

SIX INDICTMENTS AT SPRINGFIELD

Grand Jury Brings Charges Against Alleged Leaders of Recent Riots.

CORONER GETS EVIDENCE

Autopsy Shows Manner of Death of Louis Johnson — Complaints From Whites and Blacks in Small Towns.

SPRINGFIELD, Ill., Aug. 21.—Six more alleged riot leaders have been caught in the grand jury here. The inquisitorial body tonight returned indictments against six persons, the documents charging 20 separate offenses. All were predicated upon the trouble at Loper's Restaurant and were identical with those charged against Kate Howard in the indictments returned yesterday.

Ball Fixed at \$2000 Each.

The persons indicted today are: Ernest Humphrey, huckster; Rudolph Bredemeyer, mechanic; John Schlemie, grocery clerk; William Sutton, cabman; Herbert Carr, blacksmith, and one other man whose identity was kept secret at the order of Judge Creighton, because he is understood to have fled from Springfield. Humphrey, Schlemie, Bredemeyer and the fugitive were each indicted four times for arson and riot. Carr and Sutton were made the subject of two indictments each, the same offense being charged. Judge Creighton fixed ball at \$2000 for each indictment.

Among the witnesses before the jury today was Harry Loper. He had testified at the coroner's inquest yesterday that he had little recollection of the identity of the man who destroyed his establishment, but it was stated tonight that he had made important revelations to the grand jury.

ROAD IS AGAIN PROMISED

(Continued From First Page.)

HOPES FOR ROAD REVIVED

J. Kruttschnitt Visits Tillamook and Inspects Work.

TILLAMOOK, Or., Aug. 21.—(Special.)—Julius Kruttschnitt, chief of maintenance of the Harriman system, with his son, J. Kruttschnitt, Jr., Attorney W. W. Colton, E. E. Lytle, president of the Oregon National Navigation Company, and Engineer George L. Davis inspected work on that railroad yesterday, going as far as Nehalem. Mr. Lytle made the statement that Mr. Harriman had bought the bonds of the Pacific Railway and Navigation Company. It is generally thought that work on this road will be resumed in the fall, depending upon the report of Mr. Kruttschnitt. Work on this road was stopped last fall, but since then an extension of time has been granted to Mr. Lytle, he agreeing to have ten miles of the road north of this city completed by next February.

EUGENE INVITES HARRIMAN

Asked to Pay Visit to City on His Way North.

EUGENE, Or., Aug. 21.—(Special.)—John Hartog, manager of the Eugene Commercial Club, on behalf of the club citizens, today invited Eugene, today following telegram to E. H. Harriman at Pelican Bay:

"Eugene wants you to stop off on your way north. It is wonderful progress will be made here. We surely hope on your acceptance. Please say when."

"EUGENE COMMERCIAL CLUB."

Eugene people would welcome an opportunity to entertain Mr. Harriman. The splendid new depot just completed by the Southern Pacific here is the pride of all Eugene.

RAILROAD CHIEFS SUMMONED

Harriman Will Confer With Officials at Pelican Bay.

KLAMATH FALLS, Or., Aug. 21.—E. H. Harriman has summoned the Harriman line, for a conference Julius Kruttschnitt, who is known as the chief assistant to Mr. Harriman in all his railroad business, E. H. Harriman, president of the Harriman line, Pacific system, and William Hood, chief engineer of the Pacific system, as well as a number of other prominent railroad officials connected with the Harriman lines. The object of this conference means more than a consideration of the road to Klamath Falls. It means that J. P. O'Brien, manager of the Harriman lines in the Northwest, who has just made a trip through Central Oregon with Governor Chamberlain, is making a report upon the country to the north of here and that Mr. Harriman and his officials will consider the advisability of the extension of the road from this city through to Nairn and making it the main line of the Southern Pacific between Portland and Sacramento. The officials are expected here at any time and the conference will be held upon their arrival.

Will Inspect Buxton Line.

HILLSBORO, Or., Aug. 21.—(Special.)—Julius Kruttschnitt, director of maintenance of the Harriman system, arrived in Forest Grove in an automobile late this afternoon, after a trip of inspection to Tillamook. Kruttschnitt will reach Hillsboro early tomorrow morning to inspect the Buxton line of the Pacific Railway & Navigation Company, control of which has been assumed by Harriman.

ROBBED BY BOY TRAMP

California Lad Garrotted by Youth From Portland.

RED BLUFF, Cal., Aug. 21.—(Special.)—Bert Olson, a boy tramp, 12 years old, who says his home is in Portland, was arrested here yesterday while swimming with a number of other boys. Michael Hugiira, 8 years old, displayed 50 cents. Olson gazed Hugiira with a sock and took the money.

SURPRISES WIFE'S LOVER

New York Husband Receives Unexpected Caller Most Rudely.

NEW YORK, Aug. 21.—David Osten lives somewhere in Brooklyn. Nobody seems to know just where, and it doesn't make any difference. His wife, who is a very good-looking woman, lives on the first floor at 336 East Sixty-seventh street. Last night Osten called to see his wife. She was out. Let in by the janitor, Osten sat down to wait for her.

Pretty soon Josephine O'Hara, the janitor's daughter, came up to say that a gentleman on the telephone wanted to know if he might call on Mrs. Osten.

"Ah, ha!" muttered Osten, or words to that effect, and then told the girl to tell the man certainly, to come right along.

And after taking off his coat and

rolling up his sleeves and taking off his collar and putting his watch on the mantelpiece and doubling up his feet, Osten sat down again.

When somebody rapped at the door a little while later, Osten opened it and saw Harry Olson, of 217 East Thirty-third street, in his very best, with a big bunch of pink roses in his hand. Osten said, "Come right in," grabbed the roses by the neck and started in to fan the apartment with him.

But in his haste Osten got a poor hold, and after a few revolutions Osten broke away and ran through to the rear of the apartment. Osten was behind, but Olson dived through a window into an areaway only eight or 10 feet below. Then the husband went out and got policeman Kruttschnitt. Sixty-second street station, who picked up Olson and arrested him on a charge of disorderly conduct for being in Osten's apartment without having permission and for diving through the window.

From the station-house an ambulance took Olson to the Presbyterian Hospital to receive care for a fractured wrist and contusions.

The big bunch of pink roses, which went through the window with Olson, went with him to the station-house.

COMMIT HEINOUS CRIME

SOLDIERS BRUTALLY MALTREAT WYOMING WOMAN.

Twenty-six Members of Artillery Battery in Chains Awaiting Trial.

DENVER, Aug. 21.—A News special from Laramie, Wyo., says that while every effort has been made by the authorities at Camp Emmet Crawford, a military maneuver grounds, to keep the fact secret, it is known that an atrocious crime was committed last Sunday by members of an artillery battery, who assaulted a young woman, leaving her bruised and unconscious upon the ground.

According to the story, a non-commissioned officer of the Twenty-first Regiment was executing the young woman when they were attacked by 22 men of the Artillery Battery. The officer was beaten into insensibility with a gun and the unfortunate young woman dragged to an isolated spot and brutally maltreated. After lying half dead for hours, the victim of the outrage revived and succeeded in crawling to a house some distance away and told her story.

Twenty-six men, alleged to have been implicated in the outrage, are under arrest and are chained together in the camp and are being held under constant guard to prevent lynching, as sentiment in the camp is strong against them. Six of the alleged assailants escaped from the camp but three of them were apprehended at Rawlins today. The other three are still at large.

EMULATES DARIUS GREEN

Farmer Insane From Heat Soars on Paper Wings.

GREENWICH, Conn., Aug. 21.—In an attempt to fly with a pair of wings of his own construction, Arloch Wheeler, a farmer of North Mansus, who has been reading accounts of aeroplane exhibitions, jumped from the roof of Hiram Jameson's barn and nearly met his death in the waters of Mianus River.

Wheeler has been following recent aeronautical experiments with keen interest. After working in the sun most of the day he suddenly left his turnip field and made for the house. Later Martin Jacobsen and Harry Lewis were attracted by a man to whose shoulders were attached wings of heavy wrapping paper six feet in length standing on the top of Jameson's barn.

"I am Count Zeppelin," cried the strange figure, and before he could be hindered he leaped into space.

The rear of Jameson's barn is about 10 feet from the edge of Mianus River, so that Wheeler alighted in the middle of the stream. He was pulled ashore unconscious.

When he came to he was perfectly sane, and said he had no recollection of the escape. Physicians say that he was suffering from the heat.

SURRENDER BETHEL'S MAN

English Consul-General Refuses Co-rean Editor Protection.

SEOUL, Aug. 21.—The British Consul-General today unconditionally surrendered to the Korean authorities the editor of the vernacular edition of the Daily News, who escaped from the police on August 15 and sought refuge in the home of B. T. Bethel, the English proprietor of the paper. Bethel at that time raised the English editor above his gate and positively refused to surrender the editor to the police on their demand, claiming for him extra territorial protection from the British Consul.

The trial of the editor will shortly commence on the charge that he was connected with the misappropriation of a part of the Korean national loan redemption fund.

SHERMAN TO MAKE ANSWER

(Continued From First Page.)

Individuals will continue to voice protests. With President Roosevelt, Mr. Taft, Mr. Sherman, Mr. Hitchcock, several other members in Congress and other state leaders for Mr. Hughes, it was not believed possible that the fight against the renomination of Mr. Hughes could gain any headway. In fact, political leaders are now predicting that no other name will be presented to the convention.

Mr. Sherman and Mr. Hitchcock arrived at Republican headquarters today shortly after 11 o'clock. Mr. Hitchcock was asked for a statement concerning the conference at Oyster Bay, but he said that the candidacy of Mr. Hughes should be made by Mr. Sherman. Without hesitating Mr. Sherman said:

"Well, the consensus of opinion among those who gathered at Oyster Bay to confer with the President was favorable to the renomination of Governor Hughes. It was developed by the reports received that the candidacy of Mr. Hughes is broader than New York state lines. The sentiment in the state seems to be decidedly toward giving Governor Hughes another term."

After Mr. Sherman had concluded his statement he appealed to Mr. Hitchcock for endorsement of his expressions.

"You are exactly right," said Mr. Hitchcock, "and have stated the facts more clearly than I could have done."

Both he and Mr. Hitchcock then said that no other name had been considered at the conference in connection with the Governorship. The question that was under discussion was whether or not it was in the best interests of the National ticket to have Mr. Hughes lead the Republican ticket or to nominate some other man for the Governorship. The opinion most strongly expressed was for Hughes' nomination.

ALBANY, N. Y., Aug. 21.—Governor Hughes refused to comment today on the announcement of his endorsement at the conference of party leaders with President Roosevelt yesterday.

LION WHELPS STARVING

Unnatural Mother Refuses to Perform Her Maternal Duties.

CHICAGO, Aug. 21.—Cy de Vry, animal keeper at Lincoln Park zoo, was searching yesterday for a Great Dane dog to act as mother to four lion cubs. They were crying piteously for something to eat. They had been born the day before, and their mother refused to suckle them.

De Vry tried to induce them to drink out of a large nursing bottle that he had used with success once in the case of a baby llama, but the whelps sniffed disdainfully, and whined worse than ever.

"There is only one thing that will save them," said the animal keeper, "and that is a Great Dane dog to act as foster mother."

The mother lion snarled viciously at everyone who came near her cage. She would not look at her whelps. If De Vry had not interfered the unnatural lioness would have killed them.

Race Riot in Chicago.

CHICAGO, Aug. 21.—Several persons were slightly hurt when whites and negroes at the corner of Chicago and Milton avenues became involved in a quarrel, using bricks and stones. When a patrol wagon loaded with police responded to a riot call the combatants had dispersed.

PROFIT IN FORESTS

Government Nets Total of \$447,063 From Reserves.

SOURCES ARE VARIOUS

Montana, California and Colorado Lead in Timber Sales; Oregon, Utah and Idaho in Grazing Permit Receipts.

OREGONIAN NEWS BUREAU, Washington, Aug. 21.—Figures just made public by the Forest Service show that under the new law requiring 25 per cent of the gross proceeds of National forest business to be paid over to the states and territories in which the forests are located, to be used for public schools and roads, the last fiscal year will yield these states \$447,063.

The amounts which go to each vary from \$313 for Arkansas to over \$78,000 for Montana. The small amount for Arkansas is because the two National forests in that state were created so recently that they have not yet got fairly under way. Oklahoma, with one small National forest, receives \$55,124, and the next smallest after these is Nebraska, with \$23,500. Since the forests in these last two states were set aside from land naturally destitute of trees, that the government might try forest planting on them, it will probably surprise most people that they should yield any revenues from the forest business.

It is interesting to note the states in which the largest volume of each of these three kinds of business is done, and study the causes which make their revenues correspondingly larger. Montana, California and Colorado lead in the sale of timber, the latter involving the development of water power.
