

NEW WAR CLOUDS OVER MOROCCO

German Move to Recognize Mulia Hafid Causes Anger in France.

BAD FAITH SAYS CABINET

Charges Germany With Ignoring Algeiras Treaty and Seeking Advantage—French Government Issues Declaration of Facts.

PARIS, Sept. 2.—Morocco has again found France to be the enemy against Germany. The latter power has provoked another acute crisis by notifying the powers signatory of the Algeiras convention that she considered the actual situation demanded the immediate recognition of Mulia Hafid, the usurping Sultan of Morocco. Germany has announced that it would not recognize Mulia Hafid, but that it would support the cause of the late Sultan's son, Mohammed VI, until he had reached the capital, which is now in the hands of Mulia Hafid.

A feeling of approaching consternation is manifested in official circles. The notification, which was made verbally, is not accompanied by any explanation of Germany's "brutal change of front," as it is termed here.

Germany Seeks Advantage.

France can see in Germany's action only her intention to disregard the Algeiras Act and seek a special position in Morocco for herself. The consequence of the German move is expected to be deplorable.

In answer to Germany's call for recognition of Mulia Hafid before he has entered into engagements with Europe, fanatical Arabs who had been gathering on the Algerian frontier attacked yesterday the French post at Boudenh. The Associated Press is in a position to present the French official view of the situation:

French Government's Statement.

"Germany's notification came as a complete surprise to France and Spain, who are engaged in elaborating a programme of the demands to be presented to Mulia Hafid for the safeguarding of the common interests of Europe and America in Morocco. These demands are to be submitted to the signatories of the Algeiras Act as soon as they are presented, and Germany was no notified several days ago. Germany took no exception to this course, and we presumed that she was entirely satisfied until suddenly there came this crash out of a blue sky.

"There was no longer any question of upholding Abd el Aziz. Both France and Spain were agreed that he had disappeared definitely from the horizon. What we proposed to do was to force Mulia Hafid to ratify the engagements of his brother, Abd el Aziz, before recognizing him. Now Germany comes forward with a proposition to recognize Mulia Hafid before he has given any guarantee as to his intentions in Morocco. The United States was a party to the work of the Algeiras conference, and reverting to the status quo ante, the powers must decide between the position of Germany and that of France; the position of France we consider to be most loyal to the spirit and letter of the Algeiras Act."

The French press is unanimous in considering Germany's action provocative, and possibly productive of an actual crisis.

HATZFELD NOTIFIES ROOT

German Action Calls Forth the Word From State Department.

WASHINGTON, Sept. 2.—During a visit to the State Department today Count Hatzefeld, the German Charge d'Affaires, called attention to the Berlin dispatch acknowledging it to be the opinion of the government that the speedy recognition of Mulia Hafid as Sultan of Morocco by the signatories of the Algeiras treaty would be in the interest of peace. Count Hatzefeld did not present any formal note from the German foreign office.

The attitude of the State Department in this matter appears to be one of expectancy and disposition to await developments.

The French press is unanimous in considering Germany's action provocative, and possibly productive of an actual crisis.

BULLETS CUT DOWN PANATICS

Frenzied Moors Charge in Face of Machine Gun Fire.

COLOMB-BEECHER, Algeria, Sept. 2.—Information transmitted from Boudenh and Bouznass by means of signal flags report that the Berbers renewed their attacks on the French post at Boudenh during the night. They attempted to carry the signal station at the rear of the blockhouse. A number of violent rushes were made, but they were repulsed with great slaughter. The attacks came to an end at daylight. The French lost three men.

WERE ONCE ON VERGE OF WAR

France and Germany Kept Apart by Algeiras Conference.

The gravity of the Moroccan situation lies in the fact that the contention over Morocco has brought Germany and France dangerously near war. The position of Morocco has excited the European powers to keen rivalry in securing a preponderance of influence over that country. Great Britain for a time held the chief influence, but as a result of the Anglo-French understanding, Great Britain definitely recognized France as having the preponderating influence in Morocco.

thousand good reasons—why the depositors of the banking institutions of the United States should be insured.

One of the reasons is the fact that the Oregonian asked: "Why should all the banks in the country guarantee each other's deposits when they have no voice in the management of other than their own institutions?"

One reason why is, as stated by Mr. Bryan, that the banks were made for the people—not the people for the banks. It is the people who are now the managers of the banks. The people who are now the managers of the banks.

I presume it is fair to say that the Oregonian read every day by at least 100,000 people, and as the question of guaranteeing deposits is one that affects every individual, it is not only a matter of public interest, but also a matter of public duty.

It is calculated that there are about 15,000,000 people who deposit money in the banks of this country, and as there are only about 1,000,000 voters it can readily be seen that this question is worth careful consideration by every citizen.

To guarantee deposits is putting a premium on the banks, and the result would be to place the banks in a position where they would be unable to compete with other banks.
