ATLANTIC CITY, N. J., Aug. 28.-The action of Governor Fort in threatening send troops into this famous resort to enforce the state liquor laws unless the people of Atlantic City observe the law caused a sensation today among the residents and Summer visitors. Another sensation was sprung at Mays Landing, the county seat of County, when the grand jury absolutely refused to obey the instructions of the court to return indictments against excise violators. Supreme Court Justice Thomas W. Trenchard, who had been requested by Governor Fort to sit with the County Judge, was so incensed at the action of the grand jury that he instantly discharged it with a severe reprimand.

The Governor's proclamation was not wholly unexpected, as there had been rumors for days that he would resort to the calling out of the militia, if necessary, to enforce the excise laws.

Assistant Attorney-General Gaskill, who is here assisting Prosecutor Goldenburg in the excles cases, says the Gov-ernor can call out the troops, although it is an unusual proceeding. Atlantic City Citizens Prefer Wide

ATLANTIC CITY. N. J., Aug. 28.— Governor Fort's proclamation created a sensation here. His drastic attitude on violations of the law was the topic of conversation everywhere.

For two or more years the Citizens' League has been active in obtaining evi-dence against alleged lawbreakers. This evidence, according to the league, has been ignored by the various grand juries. It is the custom for the grand jury to meet in the Fall, after the Summer season is over, and act on the cases pre-sented. The members of the jury usu-ally make no secret of their lack of sympathy with efforts to curtail the privileges of pleasure-seekers who fre-quent the resort. Joe Salus, foreman quent the resort. Joe Salus, foreman of the present grand Jury, recently declared in an interview that although he was a tectotaller, he favored an open Sunday because the business interests and the patrons desired it. BECKMAN BELIEVES RULING ON LUMBER RATES WILL STAND.

Secretary of Manufacturers Seeks to Have Tariff Take Effect September 15.

ABERDEEN, Wash., Aug. 28.—Victor H. Beckman, secretary of the Pacific Coast Manufacturers Association, reached the city several days ago to gather statistics and other information concerning the lumber interests on Grays Harbor. He advises everybody who pro-poses to build a house, a woodshed or a barn to build now, for lumber will never be as cheap as at present. In fact, it is being manufactured and sold, he says, at many points below actual cost. Mr. Beckman looks for a reasonably good trade, but does not anticipate any speinl activity in the market until the oming Spring.

Mr. Beckman is just now particularly concerned over the railway lumber tariff as fixed by the recent ruling of the In-terstate Commerce Commission. He does not believe the railroad companies will appeal from the decision and he is bending his energy towards securing, if pos-sible, the granting of the rates by Sep-tember 15, instead of October 15, the date agreed on by the railroads.

While Mr. Beckman says that an ef-

fort will be made to get a bill through fort will be made to get a bill through the next Congress placing lumber and its products on the free list, he does not think it likely it will pass. It would paralyze the lumber industry of Wash-ington, he says, if Congress should take such action. The combined products of Washington Mr. Beckman places at \$121,-600,600, of which about \$55,600,000 is lum-ber, so that the magnitude in lumber business compared to all the rest is very miness compared to all the rest is very

The lumber industry, in Mr. Beckman's opinion, is greatly discriminated against by the railroads everywhere. He cited the fact that in the State of Washington something like 53,000 tons of raw material, or so-called refuse, is going to waste annually because of the refusal of the railroad companies to give rates that would insure its transportation to the Eastern market.
