Strong Demand Coming From California.

BARLEY MARKET

Opening of the Hop Market Expected Daily-Active Inquiry for Fresh Fruits - Dairy Produce Is Firmer.

There is a good California demand for onts which is keeping prices up firmly. The local consumption demand is also good and is likely to increase as the season progresses and railroad development work starts. What has given most strength to the market is the fact that practically no oats of the old erop were carried over, whereas a fair surerop were carried over, whereas a law supplies was condidently expected. Buyers have therefore been compelled to depend almost entirely on offerings of new oats. Prices quasted yeasierday ware \$25.50@20 per ton for No. 1 white and \$27.50@25 for gray. At the Board of Trade the feeling was de cidedly strong, bids showing an advance of 24 cents over Saturday's close.

Bariey is also firm but rather quiet, as offerings are light. There was a weaker tendency in the wheat market at the Board of Trade. The best offer for December wheat was 93, with BBW naked

celpts for the day were 120 cars wheat. cars and do sucks onts, 72 cars bariey, 50 sacks flour and 18 cars and 173 bales hay The range of futures was as follows (f. o. b warehouse, Portland);

WHEAT Open. High. Low. ... \$ 91 \$ 93 \$ 93 \$ 91 B .90 % A GATS. 1.47% BARLEY.

HOP BALING HAS BEGUN.

Actual Opening of the Oregon Market Ex-pected Any Day.

pected Any Day,

Hop-picking is in full swing in all parts
of Oregon today. The weather could not be
better for the harvest and the few samples
that have already come in show almost perfect quality. Whatever may be the quantity raised it is a certainty that the Oregon crop of 1908 will be superior in quality. In a few yards where picking began early in the week some progress has been made in balling. The epening of the market may be looked for

any day now.

There were no reports of business in this state yesterday, but between 500 and 600 bales were sold in Washington at 612 and 7 In its Issue of August 27 the Kentish Ob-

server said of the English crops

The condition of the hop crop is hardly so favorable as a week spo. The low temperature that prevailed all hat week encouraged the mould, which in some grounds has become serious. Added to this is the damage caused by the bolsterous winds of the last few days, the boys in exposed plantations being bruised, and branches broken off. There is little doubt that the general quality will not be so uniformly good as at one time seemed probable, though on the whole it will be a much better quality crop than has been grown for some years past—indeed, the bulk of the Bramilings and Fungles are better grown out and richer in condition than for the last ten or twelve seasons. In regard to the quantity, we consider a fair estimate to be 14 cwiz per acrowhich on an estimated acreage of 38,000 acres, would be 552,000 cwiz.

The Observer prints a letter from the sec-

The Observer prints a letter from the ec-retaries of the Worcestershire and Hereford-shire associations, representing a quarter of the total acreage of England, that the crop in those districts cannot exceed 9 cwt. per

LOCAL BUTTER SUPPLY IS LIGHT. Prices at the Moment Are Firm, but Future Is Uncertain.

Supplies at the present time are light and some of the cannerymen are finding difficulty in filling their orders. It is feared, however, that any advance in prices would be ill advised at this time, as it could not be maintained. The Seattle market already show signs of weakness and should prices there fall back to 30 cents, the current local quotation of 31% cents would be shaky. There is no abatement of the firmness in the local egg market, which is lightly sup-piled with fresh ranch stock, for which

there is a good demand.

Poultry receipts fell off yesterday, but the demand was also slow. Prices were un-

Receipts of peaches continue very large, but the demand is about equal to the supply and prices show little change. Quota-tions yesterday ranged from 35 to 75 cents. Pears were very plentiful and weak at 506 75 cents. Other fruits held about steady.

A car of California onlone is due today.

There was an adequate supply of all kinds of green truck.

Receipts of Produce.

Produce receipts as reported by the Board of Trade: 763 boxes apples, 48 boxes berries, 16 eacks green corn, 139 crates cantaloupes 27 crates celery, 3 cases cheese, 5327 gullons oream, 17 hoxes egaplant, 150 crates grapes, I car grapes, 38 boxes fish, 160 gallons milk. cars meat, 2 cars meions, 2875 boxes peaches, 221 boxes pears, 23 bexes plums, 881 boxes prunes, 190 sacks potatees, 3 boxes shrimps, 2 boxes squabs, 187 boxes to-

matoes, 1 car packing-house products, 7 bales hides, 97 boxes butter, 79 crates chickens, 178 hogs, 198 cases eggs, 88 veals. Bank Clearings. Olearings of the Northwestern cities yes-terday were as follows: Portland Cisarings.

FRUIT AND VEGETABLE SALES WILL BE HELD AT SEATTLE.

Commission Firm to Inaugurate a New Scheme in the Puget Sound City.

SBATTLE, Wash., Sept. 11.-(Special.)-There was little recovery in this market today. Every dealer on the street seemed posmessed of the desire to get rid of all perishable produce as soon as possible at almost any price. Watermelons sold at all prices. Dealers in some cases gave away melone that ten days ago were selling at 14

Announcement was made today that be-glinning next week auction sales of fruit and vegetables will be held in this city. The concern which is to operate this business is not a buyer, but proposes to handle the produce on a commission.

Butter is steady. Receipts of Eastern butter are heavy. Several cars of this butter have gone into storage here. Desiers say, nowever, that there is less butter, either Washington, Oregon or Eastern, in storage now than there was at a corresponding sate

last year.

Foultry was not as strong today.

Whoat was unchanged. Receipts here were the heaviest of the season.

QUOTATIONS AT SAN FRANCISCO.

Gradual Improvement in Business is Reported.

RESUMING

Production of Pig Iron at the Highest Rate This Year-Smallest Number of Failures in Any Week Since Last October.

NEW YORK, Sept. 11 .- Dun's review trade tomorrow will say: Small gains are the rule in trade reports, although changes are insignificant, and it is only in the aggregate that any tangible progress can be discerned. Interruption of a holiday made comparisons with the same week last year unusually adverse, but industrial reports indicate that much machinery that has been idle for so many months resumed after Labor day. Production of pig fron is now at a higher rate than at any previous time this year and many hands have returned to work at the tartile mills, while shipping departments in all wearing appared houses are beginning to feel the pressure of demand for Fail and Winter trade.

Trade is domestic hides is light eignificant, and it is only in the aggregat Trade in domestic hides is light.

Bank Clearings. NEW YORK, Sept. 11.—Eradatrect's bank clearings report for the week ending September 10 shows an aggregate of \$2.063.30.-000 as against \$2.562.217.000 lnst week and \$2.672.051,000 in the corresponding week last

morrow will say:
The advance of the Pall season and the notable enlargement of the movement of cereal and cotton to market at good prices have made and cotton to market at good press are marked for a further moderate expansion in jobbing and retail trade and collections. This is es-pecially marked at Western Pacific Cosst and Southern centers, but the point is made that agricultural sections have done better relatively than the large industrial cities in the matter of retail trade, possibly because of warm weather or the reduced purchasing power of city workers and the high prices

power of city workers and the high prices paid for farm products.

Business failures in the United States for the week ending September 10 number 190, against 210 last week, 192 in the like week of 1907, 164 in 1906, 188 in 1905 and 167 in 1905. The total reported this week is the smallest noticed since last October. Failures in Canada for the week number 25, which compares with 17 last week and 22 in this week last year.

compares with 17 last week and 22 in this week last year.

Wheat, including flour, experts from the United States and Canada for the week ending September 10 aggregated 5,012,485 bushels, against 5,895,026 last week and 5,291,895 this week last year. For the 11 weeks ending September 10 this year the experts are 55,706,875 bushels, against 54,500,982 in the corresponding period last year.

NEW YORK, Sept. 11.—The London tin market was lower today, with spot quoted at f180 2s 6d and futures at f131 7s 6d. The local market was easy at 28.25@28.50c. Copper was unchanged in London at 600 17s 6d for spot and f61 12s 6d for futures. The local market was dull and also unchanged, with lake quoted at 13.50@13.75c; electrolytic, 13.37%@13.62%c, and casting, 13.12%@15.57%c. 18.12% @18.37%c. Lead was unchanged at f18 6s 2d in London. The local market we easy at 4.02%@

Spelter declined to fig 5s in London. The local market was quiet at 4.75@4.50c.
The local iron market was unchanged.

NEW YORK, Sept. 11.—Coffee future closed steady, net unchanged to 5 point lower. Cables state that a strike is inter fering with business in Santos. Sales were reported in the local market of 18,000 bags including September, 5,90c; November, 5,60c; December, 5,60c; March, May and July. 5,55c. Spot. quiet; No. 7 Rio. 61c; No. 5,55c. Spot. quiet; No. 7 Rio. 61c; No. 6 Santos. 81c; mild. quiet. Cordova, 94.0

Sugar-Raw, quiet. Fair refining, 3.40c; centrifugal, .96 test, 3.90c; molasses sugar, 3.15c. Refined, steady; crushed, \$5.80; powdered, \$5.20; granulated, \$5.10, Fine Yacht Burns at Sea.

SOUTHAMPTON, Sept. 11 .- The Amer-

ican-built schooner-yacht Ceylon has been burned to the water's edge off St. Catha-

Webster, of Colombo, and the crew left in boats and were later picked up by a tug. The hulk has been towed into Ventner, Isle of Wight. The Coylon was built at Shooters' Island, N. Y., and was crossing the channel when she caught fire.

GIRL SHOOTS TO KILL Slump in Wheat Caused by Fatally Wounds One of Mob of Drunken Revelers.

CRIPPLE CREEK, Colo., Sept. 11 .-Armed with a rifle, Miss Annie Copien, of Gillette, 12 miles from here, fired as rapidly as she could into a group of men who were making a dis-turbance in front of her mother's home

last night.

As a result, Robert R. Young, operator of a cyanide plant at Gillette, was wounded in the head, and will not live. Wilbur Rand was shot in the left leg. Miss Coplen was brought to Cripple Creek. Her mother declares that the girl fought a battle with the men and won the victory.

According to the mother's story, the men were shouting and singing, and the girl stepped out upon the front stoop and requested them to desist. One of the men, the girl declares, fired at her. She immediately secured a rifle and returned to do battle. Every bullet she fired found a mark. As soon as she fired found a mark. As soon as the two men fell the others fled. Half an hour later the young woman was arrested by a Deputy Sheriff. Young is married, and has three children.

BRIDGE COSTS 55 LIVES Unions Attribute Fact to Employment of Unskilled Men.

NEW YORK, Sept. 11.—Fifty-five men have been killed in building the new Blackwell's Island bridge over the East River, according to the report of a committee of the Central Federation Union appointed to ascertain the fatalities in that work. The committee also found that 15 workmen have suffered death in the Chelsea docks improvements. The union workmen who investigated the subject said that city inspectors tried to conceal the loss of life, which the union men attribute to the employment of non-union men, inexperienced in work at lofty heights, and to the absence of proper precautions. The investigators declared that no life has been lost in building the new Manhattan bridge, where union labor is employed.

LAWYERS' ABSTRACT & TRUST CO.
Room 6. Board of Trade bidg.
Abstracts a specialty.

Have your abstracts made by the Title & Trust Co., 7 Chamber of Commerce. Actors Threaten Strike.

CHICAGO, Sept. 11.—The "talent" that entertains the patrons of Chicago's 400 nickel theaters proposes to strike Monday for increased salaries. About 990 of this class of "artists" are employed in the city. They have cir-culated a petition for signatures agreeing not to work for less than \$30 a week, or \$35 a week for teams. They are nearly all members of the Autors' Union. but the constitution of that organization forbids the fixing of a wage scale, so the present move is being taken independent

of the union. Worked His Help Overtime; Fined. ALBANY, Or., Sept. 11.-(Special.)-L. E. Hamilton, a local merchant, was arrested last evening for violation of the female labor law, and was fined \$25 by Justice Swan, before whom he pleaded guilty. This is the first arrest over made in Albany for violation of the law and the complaint was filed by State Labor Commissioner O. P. Hoff.

In the course of a report to the British colonial effice the resident of Borgu Province. Nigeria, mentions that the chief, Kokafu, is said to have reached the age of 2005, while his son did not die until he was 157. The latter visited Sokoto not many years ago.

Heavy Selling.

CLOSES AT THE LOWEST

Five Million Bushels Disposed Of in the Chicago Market-Demand for Cash Grain Is Lighter.

CHICAGO, Sept 11.—The wheat market opened firm, with prices a shade lower to \$6 % c higher and during the first hour fresh gains of nearly ic were made in all deliveries as a result of active buying by the leaders. The buillshe intustiasm seemed to be based on the firm demand for flour in the Northwest and the brisk inquiry for cash wheat at all the principal centers in this country. On the contrary, the Liverpool market was easy and the movement in the Northwest was egain exceedingly liberal. Receipts at Minneapells and Duluth today were more than four times as large as they were for the corresponding day hast year. As the session advanced offerings became more liberal and before the end of the day more than 5.000,000 bushels, it was claimed, had been sold by about a dozen traders. These heavy sales caused a slump in prices late in the session, from which the niarket falled to rally. New York reported 12 boatlonds had been taken for export, but locally the export business was at a standatill. Demand for cash wheat here was tame at yesterday's prices. Outside markets for cash wheat were firm early, but weakened later in the day. The market closed almost at the bottom.

All deliveries of corn sold at new high-record marks for the season. September at one time selling at \$1%c. December touched 70%c, and May 68%c. The fresh advance today was due to an active general demand, based on the reported drouth in the corn belt. The market closed casy, with prices were firm to 4c higher.

Extreme duliness prevailed in the oats market. At the sample tables, cash oats were firm to 4c higher. The market closed casy at not declines of 16 %c to %c.

Trading in provisions was notive and the market was strong all day. At the close prices were up 10 to 22%c compared with the previous close.

# 1.050 DEARER MONEY EXPECTED

STOCK VALUES ARE DEPRESSED AS CONSEQUENCE.

Transactions Are at Prices Below Those of the Preceding Day.

NEW YORK, Sept. 11 .- The action of the

stock market today was a striking testimony abundant money supplies in the movement which has carried prices to their current high leves. The stiffening of the money mar-ket was very moderate in degree and the available supplies remains far from the point of exhaustion. The inroads making on that of exhaustion. The inroads making on that supply establish its declining tendency, how-ever, and speculators today continued to pay more for loans on call than for many months proceding. The apprehension that the forces of depletion may cause still higher rates proved a formidable weight upon speculative Estimates by the accepted authorities of

Estimates by the accepted authorities of the week's currency movement to and from the interior indicated the turning of the tide away from New York, the excess of shipments from the city having reached the neighborhood of \$2,000,000. Leases on sub-Treasury operations, which amount to \$2,327,000, are extended by payments to the Government of drafts on New York correspondents to pay internal revenue taxes which make their appearance only when a demand for

cash at interior points is felt. There has cess at interior points in the daily average of National bank-notes presented to the sub-Treasury for redemption, which are features of the season when interior banks are shipping this form of currency to New York.

Fork.

Bank-notes of the United States Treasury fund still stand at upwards of \$52,000,000 in spite of efforts of extra clerical forces to keep up with the sorting of these bills for return to the lessuing banks. This compares with a maximum of over \$67,000 of these notes in the general fund in July, but it also notes in the general fund in July, but it also compares with only \$10,000,000 in the period before the reflux from the circulation began after the panic. The fact that only about \$17,000,000 of the \$80,000,000 bond-eccured circulation put out following the panic has been retired by the issuing banks explains this automatic pressure to get out of circu-

The rise in call money yesterday was trace-able to calling of loans by one of the banks engaged in accumulating exchange for the redemption of New York City revenue bonds in London on November 1. There were no reports of actual calling of loans today, but the supply of bank money offering on call is said to be less and this created fears of a definite turning away from great case in the definite turning away from great ease in the tuation. Various reports were current of the enough

mous volume of loans outstanding on call by the bank most closely affiliated with the group of capitalists credited with the con-inct of the upward movement of prices dur-ing the Supmer. The control of the situation ing the Summer. The control of the situation thus centered in a few hands causing uncasiness over the possible effect of a change in the market of so powerful a combination.

The passing of the dividend on the American Locomotive stock yesterday made the other railroad equipment stocks weak and the inferences from this were not helpful to the iron and steel group as a whole. Reading got some occasional benefit from the further consideration of yesterday's decision against he validity of the commodities clause of the deplurn act. While the market was irregu-ar at times, the day's business was done selow yesterday's prices and the prevailing Bonds were irregular. Total sales, par raiue, \$3,988,000. United States bonds were
