## BREWERS ARE INDIFFERENT

Traders Look for a Slow Market in the First Part of the Season. Krebs' Big Excursion Train.

With the season for hoppicking practically at hand, the market for hops, either old or new, is the dullest it has been this year. The demand has absolutely ceased except at prices too low to permit of any business between buyer and seller. The last contract-ing was done at 7c to 8c, and this is nomwere cannot be interested in new busi-as they claim to be well supplied with hops, and in view of the falling off in of them have already contracted with aving been engaged in this way. All this makes the prospect for the carly Fall maret look anything but rosy; whatever may tevelop later in the season, the trade looks or a very slow movement this side of New

Krebs Bros. have decluded to Schrift heir big excursion train of hoppickers on teptember 3. The train will leave Portland or Independence at 6:40 A. M. and will emait of 15 passenger coaches. Nine hundred pickers will be carried on the train. Up to last night, 500 of the pickers had signed up at Krebs' office in this city. doif Heiler writes from Prague, August

ditions:

The hop plantations in Bobemia have done very well during the last fortright and the hopa are developing aplendidy. In the Saaz district, a large crop of excellent quality is expected, if all goes well further; the picking of some sariles has already been commenced, and will become general by this week. Bohemia will this season produce about 250,000 cet, or more, of which quantity Saaz alone shares 180,000 to 200.

## MOVEMENT OF CALIFORNIA FRUIT. ts of Deciduous Varieties in the

The California movement of decidious its is reported by the California Fruit

an increase in this variety from now on for two or three weeks.
Grapes, 115 cars—The bulk of the grapes going forward for the last week have been Maingas. Their shipment will continue steady for the next week. Tokays—There has been quite a general understanding among the growers and shippers in squeal of the districts that they would not commence shipping Tokay grapes until the first of September, by which time it was believed they would be well colored sand sugared up, and this general understanding has been rigidly adhered to. By the first of September shipment will become quite general and there will ge forward freely. From present indications there will be available for shipment about the same quantity of for shipment about the same quantity of Tokays as was shipped last year.

## BUYERS AND SELLERS STILL APART But Difference Is Only Half a Cent at the

Board of Trade. Bidding was more animated at the Board of Trade yesterday, and a difference of only half a cent separated the ideas of wheat buyers and sellers. For the December dethery 21 cents was offered and 21% cents asked. September wheat was unchanged.

## RAIN HURTS THE FRUIT TRADE.

Receipts Are Large and Prices Are on an The rain put a damper on the fruit trade yesterday. Receipts of all varieties were heavy, but not much was moved locally, though the country business was very good. Prices generally were easy.

The bulk of the peach sales were at 50@ 75c, with an occasional fancy lot bringing 85c. A straight car of Ashland peaches came in last night and another car will be started for this market today. A shipment of Toppenish cantaloupes was received and quoted at \$2.25. Gregon cantaloupes sold at \$1.50@2, and muskmelons were offered

Tomatees continue to arrive in excessive quantities, which weakens the market, sales yesterday heling at 35@50c.

NEW YORK. Aug. 27.—Under the influence of a heavy covering movement, induced in part by an "evening up" process of the shorts concerned in the suspension of A. O. Brown & Co. today's stock market made pronounced progress in the direction of higher prices. Again the leaders were the Harriman lesues, Southern Pacific Advancing to a new high level and Union Pacific selling at its highest figure in considerably over a year.

As has been the case right along no tangible news attended the upward movement of these stocks, but the board room was full of gozsip about an licrease in the Southern Pacific dividend and talk of better earnings by both roads for July. Encouragement was found in the belief that no more untoward incidents are likely to result from the early week's excitement.

by Both roads for July. Encoursement was found in the belief that no more untoward incidents are likely to result from the early week's excitement.

An excellent impression was created by the case with which the new Atchison \$17,000,000 hond issue was marketed and by the generally better demand for high-class boods. Then, too, the dentinued cheapness of money has driven many wealthy individuals and institutions into the purchase of bonds and assured dividend payers.

Trading during the first hour was almost as large as for the previous day and sact adverse factors as the flood damages in the South and numerous unfavorable railroad returns seemed to call for scant strention.

For the month of July 55 railroads reported a decrease of 16.57 per cent in gross. For the second week of this month, returns from 36 reads show a decrease in gross of 11.17 per cent and for the third week, 12 leading lines fell eff 12.06 per cent. Among the individual statements were Northern Pacific with a deficit of \$60,000 for June, and Lake Shore & Michigan Southern, whose quarter ended June 30, showed a decrease of over \$125,000 in surplus. The poarest exhibit was that of the Southern Railway, which reported a decrease of not \$10,000 for June, and Lake Shore & Michigan Southern, whose quarter readed zone as \$150,000. That the Western roads are making very slow progress toward recovery is evidenced in the July statement of the Chicago & Northwestern, which reported a decrease of about \$150,000 in gross.

The Harriman issues became buoyant in the late session of the market and the entire ligh participated in the rise Reading made a net gain of 4%, and Southern Pacific sond Union Pacific scored net gains of 51, and 4% points respectively. Trading in the last two-named issues occustituted over \$100,000 king parted from the continent.

The demand for money continues at a standardly with freer offerings. Foreign exchange advanced smartly on active bidding to cover short contracts, but later loss its early gain. Another \$200,000 gold coin ch

DEALERS BELIEVE WHEAT BOUGHT OVERESTIMATED.

Advance in Poultry and Cheese Markets-Rain Hampers Trading in Fresh Fruits.

SEATTLE. Wash. Aug. 27.—(Special.)—Wheat receipts here today were 24 cars, the heaviest of the season. There was no change in values and no trading was done on the Merchants' Exchange this morning. Despite reports of heavy buying in the country, dealers here are inclined to think that the amount of wheat really bought is not as heavy as has been estimated.

Poutry advanced today, hens going to 14 cents and broilers to 17g18 cents. Buying prices in the country were advanced proportionately. The advance was due to the activity of a large house that is making strong efforts to boost prices. Changes in poultry are not ordinarily made in the middle of the week.

Fluctuations in Wheat at Chicago.

DECLINES AT THE OPENING

Buying by Shorts Steadles Prices. Which Are Later Depressed by Profit-Taking Sales - New . High Point for Oats.

CHICAGO, Aug. 27.—The wheat market was inclined to be weak at the start, spening quotations being unchanged to 150 to lower. The influences that created this hearish ing quotations being unchanged to 188 to lower. The influences that created this bearish sentiment were lower cables and weather conditions in the Spring wheat country. The rain predicted for last night for Minnesota and the Dakotas tailed to materialize, except in portions of Minnesota, and reports received today indicated that although harvesting had been somewhat delayed across the international boundary line by wet weather, the new crop in the Canadian provinces would be ready for market at an early date. Toward the end of the first hour the market became firm, owing to the buying of September by shorts and sash interests, the latter taking the nearly delivery and selling December. This resulted in a narrowing of the premium on December to only \$5c above September and caused September to advance from \$35c to 85c. Sentiment became bearish again late in the day and prices yielded to fairly liberal profit-taking by local holders. The weakness was partly due to the poor femand for cash wheat. With the exception of a few his \$50 Durum wheat and for hard Winter wheat for August loading, there was no export demand today and no cash wheat were reported. The market closed easy

May delivery, which advanced to 52 cents, a new high point for the crop. The close was strong with prices up %6 to 10. Frozfetons were firm. Total arrivals today were estimated at 46,000 compared with 18,000 the corresponding day a year ago. At the close prices were a shade to 12½c higher than the previous close.
