for the same period number 39, which compares with 31 last week and 19 in the corresponding week of 1907.

Wheat, including flour, exports from the United States and Canada for the week ending August 20 aggregate 3,907,779 bushels, against 3,760,272 last week and 4,565,347 this week last year. For the eight weeks ending August 20 this year, the exports are 22,772,848 bushels, against 22,476,540 in the corresponding period last year.

IRON AND STEEL OUTPUT INCREASES.

Shoe Manufacturers Are Receiving Good Contracts.

NEW YORK, Aug. 21.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Trade and industrial activity continue to expand, improvement being of a conservative nature that promises permanency. There is little disposition to anticipate the future, but current distribution is larger and mercantile collections are more prompt.

In manufacturing lines the iron and steel industry is steadily adding to its output and shoeshops are receiving substantial contracts, although producers are handicapped by the persistent strength of hides and leather. Export trade is dull, inquiries from India and Red Sea points being at much lower prices than are quoted. The decline in supers has made a resumption of demand from China still more remote.

Hides are again very firm, large sales of Western packer hides being made at good prices.

Bank Clearings.

NEW YORK, Aug. 21.—Bradstreet's bank clearings report for the week ending August 20 shows an aggregate of $2,349,675,000 as against $2,520,411,000 last week and $2,588,789,000 in the corresponding week last year.

WHEAT BUYING RESUMED

EIGHTY CENTS PAID IN EASTERN WASHINGTON.

Seattle Creamerymen Not Disposed to Advance Butter Quotations. Poultry Prices Lifted.

SEATTLE, Wash., Aug. 21.—(Special.)—Wheat buying in the interior at 80 cents was reported today. This price is higher relatively than the market here. Dealers profess not to understand why such high prices are being paid at this time. Ninety-one and a half cents was bid here today for No. 1 bluestem, but everything in sight is held at 92 cents. Railroad officials have announced that there will be no delay in getting the wheat to tidewater this year, as plenty of cars are available.

If butter manufacturers feel tomorrow as they do today, there will be no advance in butter this week. Several large houses are standing out against any advance at this time, as a rise will necessitate a complete readjustment of retail prices. Manufacturers say there has been no shrinkage for the last two weeks.

Eggs were firm at 33 cents. One lot was reported sold at 34 cents.

Poultry is scarce and firmer. The strength is due to the bull methods of a large packing-house here that has a price out in the country 1 cent higher on hens and 2 cents on broilers than any one else has been paying. Dealers profess they are unable to understand why the advanced price is offered.

Oregon and Eastern Washington grapes were cut today to $1 or even less on very ripe stock. Peaches and cantaloupes were also easier.

With orders all filled for the present, potatoes were steadier today.

SALMON RUN ALMOST CEASES.

Pack on the Columbia River Will Fall Under Early Estimates.

ASTORIA, Or., Aug. 21.—Much to the surprise of every one connected with the industry, the run of fish has almost entirely stopped and, with the season closing next Tuesday, the pack cannot be much augmented by the cannerymen. The cold storage plants practically closed operations two weeks ago.

The total pack of the Columbia River cannot be given at this time, but approximately the cannery pack will be short in the aggregate fully 20 per cent, and the mild cured pack almost 50 per cent. Earlier estimates were much higher than this, but at that time it was expected that there would be a large run during the early part of August.

GETS A SET-BACK

Sharp Rally in Wheat Fails to Hold Good.

SELLING BREAKS MARKET

Prediction of Heavy Movement in Northwest Next Week Causes General Unloading at Chicago.

CHICAGO, Aug. 21.—Wheat opened weak, due mainly to the apparent indifference of foreign traders to the advance here yesterday as evidenced by declines at nearly all the principal European grain markets. The decline abroad was ascribed to more liberal offerings of wheat from Russia and points on the Danube and the favorable prospects for the Argentine crop. Trading in the local market was very quiet for a time, but the receipt of dispatches telling of low temperatures last night in Manitoba, Saskatchewan and Alberta brought out an active demand from several leading commission houses. These advices, together with an advance of more than 1 cent at Winnipeg, soon started a rally which carried prices more than 1 cent above the opening quotation.

About midday a prominent commission house began to sell freely, which started general selling by pit traders. The result was a break of 1½ cents, which landed all deliveries a trifle below the opening figures. This selling pressure was inspired to a large extent by numerous reports which predicted a heavy movement of new wheat in the Northwest next week. The market failed to recover from this set back, a heavy tone prevailing the remainder of the day. The close was weak at almost the lowest point.

Cold weather in the corn belt and the strength of wheat induced considerable purchasing of corn early, which caused moderate strength. The close was easy, although December and May were still a trifle above yesterday's final quotations.

Oats were independently firm all day. One of the chief factors in the situation was a local crop report, which was made public today and which placed the total yield for this year at 23,000,000 bushels less than the estimate made by the Government on August 1.

With the exception of a brief period of steadiness early in the day, growing out of buying by a local packer, provisions were weak all day. The close was at about the lowest point.

TENDENCY IS DOWNWARD

BEARS RENEW THEIR ATTACKS IN STOCK MARKET.

Southern Pacific Is Exception and Touches New High Mark for Year.

NEW YORK, Aug. 21.—Price movements in the stock market today were unimportant for the most part, with the trend toward a lower level. As on the previous days of the week, trading was of moderate proportions and largely restricted to the speculative element. That faction appears to be affected by existing conditions, but its more venturesome members are arrayed on the bear side. The baldness of the shorts has been somewhat arrested by the collapse of the cotton pool, which is said to have depleted the "paper" fortunes of several well-known operators in stocks. Political conditions are playing a more important part in the financial situation just now by reason of the reported turn of events in this state and the effect this change may have on the Presidential campaign.

The most favorable news was the publication of a canvass by a leading financial institution of the Middle West, whose 4000 correspondents, with few exceptions, reported the general outlook as highly encouraging.

Several important railroad returns were issued, that of the Reading Company for the eleven months ended May 31 last showing earnings of 7.87 per cent applicable to the common stock.

With few exceptions, the most notable being Southern Pacific, which made another record, touching 100⅜, the local market opened lower, the bears renewing their attacks along the line. Especial points of weakness were Rock Island preferred and St. Louis & San Francisco second preferred, both of which declined 3 points; Reading, American Smelting, Great Northern preferred and Atchison. The break in Rock Island and San Francisco securities widened later and was attended by a recurrence of gossip concerning the complicated financial condition of these properties. The market moved up during the noon hour under heavy short covering, a factor in the advance being the lending of call money at ⅛ per cent. Trading in the late session became desultory with some disposition in the direction of higher quotations, but increased weakness in Rock Island had a demoralizing effect, resulting in a heavy close with Southern Pacific's gain cancelled.

American gains were irregular abroad, with late firmness in the Harrimans on the pre-holiday covering. Gold to the amount of $1,100,000 was forwarded to Canada, but otherwise there is no check to the inflow of cash. International conditions are making for greater ease in the local money situation.

The bond market was irregular today, with Governments unchanged. Total sales, par value, $3,016,000.
