The general threw a long piece of red flannel at her husband's command, the same being caught by Mr. Trax. It was torn up on the spot and made into neckties for them and has since been their distinguishing mark at encampments and reunions. Some 15 of these ties were visible in today's parade.

Washington's Brave Leader. The flag of the department of Washington was carried by Joseph Dickerson, after many men had been shot at himself and was promoted on the field to a captaincy for bravery. His shoulder straps were sewed on by President Lincoln.

G. H. Boardman, commander of the Department of Washington and Alaska, explained the pride of his being at the head of his command by stating that the Maine reunion, originally set for September 1, had been postponed until the 10th, that he might be present among his old comrades. New York had well over a thousand in line. Department Commander W. H. Daniels rode at their head, as did all other department commanders with their staffs at the head of their respective commands. Utah, which will in all probability entertain the next encampment, displayed on the men's breasts keys inscribed "Come to Salt Lake in 1909, where the Segos will grow."

Probably no detachment of the marching body attracted more attention than did the members of the National Airline, Department Commander W. H. Daniels rode at their head, as did all other department commanders with their staffs at the head of their respective commands. Utah, which will in all probability entertain the next encampment, displayed on the men's breasts keys inscribed "Come to Salt Lake in 1909, where the Segos will grow."

BANKS HAVE AMPLE FOR EMERGENCY CURRENCY.

WASHINGTON, Sept. 2.—The summary of reports of condition of the National banks at the close of business July 15, 1908, shows the total of the item "bonds, securities, etc.," held by the banks to be \$765,975,250.

With a view to determining the amount of assets of this nature that would be available as securities for the additional circulation provided for by the Aldrich-Vreeland bill in the event of an emergency, the Controller of the Currency has made a classification of the item, which shows that of the total resources, the banks offered bonds to the amount of \$765,975,250, book valuation, classified as follows:

State, city, town, county, municipal or district bonds, \$36,144,006. Railroad and other corporation bonds, \$47,426,681. Miscellaneous bonds, not classified, \$17,289,891. Judgments, claims, etc., \$136,015,708.

It will be noted that the assets in question are ample in amount to provide security for additional circulation of the bill authorized by the Aldrich-Vreeland act without resorting to commercial paper; that is approximately 7 per cent, or \$55,000,000 on state, city, etc., bonds and 10 per cent, or \$45,500,000 on the remaining securities.

The country banks or those not located in reserve cities are shown by this statement to own nearly 70 per cent of the state, municipal, etc., bonds, over 48 per cent of railroad and other corporation bonds, and over 53 per cent of the combined investments of the latter class.

During the month of August, 1908, 20 National Banking Associations, with total capital of \$10,446,000 were authorized to begin business. The banks chartered in 19, with a capital of \$3,000,000, were banks with individual capital of less than \$50,000, and 10 with a capital of \$100,000 or more.

Many Banks Nationalized. The number of banks chartered since March 14, 1900, is 267, with authorized capital of \$25,598,000, and with a capital of \$16,870,000, were incorporated under the act of that date, and 1400, with a capital of \$158,627,800, under the act of 1904. From the latter date to August 31, 508 state banks, with capital of \$84,453,800, were converted into National banks, 1298 state and private banks reorganized as National banks, with capital of \$118,510,000 organized independently of other banks. As will be seen, the total of the latter class slightly exceeds the combined capital of the conversions and reorganizations.

There were in existence at the close of business August 31, 1908, 870 National banks with authorized capital of \$34,732,725 and circulation outstanding, secured by bonds, \$625,598,263.

DISCOVERS NEW COMET. Professor D. W. Morehouse Makes Find by Camera's Aid.

LAKE GENEVA, Wis., Sept. 2.—Director Edwin B. Frost, of the Yerkes Observatory, tonight announced the discovery of a new comet through photographic observations made by Professor D. W. Morehouse, of Drake University, of Des Moines. The presence of the comet was revealed today upon development of photographic plates exposed in three cameras last night. It is clearly defined and has a tail several degrees long and was found in the constellation Camelopardalis, remaining above the horizon throughout the night. Its position was 3 hours, 20 minutes of right ascension and 66 degrees north declination.

It is unusual, however, that Professor Morehouse said, could not be stated until after further observations had been made, but it probably will be visible through an opera-glass. The new comet, he said, has no connection with Halley's comet.

Professor Morehouse has been engaged during the summer in graduate work at Yerkes Observatory in astronomy, under Professor Barnard.

TREADWELL IS ACQUITTED. Banker Innocent of Perjury in Testimony Before Grand Jury.

SAN FRANCISCO, Sept. 2.—After being out seven hours, the jury which tried James Treadwell for perjury in connection with the examination by the grand jury into the affairs of the suspended California Safe Deposit & Trust Company, returned a verdict late this afternoon of acquittal. Treadwell, according to the charge in the indictment returned by the grand jury, committed perjury in his denial of the fact that he had hypothecated the bonds known as the Colton securities. It developed from the testimony of other witnesses that the securities were hypothecated by him and he now says that at the time that the question was propounded to him he did not understand it, and disclaimed that he made the answer which constituted the alleged perjury.

Temperatures will rise during the next few days in the United States. The next important barometric disturbance will cross the Rocky Mountains and Plain States about the close of this week; the central valleys and lake regions the beginning of next week and reach the Atlantic States Tuesday and Wednesday, attended by rains that will be confined largely to the central and northern districts of the United States and followed by a cold wave from the northwest and north central States.

Hillsboro Lays Concrete Curb. HILLSBORO, Or., Sept. 2.—(Special.)—Two blocks of concrete sidewalk will be laid this month and work has already commenced. The walks will be completed in time for the street fair, which commences September 30. Under the terms of the ordinance the county must build two solid blocks of walk around the Courthouse Square.

Build Library at Baker City. BAKER CITY, Or., Sept. 2.—(Special.)—Contractors were signed for the building of the Carnegie library and the contractor began the laying out of the building today. The estimated cost will represent an expenditure of about \$25,000.

CHARGES ITS ORDER

Interstate Board Allows Differential on Cedar.

VERMONT ELECTION SHOWS APATHY ON NATIONAL ISSUES.

WHITE RIVER JUNCTION, Vt., Sept. 2.—Returns from yesterday's elections in Vermont show the following: George H. Prouty, Republican, for Governor, 45,251; James E. Burke, Democrat, 45,943; Quincy E. Buckner, Independence League, 1252; Eugene M. Campbell, Prohibitionist, 826; J. H. Dunbar, Socialist, 479.

The total vote of all parties was 66,747, and Prouty's plurality over Burke was 29,376.

Although comparisons of this year's vote with the vote of four years ago cannot be made until the complete vote is received, it is estimated the falling off of the Republican vote was somewhat in excess of the reduction of the Democratic vote.

The decrease in the Republican vote amounted to 6 per cent, and in the Democratic vote to 3 per cent. The decrease was surprising, in view of the numerous local contests, at which the voting was quite heavy. Political leaders were inclined to look upon the returns today as indicating that the voters were apathetic as to the issue in regard to the National issues, but not to a marked degree.

The incoming Legislature will have at least one Democratic Senator, about 10 Democratic Representatives, and at least six members of the Independence League in the Lower House. Four years ago the House stood 20 Republican Democrats, so that the Republican majority of the coming year will be practically unchanged, and will insure the election of a Republican speaker of the House.

The election of a Democratic member of the Senate is expected, and a representative in that branch of the Legislature for the first time in several years.

The total vote of the minor parties this year, 2557, was the largest in the history of the state.

SHRINERS WILL INITIATE Arrangements Completed for Important Pilgrimage to Eugene.

At a meeting of Al Kader Temple last evening at the new Masonic Temple all arrangements were completed for the pilgrimage to Eugene. The prospective initiates into the mysteries of Shrinerdom can depend that they will be in the care of the pilgrims from Portland.

The Eugene special will leave the Union Depot Saturday morning at 8 o'clock, arriving at Eugene at 10 o'clock. It is expected that the ceremonial and banquet will be over by 2 o'clock Sunday morning, when the special will pull out for Portland, arriving at the Union Depot about 5 o'clock A. M.

As far as it was possible to ascertain there will be 30 pilgrims from Portland and Eugene will be joined by the well-known Shriner along points between here and Eugene.

There are a few items in the way of arrangements for the trip. The train will be the Oregonian, leaving Eugene at 10 o'clock, and will be met by the pilgrims at Eugene. There are a few items in the way of arrangements for the trip. The train will be the Oregonian, leaving Eugene at 10 o'clock, and will be met by the pilgrims at Eugene.

CASTRO INSULTS BRAZIL. Will Not Allow Her Envoy to Represent French Interests.

CARACAS, Sept. 2.—President Castro's refusal to permit the Brazilian Charge d'Affaires to accept the charge of French in Venezuela is the latest local incident on the smoldering fire of Venezuela's international complications. Speculation is that the Brazilian Charge d'Affaires will look upon this action as an insult directed at her and what France will do toward getting representation here for her interests after October 1, is a matter of course.

Holland Will Answer Castro. THE HAGUE, Sept. 2.—The Netherlands government has prepared a reply to the second communication sent to it by Venezuela. This note will be presented through the German Minister at Caracas.

WRANGLE IN RUEF CASE. Each Side Accuses Other of Tampering With Possible Juror.

SAN FRANCISCO, Sept. 2.—A third juror passed, subject to peremptory challenge, was accepted today in the trial of Ruef. For some past two months, the greater part of the day was devoted to investigation of allegations that efforts had been made by one side or the other to interview prospective jurors prior to their appearance in the courtroom.

Apart from Timothy Sullivan, the juror accepted in the afternoon was disqualified or excused.

General Weather Forecast. The following general forecast was issued yesterday by the weather bureau in Washington, and a copy was telegraphed to the local office of the bureau:

Temperatures will rise during the next few days in the United States. The next important barometric disturbance will cross the Rocky Mountains and Plain States about the close of this week; the central valleys and lake regions the beginning of next week and reach the Atlantic States Tuesday and Wednesday, attended by rains that will be confined largely to the central and northern districts of the United States and followed by a cold wave from the northwest and north central States.
