BRINGS FUNDS FOR OREGON CAMPAIGN

State Chairman Cake Bears Contribution From National Committee.

CERTAIN TAFT WILL WIN

Knows Nothing About Any Purpose to Depose Him-Looks for Harmony at Meeting to Be Held Tomorrow.

After an extended absence from the city, during which he astended the con-forence of Republican leaders at Colo-rado Springs and the Knights of Pythias convention at Boston, Judgs W. M. Cake, chairman of the Republican State Cen-tral Committee, returned to Portland yesterday. He had been away since July 16.

July 18. He came home by way of Seattle and was delayed for several days. However, he says, there was no occasion for un-easiness on the part of Republicans or others because of his delay. It was his intention to return in time to attend the Denships Republican conforence tomorrow, which he called before his departure, and he did so. An earlier return, he says, would have interfered with his plans. The con-ference will be heid in Redmen's Hall, Selling-Hirsch building, and will be called to order at 11 o'clock.

called to order at 11 o'clock. Judge Cake is enthusiastic in his con-fidence of Taft's success in November. And he is also confident of Republican success in this state. He denied that there is friction among the managers of the Republican campaign, and said that he had heard of no attempt to remove from the state chairmanship.

"If there is any friction it is from some other source," he said, "but I am quite sure there is no friction, and that Mr. Taft will carry this state by a big ma-jority. My interest in his success in Ore-gon is absolutely sincere and I have every reason to believe that all Republicans feel the same way about it."

Has No Intention of Resigning.

Judge Cake declared that he had been unable to keep track of local political conditions, for the reason that he was unable to read the Portland papers as much as he desired. He refused to believe much as he desired. He refused to onleve that there was foundation for the nu-merous articles that have been published to the effect that an effort would be made to remove him from the state chairmanship.

"I have no intention of resigning," he said, "because there is no reason for it. It has never been suggested to me, though you say it has been printed repeatedly in the Portland papers. My business will demand a great deal of my time, for I have been away for a month and a half, but now duties as chairman of the Benubbut my duties as chairman of the Repu lican State Central Committee will not in terfere with my business. The election of Balley as President of the

For some time Campbell has been con-ducting a quiet, but none the less vigor-ous campaign in his context for the Speakership. While he has not permitted his hand to appear too conspicuously in the reported combination, it is not believed that he would be averse to an arrange-ment that would win for him the Speak-

"In planning the campaign I have thought of a number of details which I want to present to the various delegates who attend the conference Saturday. Judge Cake was in conference with Max

master or Mayor May Do. When it comes to being real indus-

trious, State Senator A. A. Balley, of Multnomah County, has the other candidates for President of the Senate work-ing overtime. He not only is industrious, but he is ambitious, and, it is reported confidentially told some friends the other night that he would be either postmaster or Mayor of Portland before many months elapsed. Just where he got the hunch is not known and Balley did not
