SLUMPS IN BATTING.

Mike Donlin Philosophizes Abou Inability to Hit the Ball.

Mike Donlin, the Giants' crack hitter, who is fighting it out with Wagner of the Pittsburg club for the hitting honors of the National League, had a batting slump the other day. He talked about it, not bitterly, but philosophically, with some of his friends.

Emphaticaly Denies Charges.

"As to the charge that I have grossly corrupted the politics of this state, bribed leaders of the Legislature and bought wholesale my way into the United States Senate, I desire to say here and now that such an allegation that I either directly or indirectly bribed or offered to bribe or corrupted or offered to corrupt any member of the Legislature of the State of Washington during the sesthe State of Washington during the ses-sion of 1966, or at any other time, or that I authorized or directed any other person to either bribe or offer to bribe any member of the Legislature at any time or that I directly or indirectly sought to corrupt any person at any time or that I directly or indirectly sought to corrupt any person at any time, is unqualifiedly false and without foundation in fact; and the entire article which appeared in the current issue of Collier's Weekly was evidently inspired by my political enemies, who by the use of such methods are now seeking my defeat at the primary election to be held on September 8.

May Have Erred.

"As I have hitherto stated, and that I now repeat, that I shall not treat my ene-mies with abuse. Let them continue to have a full monopoly of that. The great-er portion of my life has been spent in the State of Washington; it is an open the State of Washington; it is an open book, and I defy any man or set of men to point to a single act of mine, either public or private, inconsistent with honest and good citizenship; and the fact that Congressman Jones and his supporters and friends, who evidently inspired the article in Coller's Weekly, were silent as to my character until after the opening of this campaign, is indisputable silent as to my character until after the opening of this campaign, is indisputable proof of the falsity of the charges so made, and the insincerity of the authors thereof. That I have made mistakes is doubtless true, for it is human to err, but that those mistakes have been intentional no man can truthfully say.

Stands on His Record.

"Since my election to the Senate of the United States I have earnestly and faithfully endeavored to discharge the duties of that position with absolute fairness to all of the people of the State of Wash-ington, and at all times keep in view the best interests of the state. My record is best interests of the state. My record is before the people for either their approval or disapproval, and upon their declaion at the poils on the 8th of next month I shall cheerfully submit my aims. Very respect-fully.
