

12 PUTS ELECTORAL TICKET IN FIELD Nominations Made by Oregon Independence Party in Mass Meeting.

HEARST'S NAME IS CHEERED Hugh J. McIsaac, of California, Pacific Coast Organizer of Party, Makes Address, Denouncing Old Parties.

Presidential electors were nominated last night by the Independence party at a mass meeting in Alinsky Hall and attended by about 100 members of the new political organization.

Both the old parties were arraigned severely by Hugh J. McIsaac, of San Francisco, Pacific coast organizer of the party, who urged that the only way by which existing political conditions could be corrected was by electing the Republican party to President.

Dismissing the platforms of the Republican and Democratic parties, particularly with reference to the McIsaac-McIsaac case, the declarations of both parties were meaningless and insincere.

John I. Knight, state committee man of the Independence party for Washington, also addressed the meeting and heartily commended William Randolph Hearst, who, he said, is a man of honest convictions and is doing more to purify the politics of the United States than any man or set of men.

Mr. McIsaac left on the Pacific coast train for California, where he will assist in completing the state and legislative tickets of the Independence party in that state.

Everything looks bright for the Independence party on the Pacific coast," said Hugh J. McIsaac last night. Mr. McIsaac has directed the work of organizing the party on the Pacific coast. We have nominated a strong electoral ticket in California as well as a good legislative ticket. The candidate for Congress from Oregon is Judge A. L. Fitzgerald, who undoubtedly will be elected.

party candidate for Congress probably will be elected. In the state of Washington an electoral ticket will be elected in a few days and probably several candidates for state offices will enter the field.

There is nothing the average theater audience, or street crowd, or almost any other sort of gathering for that matter, loves quite so much as a fight, whether it be composed of dogs, cats, roosters, bulls, human beings, or any other species of animal that has the power to give and take with vigor.

The author has made him the unlucky dog in the play all through, and Jimmy was doing his best to snuff the candle, evidently, for Monday afternoon when he came to the other bout he has to engage in the fight with Dorothy herself (for Dorothy is a creature of much higher quality), he got it again, this time splitting his knuckles.

Mr. McIsaac left on the Pacific coast train for California, where he will assist in completing the state and legislative tickets of the Independence party in that state.

WIN DESIGN FIGHT Architects Score Victory in School Controversy. REPORT IS MADE PUBLIC Clerk Instructed to Announce That Final Judgment Was Not Passed on Committee's Decision.

recommending that design No. 11 be accepted, although he referred in his report (if it is his report) to the "brutal plainness" of No. 11. Superintendent Rigger was named by the directors as a member of the jury on awards, and went into the details of all the designs with the full membership of the Board of Education, after it had been found that Mr. Somerville's recommendations could not be accepted and adopted.

Merits of Design No. 11. Comparing this plan with No. 11 we find that while the cubical contents of the buildings are very nearly the same No. 11 seems to present a more direct, simple and thorough plan of schoolhouse requirements and shows a great amount of ingenuity. The light very well arranged, the staircases and exits and the distribution of sanitary appliances are all that could be desired, and according to the latest developments in schoolhouse planning.

Resolution by Board. A brief executive session was held, after which the Board gave out the following resolution: On motion the clerk was authorized and directed to permit the unsigned recommendation of a member of the board, selected by the board, to examine and report on the plans submitted by the several architects in competition for the new East Side High School, to be inspected, examined and published by any person or persons, and to notify the attorney for the plaintiff in the case of E. Kromer et al. vs. H. F. Allen, clerk, of the action of the board, and to require the dismissal of proceedings of the said cause; and the clerk was further authorized to inform any persons interested that no report was ever made by the jury selected by the board, and the recommendation referred to was not signed by anyone or agreed to by the jury.

Complication in Reports. Furthermore, it develops, the report of Mr. Somerville was accepted, but his recommendations were not adopted. He dwelt at great length on design No. 10 and gave it great praise, but finished by recommending that design No. 11 be accepted, although he referred in his report (if it is his report) to the "brutal plainness" of No. 11.

ASSAILANT OF BOY IS FINED W. H. Hudson Pays \$20 for Striking Adolf Unna.

W. H. Hudson was fined \$20 in the Municipal Court yesterday morning for assault and battery on sixteen-year-old Adolf Unna, a Portland High School student. Although Hudson contended that he accidentally struck Unna with a croquet post which he had aimed at Unna's dog, the child's father testified that the blow was intentional. Testimony was given to the effect that Hudson attempted to kill the dog because it attacked the neighborhood cats.

Text of Report. Portland, Or., July 1, 1908. To the Board of Education, City of Portland—Gentlemen: Pursuant to the instructions of your committee, I have examined the plans submitted in the High School competition, and have the honor to report as follows: The problem of schoolhouse design being primarily a practical one I have endeavored, as far as possible, to judge these plans from a purely utilitarian point of view.
