MUCH ACTIVITY IN TACOMA

O. F. COSPER TELLS HOW THE CITY IS GROWING.

Manager of New Commercial Club Discusses Expansion of Organization.

According to O. F. Cosper, secretary and manager of the Tacoma Commercial Club, who is in Portland for a few days, Tacoma is at the present time enjoying a period of exceptional commercial activity. The construction work of the Chicago, Milwaukee & St. Paul, Union Pacific and Northern Pacific within the city is a large factor in the prosperity prevailing in that city, as is also the improved condition of the lumber market. As manager of the recently organized Commercial Club, Mr. Cosper is much interested in the local institution, of which he speaks in the highest terms. Said Mr. Cosper yesterday: "After observing the success which has marked the career of the Portland Commercial Club our professional and business men determined to establish a similar organization in Tacoma. Since the opening of the club in May our membership has steadily increased until now we have in the neighborhood of 150 members. The plan of the club has been popular among all classes of business men from the start. During the winter we expect to increase the membership to at least 750. The club is composed—as is the Portland Commercial Club—of public spirited business men, who are looking to the advancement of the commercial inter-

ests of the city and the development of the surrounding country.

"At the present time the club is lending its efforts to the matter of good roads. We are starting in to build a road from the city to Mount Tacoma (Rainier) to connect with the Government highway which is now being constructed in the Reserve. The latter road is now finished to the foot of the Squaw Glacier. It is perhaps the only road in the United States which enables automobiles to be run to the foot of a glacier. When it is completed automobiles and other vehicles can reach Paradise Valley, a point on the mountain which has an elevation of 7000 feet. This will make it one of the scenic roads of the world.

"The Chicago, Milwaukee & St. Paul is doing an immense amount of construction work in Tacoma and vicinity. Pile drivers and dredges are at work preparing the site for the new terminal. In the southern part of the city where the new depot will be located 300 men and teams are at work on the excavations. The Harriman road has a large number of men employed in grading the new line. The Northern Pacific is asking for franchises from the city for the vacation of certain streets preparatory to the erection of its new depot. The structure is to cost between \$400,000 and \$500,000.

"Tacoma is doing all it can to advance the Seattle Fair. The petty jealousies that existed between the two cities are gradually being dispensed. Both are beginning to realize that what helps one city is bound in the end to benefit the other."

GLOVE SALE TODAY.

URNS DOWN RESOLUTION

COMMITTEE UNWILLING TO CLOSE PACKING PLANT.

Fight on Operation of "S. & S." Abattoir in City Limits Will Now Go Before Council.

The City Council committee on health and police, at its meeting yesterday morning, refused to make favorable recommendation for the adoption of a resolution by Councilman Kellaher closing the packing plant of the Schwarzhild & Sulzberger Company on the Macadam road. Mr. Kellaher, who was present to urge his resolution, was openly charged by Councilman Willis with being actuated by "some special motive."

ASKS POLICE PROTECTION

M. W. WILKINS FEARS NEIGHBORS AT WOODSTOCK.

Citizen Becomes Decidedly Unpopular by Ejecting Mrs. T. Newcomb From Her Home.

M. W. Wilkins, real estate dealer at Woodstock, has become so unpopular in that vicinity that he declares he is afraid of his life. To date he has started three prosecutions for demonstrations against his personal safety, signing warrants against two men named Snyder and Flint, on charge of assault, and one against Joseph Deter for threatening to use a gun.

be "run out" of the community as a result of his immense unpopularity. And while he insists he is not safe without police protection, other residents declare he will not be harmed by a "mob" although the acts of indignance and irresponsible individuals cannot be foretold.

You can live apart from almost every other trust but the trust that controls your food supply. If you don't want to burn Rockefeller oil—sit in the dark. If you don't want to walk on a bridge of Carnegie steel—take a row-boat. If you want to get away from the railroad trust—travel by the Ezra Meeker route. But what in the world are you going to do with the fellow who demands his tariff on the bread and meat you eat? It is Armour and Cudahy, the men who have made their millions and almost billions out of the meat trust, who are now manipulating the wheat markets of the country. It is Swift & Co. who are contracting the egg supply in the different poultry centers—and yet some people ask, "Why are eggs so high?" Out out the beef trust and its markets and patronize Smith.
