Democratic Candidate Contends Taft Is Not Heir to Roosevelt Reforms.

RECEIVED BY NEIGHBORS

Rousing Reception at Salem, Ill. While Speaking to Crowd at Station, Purse of \$300 Presented as Campaign Contribution.

SALEM, Ill., Aug. 26.-No crowd of such SALEM, Ill., Aug. 26.—No crowd of such size or enthusiasm ever turned out in this city, the birthplace of W. J. Bryan, as that of today when the Democratic candidate stopped over to greet his old friends and heighbors. The whole population was up and on hand early to extend a hearty welcome when Mr. Bryan reached here at 6:30 o'clock in the morning. They were augmented later in the day by thousands who came in on special trains.

The principal event was a speech by Mr. Bryan from a platform in the Courthouse grounds, in which he appealed to the "Roosevelt Republicans" to support the Democratic ticket, because, he said, they could not hope for a realization of the promised reforms of their party. Mr. Taft, he said, was not the heir to Republican reform.

Rides Out to Cemetery.

During the day Mr. Bryan divided most of his time with the Bryan and Jennings branches of his family. After luncheon he rode out to the cemetery and placed flowers on the graves of his parents and on his way back to the city inspected the new Bryan-Bennett library, presented by himself and the late Philo S. Bennett, of Connecticut. The building com \$550, of which Mr. Bryan contributed \$300. He also contributed the site, which is the site of the house in which he was born.

Several thousand of the citizens of Sa lem and visitors shook the candidate's hand distors shook the candidate's hand the court-house, hotel and railroad station, where the people fought their way to get near him. While Mr. Bryan was talking the crowd made up a purse of \$300 and handed the court of the to him as a campaign contribution. check for \$100 siso was given by a man from Clinton County.

Bids for Republican Votes.

Preceding Mr. Bryan's remarks, Theo-dore E. Bell, of California, chairman of the Kern notification committee, who ac-companied Mr. Bryan here, made a speech in which he compared the piat-forms of the two dominant parties. Mr.

forms of the two dominant parties. Mr. Bryan said in part:

"I feel that as the friend of the Rooseveit Republicans is not running this year I am going to got some of their votes. But I might put it on a stronger ground than that If a man dies and loaves no children, the property goes back to his parents and so far as reforms are concerned the Republican party has died without heirs and the reforms go back to the one from whom the Republican party got the reforms. tablican party has clear to be from whom the referring go back to the one from whom the Republican party got the reforms.

*So, I think I have a right to expect a good many Republican votes this year. Then, my friends, I am expecting large additions to the Democratic votes because the times are rige for a change in administrations. Mr. Test was making a speech over in Virginia and he forget that there was a country outside and he was mixing the speech for the Republicans of Virginia and he told those people that when a party stayed in power a good while it was apt to become corrupt and it was a good thing to have a change. His remarks had a larger application than he made of them that day.

*The Republicans in National office have been serving far away from home, and they have forgotten the struggling masses at home.

House Thwarts Will of People.

House Thwaris Will of People.

'In our platform we declared that the evershadowing issue was Shall the people rule? Mr. Taft says that they do rule. That is a question about which there is a difference of opinion. All who think they do rule today will differ with ma; all who think they do not rule will differ with Mr. Taft. Mr. Sherman said that the people do rule. He cught to know for he has been one of the fellows that have kept them from ruling. In the House of Representatives he has been one of the mm responsible for thwarting the will of the people, and I lay down the statement that the american people today do not rule. They do not conduct their own Government, and a Government conducted by others is not responsible to the will of the people. Now, if I am right, Mr. Taft is wrong, and Mr. Sherman is wrong. When they say that the people do rule, they admit that the people do gift to rule. If I can canvince the country that the people do not rule, then we are entitled to a verdict at this election and I am willing to meet the issue."

Mr. Bryan also said that the present rule of the House of Representative destroyed the opportunity of the people controlling their own Government. He charged that the rulers had converted that popular branch of the Government into a despotism. He also discussed the tariff and trests question, outlining his remedies given in the Des Moines and Indianapolis speech.

GETTING PARTY ORGANIZED

Democrats Will Open Eastern Head-

quarters in Hoffman House.

NEW YORK, Aug 28.—The Bastern headquarters of the Democratic com-mittee will be opened in the Hoffman House tomorrow on the arrival of Chair-man Norman E. Mack. Judge W. Tom-linson, Democratic National committee-man from Alabama and chairman of the sub-committee on organization, arrived today, as also did Assistant Secretary Burton. Mr. Tomlinson said:

"While we are absolutely certain of the election of Mr. Bryan we are going to work hard to get the Democratic party organized. In the last three Presidential campaigns the Republican party beat us because they were thoroughly organized

because they were thoroughly organized and we were not.

Mr. Tomlinson said that all the factions of the party were setting together and working in harmony for the election of Bryan. He said that the candidate would open his speaking tour in Chicago on Labor Day.

From Chicago he will go to Indiana, where he will deliver two or three speeches, then to Ohio, and he expects to be in New York about September 15, As planned now, Mr. Bryan will make one speech in Greater New York, one at Rechester, and another either at Bufat Rochester, and another either at Buffalo or Syracuse.

Declares Democratic Bid for Votes Pathetic and Futile.

NEW YORK, Aug. 28.—John Spargo, a member of the National committee of the Socialist party, has sent to W. J. Bryan a long letter in which he answers the appeal made by the latter at indianapolis for socialist votes.

In his letter he says it was a bold bid for Socialist support that Mr. Bryan made and he calls it a pathetic and nade, and he calls it a pathetic and

futile appeal.

He argues that the claim is insincere He argues that the claim is insincere and that the Democratic party is seeking a remedy for known abuses declaring that, "known abuses," are nowhere so flagrant as in the South, which is almost wholly Democratic.

Mr. Spargo also asserts that conditions in the South, with peonage and other evils rampant through the alleged toleration of Democratic office-holders, are not an indication of any sincers desire on the part of the Democratic party for the people to rule. In addition, he tells Mr. Bryan that "Democratic judges have been just as ready to serve injunctions, and Demo-

"There is no place in the Democratic party," concluded the letter, "for men who are looking and hoping for better and more just social conditions."

M'ALESTER, Okla., Aug. 26.—More than 39 miners were suffocated in Hailey-Dia coal mine No. 1, at Haileyville, 14 Ola coal mine MoAlester, this morning, when fire destroyed the holsting shaft and cut off air from the men below.

Twenty-five dead bodies were brought

Explorations into the channels this afternoon revealed the fact that none of the men met death by burning, but that all of them were suffocated. It is impossible yet for the rescuers to get far from the base of the mine shaft and it probably will be 3 hours before a thorough search of the entire mine can be made. Some of the channels are three-quarters of a mile long.

After the entombed miners had gone down on the cage a fire broke out, occasioned by the ignition of a barrel of oil, which a miner was trying to dislodge. The fiames spread at once to the hoisting shaft and the air shaft and all communication with the top was at once cut off. The first intimation the people at the top had of the trouble was the flames and smoke coming out of the shaft. shaft.

Hundreds of miners rushed to the scene and tried to get into the air shaft, but this was impossible, as fisme and smoke were coming up with such force as to drive them back. Then an effort was made to operate the cages running up and down the holsting shafts, but it was found that the cages, the cables and the suites had been burned. There was the guides had been burned.
